Chicago, Illinois 60647

Subject: Phase I Environmental Site Assessment
2601 & 2651 East Chapman Avenue
Fullerton, California 92831
Partner Project No. 19-243062.1

Dear Mr. Matesi:

Partner Engineering and Science, Inc. (Partner) is pleased to provide the results of the *Phase I Environmental Site Assessment* (Phase I ESA) report of the abovementioned address (the "subject property"). This assessment was performed in conformance with the scope and limitations as detailed in the ASTM Practice E1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.

This assessment included a site reconnaissance as well as research and interviews with representatives of the public, property ownership, site manager, and regulatory agencies. An assessment was made, conclusions stated, and recommendations outlined.

We appreciate the opportunity to provide environmental services to you. If you have any questions concerning this report, or if we can assist you in any other matter, please contact me at (646) 863-8537.

Sincerely,

DRAFT

Sarah M. Fonseca
Principal

EXECUTIVE SUMMARY

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in accordance with the scope of work and limitations of ASTM Standard Practice E1527-13, the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) and set forth by Core Campus Manager, LLC for the property located at 2601 & 2651 East Chapman Avenue in Fullerton, Orange County, California (the "subject property"). The Phase I Environmental Site Assessment is designed to provide Core Campus Manager, LLC with an assessment concerning environmental conditions (limited to those issues identified in the report) as they exist at the subject property.

Property Description

The subject property is located on the southeastern corner of East Chapman Avenue and North Commonwealth Avenue within a mixed commercial and residential area of Orange County. Please refer to the table below for further description of the subject property:

Subject Property Data

Addresses:	2601 & 2651 East Chapman Avenue, Fullerton, California
Property Use:	Multi-Tenant Commercial Office
Land Acreage (Ac):	1.837 Ac
Number of Buildings:	Two
Number of Floors:	Two
Gross Building Area (SF):	79,991 SF (Total)
Net Rentable Area (SF):	80,020 SF (Total)
Date of Construction:	1975
Assessor's Parcel Number (APN):	338-091-07
Type of Construction:	Slab-on-Grade, Wood Framed, Stucco Exterior, Asphalt Paved Parking, Concrete Walkways
Current Tenants:	Vanguard Business Center (various offices)
Site Assessment Performed By:	Louis Mowers of Partner
Site Assessment Conducted On:	March 23, 2020

The subject property is currently occupied by Vanguard Business Center for multi-tenant commercial office use. Onsite operations consist of property management, maintenance, real estate firms, insurance firms, law firms, architectural firms, technology groups, and various medical offices. In addition to the current structures, the subject property is also improved with a large asphalt paved parking area, telecommunications shed, concrete paved walkways, and associated landscaping.

According to available historical sources, the subject property was formerly undeveloped as early as 1896; developed with agricultural land between 1938 and circa 1972; and developed with the current structure in 1975. Tenants on the subject property have included various offices (1975-Present).

The immediately surrounding properties consist of multi-family apartments to the north; single-family residential housing to the south across East Chapman Avenue; multi-tenant commercial offices to the east; and mixed-use multi-family apartments and commercial restaurants and retailers to the west across North Commonwealth Avenue.

According to previous subsurface investigation data obtained from the California Water Resources Control Board for a nearby property (351 North Placentia Avenue and Case #T0605901059), the depth to groundwater in the vicinity of the subject property is inferred to be approximately 75 feet below ground surface (bgs) and groundwater flow is inferred to be toward the south-southwest.

Findings

A *recognized environmental condition (REC)* refers to the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: due to release to the environment; under conditions indicative of a release to the environment; or under conditions that pose a material threat of a future release to the environment. The following was identified during the course of this assessment:

- Partner did not identify any recognized environmental conditions during the course of this assessment.

A *controlled recognized environmental condition (CREC)* refers to a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls. The following was identified during the course of this assessment:

- Partner did not identify any controlled recognized environmental conditions during the course of this assessment.

