COVID-19 UPDATE

Communicating while wearing a face covering can be difficult for the deaf or hard of hearing. Take a moment to learn some tips that can help you and anyone you meet who faces these challenges. For more information and resources in a variety of languages, please visit www.ochealthinfo.com/novelcoronavirus. #OCCOVID19.

IF YOU INTERACT WITH DEAF AND HARD OF HEARING PEOPLE

People who are Deaf or have hearing loss struggle to communicate as more people wear mouth coverings and masks during the Coronavirus pandemic. Hearing loss and Deafness are a hidden disability. The Deaf and Hard of Hearing (DHH) community have ongoing concerns about the communication barrier when they come into contact with people who are wearing masks in public including hospitals, clinics, restaurants, businesses, and everyplace else.

Wearing masks is necessary to protect yourself and others to slow the spread of COVID-19, but are not conducive and create barriers for communication with DHH people. This notice will provide tips for enhancing communication between the hearing and DHH communities while mask coverings are necessary.

Challenges DHH people are faced with during COVID-19:

- X Lip-reading made impossible by wearing masks.
- X Most masks do not have clear openings for seeing mouth movement.
- X Sharing pens or pencils is a high risk when writing notes.
- X Lack of training for health care and other workers regarding communication needs of DHH.
- X Social distancing measures make it difficult to interact and limit the way DHH people can communicate.
- X Shortages of in-person sign language interpreters during the COVID-19 pandemic.

Tips for effective communication with DHH persons:

- Remove your mask for a few minutes to allow the DHH person to read your lips. If you are uncomfortable with removing your mask, you can use your gestures, body movement or any visual aids to help the DHH person to understand.
- ✓ The clear mask is the best method to communicate with a DHH person.
- Use your own pen or pencil for your protection. Any notepaper, paperless board (e.g. dry erase board), or phone app (e.g. Ava or live transcribe) can be useful.

While six feet physical distancing is necessary, following the above tips will enable you to more effectively communicate with DHH individuals. With your support, we can work together, to build stronger bridges of communicating with our valued DHH community.

During the COVID-19 pandemic, the City Council and all City Commissions/Committees may conduct meetings via video conferencing, per exemptions allowed under the Governor's Executive Order N-29-20. All agendas can be found online by clicking here. Comments on agenda items can be e-mailed before the meeting to cityclerksoffice@cityoffullerton.com. Council meetings are also broadcast live on Channel 3, Facebook Live, and streamed online.

The City Council met on July 7th with Closed Session beginning at 5:30pm, and Regular session beginning at 6:30pm and concluded at approximately 12:30 am, July 8th.

(continued)

The City had previously applied for a grant to conduct a museum master plan and to work with the Museum Association to identify ways to wean the Association off of City funding. With the COVID pandemic and hit to City revenues, the \$550,000 General Fund subsidy was eliminated and it was decided to reduce operations while we look to reform the relationship and position the Museum operations post-COVID. He also announced a new employee; a fireworks report will be brought before the City Council on July 21st and will be open to City Council direction; and, this City Council was the first in the County to expand on outdoor dining and retail program business opportunities.

(continued)

After much needed replacement, Public Works Equipment Division is excited to announce that two pieces of equipment in our fleet are going to be replaced. First a tired 2005 Toro Mower, will be replaced with a 2020 Toro mower with all the up to date clean air emission equipment. This will help to reduce our carbon footprint. The mower will be used for every-day functions like mowing schools and parks.

Second is a 2002 Ford F-550 Electrician's Bucket Truck, which will be replaced with a 2020 F-550 bucket truck, The replacement will be used every day to replace street lights and make facility repairs. The older truck will be used as a reserve for various departments—Streets for putting up banners, and Landscape for tree trimming. By having a truck on reserve, our Facilities Department won't have to stop their daily duties to lend out a truck.
