PET OF THE WEEK

Maquiro is a 7 year-old, senior boxer mix that wiggles his butt when he gets excited and has recently learned how to sit for a treat (who says an old dog can't learn new tricks?).

Maquiro was brought to OC Animal Care when his owner was no longer able to care for him. This handsome boy was so nervous and shy that our staff had to work with him daily to earn his trust. Maquiro has now blossomed into a happy boy that loves to play with his friends!

Because he can be nervous around other dogs and is sensitive to people taking his food away, we are searching to find Maquiro an experienced family that can continue to work with him and take him on his next adventure.

If you think Maquiro would be a good fit for you, please call us at 714-935-6848 to schedule an adoption appointment. He would love to find a family of his very own.

Holiday Gift Giveaway

The Department implemented the new "Holiday Gift Giveaway" for 2020 as a safe alternative replacement for the annual Breakfast with Santa special event. Held on Saturday, December 12, the event was hosted as a drive-thru opportunity for elementary students participating in the Maple and Orangethorpe After School Education and Safety (ASES) Program, as well as to previous participants of the City's After School All Stars and Teen Scene youth programs. Approximately 50 families registered to receive a free gift for each child and warm holiday wishes as part of this very special and festive event.

ASES Distance Learning

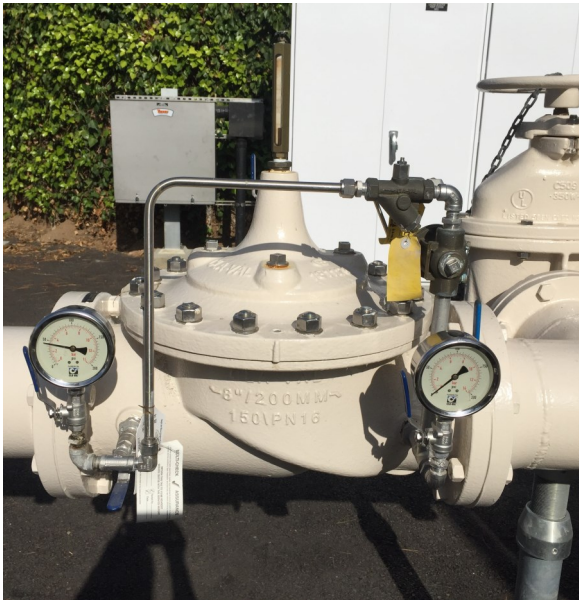

In order to continue to proactively respond to the COVID pandemic, the Department made the decision to operate the After School Education and Safety (ASES) after school program virtually via "Distance Learning," rather than in-person for the last week of programming prior to the holiday break. Students were able to log in and virtually interact with City staff in order to receive educational enrichment, homework help, stimulating activities, and social opportunities. The ASES program will remain closed for the week of January 4th, and will reopen in person on Monday, January 11. For questions related to the ASES program, please contact the Parks and Recreation Department at 714-738-3161.

Water Division: What Are Control Valves?

Control valves are used to regulate water in the City of Fullerton's water distribution system. For example, when a pump is activated, it begins to pump against a closed control valve which then slowly opens to gradually allow the water to enter the distribution system. This eliminates pressure spikes which can cause water mainline breaks. The other way control valves are utilized in water systems is to regulate water between pressure zones. Through various means, the control valves "sense" if pressure in a zone has low pressure or high demand and opens to move water to those areas. A perfect example of this is when the fire department hooks up to fire hydrants to fight a fire. We have 136 of these valves in the City and do regular preventative maintenance to ensure they operate properly when needed.