A *historical recognized environmental condition (HREC)* refers to a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls. The following was identified during the course of this assessment:

- Partner did not identify any historical recognized environmental conditions during the course of this assessment.

An *environmental issue* refers to environmental concerns identified by Partner, which do not qualify as RECs; however, warrant further discussion. The following was identified during the course of this assessment:

- Due to the age of the subject property buildings, there is a potential that asbestos-containing material (ACM) and/or lead-based paint (LBP) are present. Readily visible suspect ACMs and painted surfaces were observed in good condition. Should these materials be replaced, the identified suspect ACMs would need to be sampled to confirm the presence or absence of asbestos prior to any renovation or demolition activities to prevent potential exposure to workers and/or building occupants.

Conclusions, Opinions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 of 2601 & 2651 East Chapman Avenue in Fullerton, Orange County, California (the "subject property"). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property; however, environmental issues were identified. Based on the conclusions of this assessment, Partner recommends no further investigation of the subject property at this time.

- An Operations and Maintenance (O&M) Program should be implemented in order to safely manage the suspect ACMs and LBP located at the subject property.

1.0 INTRODUCTION

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in conformance with the scope and limitations of ASTM Standard Practice E1527-13 and the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) for the property located at 2601 & 2651 East Chapman Avenue in Fullerton, Orange County, California (the "subject property"). Any exceptions to, or deletions from, this scope of work are described in the report.

1.1 Purpose

The purpose of this ESA is to identify existing or potential Recognized Environmental Conditions (as defined by ASTM Standard E1527-13) affecting the subject property that: 1) constitute or result in a material violation or a potential material violation of any applicable environmental law; 2) impose any material constraints on the operation of the subject property or require a material change in the use thereof; 3) require clean-up, remedial action or other response with respect to Hazardous Substances or Petroleum Products on or affecting the subject property under any applicable environmental law; 4) may affect the value of the subject property; and 5) may require specific actions to be performed with regard to such conditions and circumstances. The information contained in the ESA Report will be used by Client to: 1) evaluate its legal and financial liabilities for transactions related to foreclosure, purchase, sale, loan origination, loan workout or seller financing; 2) evaluate the subject property's overall development potential, the associated market value and the impact of applicable laws that restrict financial and other types of assistance for the future development of the subject property; and/or 3) determine whether specific actions are required to be performed prior to the foreclosure, purchase, sale, loan origination, loan workout or seller financing of the subject property.

This ESA was performed to permit the *User* to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) liability (hereinafter, the "*landowner liability protections*," or "*LLPs*"). ASTM Standard E1527-13 constitutes "*all appropriate inquiry* into the previous ownership and uses of the *property* consistent with good commercial or customary practice" as defined at 42 U.S.C. §9601(35)(B).

1.2 Scope of Work

The scope of work for this ESA is in accordance with the requirements of ASTM Standard E1527-13. This assessment included: 1) a property and adjacent site reconnaissance; 2) interviews with key personnel; 3) a review of historical sources; 4) a review of regulatory agency records; and 5) a review of a regulatory database report provided by a third-party vendor. Partner contacted local agencies, such as environmental health departments, fire departments and building departments in order to determine any current and/or former hazardous substances usage, storage and/or releases of hazardous substances on the subject property. Additionally, Partner researched information on the presence of activity and use limitations (AULs) at these agencies. As defined by ASTM E1527-13, AULs are the legal or physical restrictions or limitations on the use of, or access to, a site or facility: 1) to reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil or groundwater on the subject

property; or 2) to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment. These legal or physical restrictions, which may include institutional and/or engineering controls (IC/ECs), are intended to prevent adverse impacts to individuals or populations that may be exposed to hazardous substances and petroleum products in the soil or groundwater on the property.

If requested by Client, this report may also include the identification, discussion of, and/or limited sampling of asbestos-containing materials (ACMs), lead-based paint (LBP), mold, and/or radon.

