

Job Address: _____

City of Fullerton
General Notes for all Development Construction Projects¹

The following notes shall be either incorporated or attached to the approved construction/grading plans and represents the minimum standards of good housekeeping which must be implemented on all construction projects.

1. Sediments and pollutants from areas disturbed by construction shall be retained on site using structural controls to the maximum extent practicable.
2. Dust shall be controlled by watering.
3. No paint, plaster, cement, soil, mortar or other construction related materials shall be allowed to enter streets, gutters or storm drains. All materials and waste shall be removed from the site.
4. Stockpiles of soil shall be properly contained to reduce or eliminate sediment transport from the site to streets or adjacent properties via runoff, vehicle tracking, or wind.
5. Appropriate BMPs for construction-related materials, wastes, spills or residues shall be implemented to reduce or eliminate transport from the site to streets or adjacent properties via runoff, vehicle tracking, or wind.
6. Runoff from equipment and vehicle washing shall be contained at construction sites unless treated to reduce or remove sediment and other pollutants.
7. All construction contractor and subcontractor personnel are to be made aware of the required best management practices and good housekeeping measures for the project site and any associated construction staging areas.
8. At the end of each day of construction activity all construction debris and waste materials shall be collected and properly disposed in trash or recycle bins.

As the project owner or authorized agent of the owner, I have read and understand the requirements listed above, necessary to control storm water pollution from sediments, erosion, and construction materials, and certify that I will comply with these requirements.
