On August 20th, the City Council attended a groundbreaking ceremony for Pearl Park, a new park to be developed in the "Gem" streets in east Fullerton. Pearl Park was a common area lot in a tract of 33 multi-family apartments near Garnet Lane and Placentia Avenue. The City has spent several years working with the

The lot was used for abandoned cars, an encampment, and was a blight on the community.

The 17,000 square foot lot will contain park amenities, increased lighting, and areas for family gatherings. Many thanks to Assemblywoman Sharon Quirk-Silva who helped secured the Proposition 68 grant funding to help make the project a reality. The park is expected to be completed and

# **Hot Weather Tips!**

# Hot Weather Pet Safety Tips

### Never Leave Your Pet in the Car

Never leave your pet alone in a vehicle, even with the windows cracked; it only takes a few minutes for the temperature inside to reach 160 degrees. If you see an animal in a hot car, try to locate the owner or call 911!

### Watch out for Hot Pavement

Don't leave your pet standing on the hot pavement and keep walks to a minimum. Remember, if it's too hot for bare feet, it's too hot for bare paws!

### Always Provide Water & Shade

Bring your pet inside during the hot day and let them rest in a cool part of the house. Be sensitive to the needs of older, obese or short nosed dogs who are less tolerant of the heat and should be kept indoors in air-conditioning as much as possible

### Limit Exercise

Limit dog walks and exercise on hot days. Don't let playful pets overexert themselves in extremely warm weather. Exercise in the early morning and late evening to avoid the heat.

### Watch for Signs of Heatstroke

Excessive panting, excessive drooling, high heart rate, discolored gums, mobility problems, high body temperature, vomiting and diarrhea. If your pet is experiencing these symptoms, contact your vet immediately!

### Arboretum's Heritage House Was Once Dr. Clark's Office!

The Dr. George Clark House and Office, now known as the Heritage House, was moved to the Fullerton Arboretum at CSUF from its original location at 114 N. Lemon in 1972, where the vacant, decrepit, and vandalized home was carefully restored. Built in the Victorian Eastlake style in 1894 for \$1,300, the charming six-room cottage is one of the oldest surviving homes constructed within the city's

original town site. Dr. Clark, Fullerton's first physician and

surgeon, was one of the most highly regarded individuals in Fullerton.