1.3 Limitations

Partner warrants that the findings and conclusions contained herein were accomplished in accordance with the methodologies set forth in the Scope of Work. These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property for the purpose of identifying recognized environmental conditions. There is a possibility that even with the proper application of these methodologies there may exist on the subject property conditions that could not be identified within the scope of the assessment or which were not reasonably identifiable from the available information. Partner believes that the information obtained from the record review and the interviews concerning the subject property is reliable. However, Partner cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. The conclusions and findings set forth in this report are strictly limited in time and scope to the date of the evaluations. The conclusions presented in the report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the Client. No other warranties are implied or expressed.

Some of the information provided in this report is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This report is subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollections of those persons contacted.

This practice does not address requirements of any state or local laws or of any federal laws other than the all appropriate inquiry provisions of the LLPs. Further, this report does not intend to address all of the safety concerns, if any, associated with the subject property.

Environmental concerns, which are beyond the scope of a Phase I ESA as defined by ASTM include the following: ACMs, LBP, radon, and lead in drinking water. These issues may affect environmental risk at the subject property and may warrant discussion and/or assessment; however, are considered non-scope issues. If specifically requested by the Client, these non-scope issues are discussed in Section 6.3.

1.4 User Reliance

Core Campus Manager, LLC engaged Partner to perform this assessment in accordance with an agreement governing the nature, scope and purpose of the work as well as other matters critical to the engagement. All reports, both verbal and written, are for the sole use and benefit of Core Campus Manager, LLC. Either verbally or in writing, third parties may come into possession of this report or all or part of the information generated as a result of this work. In the absence of a written agreement with Partner granting such rights, no third parties shall have rights of recourse or recovery whatsoever under

any course of action against Partner, its officers, employees, vendors, successors or assigns. Any such unauthorized user shall be responsible to protect, indemnify and hold Partner, Client and their respective officers, employees, vendors, successors and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys' fees) and costs attributable to such Use. Unauthorized use of this report shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties may apply.

1.5 Limiting Conditions

The findings and conclusions contain all of the limitations inherent in these methodologies that are referred to in ASTM E1527-13.

Specific limitations and exceptions to this ESA are more specifically set forth below:

- Interviews with past or current owners, operators and occupants were not reasonably ascertainable and thus constitute a data gap. Based on information obtained from other historical sources (as discussed in Section 3.0), this data gap is not expected to alter the findings of this assessment.
- Partner requested information relative to deed restrictions and environmental liens, a title search, and completion of a pre-survey questionnaire from the Report User. This information was not provided at the time of the assessment.
- Partner was unable to determine the property use at 5-year intervals, which constitutes a data gap. Except for property tax files and recorded land title records, which were not considered to be sufficiently useful, Partner reviewed all standard historical sources and conducted appropriate interviews.
- Partner submitted Freedom of Information Act (FOIA) requests to Orange County Health Care Agency and the Fullerton Fire Department for information pertaining to hazardous substances, underground storage tanks, releases, inspection records, etc. for the subject property and/or adjacent properties. As of this writing, these agencies have not responded to Partner's request. Based on information obtained from other historical sources, this limitation is not expected to alter the overall findings of this assessment.
- Partner observed approximately 10% of all interior units and all common areas. Based on the size and nature of use of the unobserved units (office), this limited method of survey is not expected to alter the overall findings of this assessment.

Due to time constraints associated with this report, the Client has requested the report despite the above-listed limitations.

2.0 SITE DESCRIPTION

2.1 Site Location and Legal Description

The subject property at 2601 & 2651 East Chapman Avenue in Fullerton, California is located on the north side of East Chapman Avenue and the east side of North Commonwealth Avenue. According to the Orange County Assessor, the subject property is legally described as "P BK 67 PG 15 PAR 1", and ownership is currently vested in Diaz Edmundo F TR since 2014.

Please refer to Figure 1: Site Location Map, Figure 2: Site Plan, Figure 3: Topographic Map, and Appendix A: Site Photographs for the location and site characteristics of the subject property.

2.2 Current Property Use

The subject property is currently occupied by Vanguard Business Center for multi-tenant commercial office use. Onsite operations consist of property management, maintenance, real estate firms, insurance firms, law firms, architectural firms, technology groups, and various medical offices. The subject property consists of two two-story buildings located on the southern side of the property and a large asphalt paved parking area located on the central and northern sides of the property. In addition to the current structures, the subject property is also improved with a large asphalt paved parking area, telecommunications shed, concrete paved walkways, and associated landscaping.

The subject property is designated OP for office development by the City of Fullerton.

The subject property was identified as an EDR Historical Cleaner and CA Hazardous Waste Tracking System site in the regulatory database report, as further discussed in Section 4.2.

2.3 Current Use of Adjacent Properties

The subject property is located within a mixed commercial and residential area of Orange County. During the vicinity reconnaissance, Partner observed the following land use on properties in the immediate vicinity of the subject property:

Immediately Surrounding Properties

North: Multi-Family Apartments (2650 College Place)

South: East Chapman Avenue beyond which is single-family residences (2634-2578 East Chapman Avenue)

East: Multi-Tenant Office (2461 East Orangethorpe Avenue)

West: North Commonwealth Avenue beyond which is multi-family apartments, and multi-tenant commercial retailers (2595 East Chapman Avenue and 555 North Commonwealth Avenue)

The adjacent property to the west was identified as a CA CERS Hazardous Waste site in the regulatory database report of Section 4.2.

The adjacent property to the south was identified as a RCRA NonGen/NLR site in the regulatory database report of Section 4.2.

2.4 Physical Setting Sources

2.4.1 Topography

The United States Geological Survey (USGS) *Anaheim, California* Quadrangle 7.5-minute series topographic map was reviewed for this ESA. According to the contour lines on the topographic map, the subject property is located at approximately 226 feet above mean sea level (MSL). The contour lines in the area of the subject property indicate the area is sloping gently toward the south-southwest.

A copy of the most recent topographic map is included as Figure 3 of this report.

2.4.2 Hydrology

According to topographic map interpretation, the direction of groundwater flow in the vicinity of the subject property is inferred to be toward the south-southwest. The nearest surface water in the vicinity of the subject property is the Santa Ana River located approximately 2.73 miles southeast of the subject property. No settling ponds, lagoons, surface impoundments, wetlands or natural catch basins were observed at the subject property during this assessment.

According to available information, a public water system operated by the City of Fullerton serves the subject property vicinity. The sources of public water for the City of Fullerton are surface water from the Orange County groundwater basin and Metropolitan Water District of Southern California (MWD). MWD's imported water sources are from Northern California and water from the Colorado River Aqueduct.

According to previous subsurface investigation data obtained from the California Water Resources Control Board for a nearby property (351 North Placentia Avenue and Case #T0605901059), the depth of groundwater in the vicinity of the subject property is inferred to be approximately 75 feet below ground surface (bgs).

2.4.3 Geology/Soils

The subject property is located in the Orange County Coastal Plain. The subject property is reported to be underlain by recent alluvium and Pleistocene non-consolidated sediments of the Lakewood, Coyote Hills, and the San Pedro Formations.

Based on information obtained from the USDA Natural Resources Conservation Service Web Soil Survey online database, the subject property is mapped as Mocho loam. The Mocho series consists of well drained, moderately high to highly permeable soils with parent material comprised of alluvium derived from sedimentary rock. These soils are on alluvial fans, flood plains, terraces, and valley floors. Slopes range from 0 to 2 percent.

2.4.4 Flood Zone Information

Partner performed a review of the Flood Insurance Rate Map, published by the Federal Emergency Management Agency. According to Community Panel Number 06059C0132J, dated December 3, 2009, the subject property appears to be located in Zone X, an area located outside of the 100-year and 500-year flood plains.

A copy of the reviewed flood map is not included in Appendix B of this report.

3.0 HISTORICAL INFORMATION

Partner obtained historical use information about the subject property from a variety of sources. A chronological listing of the historical data found is summarized in the table below:

Historical Use Information

Period/Date	Source	Description/Use
1896-1902	Topographic Maps	Undeveloped land
1938-1972	Aerial Photographs, Topographic Maps	Agricultural land
1975-Present	Aerial Photographs, City Directories, Topographic Maps	Current office building

The subject property parcel was historically used for agricultural purposes. There is a potential that agricultural related chemicals such as pesticides, herbicides, and fertilizers, may have been used and stored onsite. The subject property is either paved over or covered by building structures that minimize direct contact to any potential remaining concentrations in the soil. Additionally, during previous site development activities, near surface soils (where residual agricultural chemical concentrations would have most likely been present, if at all) were likely mixed with fill material or disturbed during grading. Also, it is common that engineered fill material is placed over underlying soils as part of the development activities. These additional variables serve to further reduce the potential for exposure to residual agricultural chemicals (if any). Based on these reasons, Partner concludes that the possible former use of agricultural chemicals is not expected to represent a significant environmental concern at this time.

Tenants on the subject property include various offices (1975-Present). No potential environmental concerns were identified in association with the current or former use of the subject property.

3.1 Aerial Photograph Review

Partner obtained available aerial photographs of the subject property and surrounding area from Environmental Data Resources (EDR) on March 30, 2020. The following was observed on the subject property and adjacent properties during the aerial photograph review:

Dates:	1938, 1947, 1952	Scale:	1"=500'
Subject Property:	Appears to be agricultural land		
North:	Appears to be agricultural land		
South:	Appears to be agricultural land across a road		
East:	Appears to be agricultural land		
West:	Appears to be agricultural land across a road		
Dates:	1963, 1972	Scale:	1"=500'
Subject Property:	No significant changes appear visible		
North:	No significant changes appear visible		
South:	Appears to be residential development across a road		
East:	No significant changes appear visible		
West:	Appears to be a commercial structure across a road		
Dates:	1977, 1987, 1989, 1990, 1995, 2005	Scale:	1"=500'
Subject Property:	Appears to be the current office building		
North:	Appears to be an office building		

Dates:	1977, 1987, 1989, 1990, 1995, 2005	Scale:	1"=500'
South:	No significant changes visible		
East:	Appears to be an office building		
West:	No significant changes visible		

Date:	2009	Scale:	1"=500'
Subject Property:	No significant changes visible		
North:	No significant changes visible		
South:	No significant changes visible		
East:	No significant changes visible		
West:	Appears to be vacant land		

Dates:	2012, 2016	Scale:	1"=500'
Subject Property:	No significant changes visible		
North:	No significant changes visible		
South:	No significant changes visible		
East:	No significant changes visible		
West:	Appears to be a new office building across a road		

Copies of select aerial photographs are included in Appendix B of this report.

3.2 Fire Insurance Maps

Partner reviewed the collection of Sanborn Fire insurance maps from Environmental Data Resources (EDR) on March 25, 2020. Sanborn map coverage was not available for the subject property.

3.3 City Directories

Partner reviewed historical city directories obtained from Environmental Data Resources (EDR) on March 30, 2020 for past names and businesses that were listed for the subject property and adjacent properties. The findings are presented in the following table:

City Directory Search for 2601 & 2651 East Chapman Avenue (Subject Property)	
Year(s)	Occupant Listed
1975	Various offices including Johnson Courtland CPA (2601 East Chapman Avenue); Various offices including Fullerton Psychological Services (2651 East Chapman Avenue)
1980	Various offices including Action Process Service and Tuller & Tuller Attorneys (2601 East Chapman Avenue); Various offices including CIS Marketing (2651 East Chapman Avenue)
1986	Various offices including Busak Financial Funding (2601 East Chapman Avenue); Various offices including Absolute Sales (2651 East Chapman Avenue)
1991	Personal Performance Consultants, Personal Pioneering, Personal Plant Service, Oneal Dale PhD (2651 Chapman Avenue); Various offices including Canzone Tony Insurance Agency (2601 East Chapman Avenue)
1995	Various offices including Fullerton Therapy Center, Flansburg Leona (2651 Chapman Avenue); Various offices including Alpha 2 Secretarial Service (2601 East Chapman Avenue)
2005	Various offices including A Pro Construction (2601 East Chapman Avenue); Various offices including All Purpose Trading (2651 East Chapman Avenue)
2010	Various offices including Hoffman Gold & Associates (2601 East Chapman Avenue); Various offices including Alatorre Tax & Account Firm (2651 East Chapman Avenue)
2014	Various offices including Gable Engineering and Income Property Management (2601 East

City Directory Search for 2601 & 2651 East Chapman Avenue (Subject Property)

Year(s)	Occupant Listed

	Chapman Avenue); Various offices including Action Consultants Therapy (2651 East Chapman Avenue)

Based on the city directory review, no environmentally sensitive listings were identified for the subject property addresses.

City Directory Search for Adjacent Properties

Year(s)	Occupant Listed

1960	Frances (2634 East Chapman Avenue); Gilbert, Clarke Avenue Ints (2578 East Chapman Avenue)
1965	Frances Manchester (2634 East Chapman Avenue); Gilbert (2578 East Chapman Avenue)

1970	Frank Gilbert (2578 East Chapman Avenue)
1975	Galleon Apartments (2650 East College Place); Frank Gilbert (2578 East Chapman Avenue)
1980	Galleon Apartments (2650 East College Place); Frank Gilbert (2578 East Chapman Avenue)
1986	Galleon Apartments (2650 East College Place)
1991	Galleon Apartments (2650 East College Place)
1995	Galleon Apartments (2650 East College Place)
2005	Victorias Dress Shop, Labri Management, Front Store Bargain (2650 College Place)
2010	Mirai Factory, Front Store Bargain, Labri Management, Victorias Dress Shop, CLC Enterprise, Triada Enterprises, TC Music (2650 College Place)
2014	CLC Enterprise LLC, CMB Stills, Viva Bandita, Labri Management (2650 College Place); F&J Investments, Oggis Pizzas & Brewing Co (2595 East Chapman Avenue); CMS Consulting Services (2578 East Chapman Avenue)

Based on the city directory review, no environmentally sensitive listings were identified for the adjacent property addresses.

Copies of reviewed city directories are included in Appendix B of this report.

3.4 Historical Topographic Maps

Partner reviewed historical topographic maps obtained from Environmental Data Resources (EDR) on March 30, 2020. The following was observed on the subject property and adjacent properties during the topographic map review:

Dates: 1896, 1898, 1901, 1902

Subject Property:	Depicted as vacant land within a rural area
North:	Depicted as vacant land within a rural area
South:	Depicted as vacant land within a rural area
East:	Depicted as vacant land within a rural area
West:	Depicted as vacant land within a rural area

Dates: 1932, 1952

Subject Property:	Not depicted
North:	Not depicted
South:	Not depicted
East:	Not depicted
West:	Not depicted

Date: 1935

Subject Property: Depicted as vacant land within a suburban area
North: Depicted as vacant land within a suburban area
South: Depicted as vacant land across a road
East: Depicted as vacant land within a suburban area
West: Depicted as vacant land within a suburban area

Dates: 1942, 1950

Subject Property: Depicted as agricultural land
North: Depicted as agricultural land
South: Depicted as agricultural land across a road
East: Depicted as agricultural land
West: Depicted as agricultural land

Date: 1949

Subject Property: Depicted as agricultural land
North: Not depicted
South: Depicted as agricultural land across a road
East: Depicted as agricultural land
West: Depicted as agricultural land

Dates: 1964, 1972

Subject Property: Depicted as vacant land
North: Depicted as vacant land
South: Shaded to depict urban land across a road
East: Depicted as vacant land
West: Depicted as an office building across a road

Date: 1981

Subject Property: No significant changes depicted
North: Depicted as an office building
South: No significant changes depicted
East: No significant changes depicted
West: No significant changes depicted

Copies of reviewed topographic maps are included in Appendix B of this report.

4.0 REGULATORY RECORDS REVIEW

4.1 Regulatory Agencies

4.1.1 Health Department

Regulatory Agency Data

Name of Agency:	County of Orange Health Care Agency (OCHCA)
Point of Contact:	N/A
Agency Address:	1241 East Dyer Road, Suite 120, Santa Ana, CA 92702
Agency Phone Number:	(714) 433-6000
Date of Contact:	March 17, 2020
Method of Communication:	Online
Summary of Communication:	As of the date of this report, Partner has not received a response from the PCHCA for inclusion in this report.

4.1.2 Fire Department

Regulatory Agency Data

Name of Agency:	Fullerton Fire Department (FFD)
Point of Contact:	N/A
Agency Address:	312 East Commonwealth Avenue, Fullerton California
Agency Phone Number:	(714) 738-6500
Date of Contact:	March 17, 2020
Method of Communication:	Email
Summary of Communication:	As of the date of this report, Partner has not received a response from the FFD for inclusion in this report.

4.1.3 Air Pollution Control Agency

Regulatory Agency Data

Name of Agency:	South Coast Air Quality Management District (SCAQMD)
Point of Contact:	https://xappprod.aqmd.gov/find
Agency Address:	21865 Copley Drive, Diamond Bar, California 91765
Agency Phone Number:	(909) 396-2000
Date of Contact:	March 30, 2020
Method of Communication:	Online
Summary of Communication:	According to records reviewed, Vision Environmental Services at 2651 East Chapman Avenue was listed in the database with no permits to operate or violations.

4.1.4 Regional Water Quality Agency

Regulatory Agency Data

Name of Agency: Los Angeles Regional Water Quality Control Board (RWQCB)
Point of Contact: <https://geotracker.waterboards.ca.gov/>
Agency Address: 320 West 4th Street #200, Los Angeles 90013
Agency Phone Number: (213) 576-6600
Date of Contact: March 27, 2020
Method of Communication: Online
Summary of Communication: No records regarding hazardous substance use, storage or releases, or the presence of USTs and AULs on the subject property were on file with the RWQCB.

4.1.5 Department of Toxic Substances Control

Regulatory Agency Data

Name of Agency: California Department of Toxic Substances Control (DTSC)
Point of Contact: <https://www.envirostor.dtsc.ca.gov/public/map/>
https://hwts.dtsc.ca.gov/report_search.cfm?id=5
Agency Address: 9211 Oakdale Avenue, Chatsworth, California
Agency Phone Number: (818) 717-6500
Date of Contact: March 30, 2020
Method of Communication: Online
Summary of Communication: No records regarding hazardous substance use, storage or releases, or the presence of USTs and AULs on the subject property were on file with the DTSC.

4.1.6 Building Department

Regulatory Agency Data

Name of Agency: Fullerton Building Department (FBD)
Point of Contact: Online
Agency Address: 303 West Commonwealth Avenue, Fullerton CA 92832
Agency Phone Number: (714) 738-6540
Date of Contact: March 27, 2020
Method of Communication: Online
Summary of Communication: Records were available for review, as further discussed in the following table.

Building Records Reviewed for 2601 & 2651 East Chapman Avenue (Subject Property)

Year(s)	Owner/Applicant	Description
1/13/66	Titon Theaters	Electrical permit for a new building
12/16/74	Patscheck Veiga	Construct new office building
1/14/75	Patol Voyage	Permit to connect to sewer
7/14/75	Patscheck Veiga	Certificate of occupancy of an office building
8/13/75	BDB Electric	Electrical permit for an existing building

Regulatory Agency Data

11/2/76	Patscheck Veiga	Interior alterations
12/21/76	Patscheck Veiga	Interior alterations
3/8/77	Datscheck Veigs	Interior alterations
9/21/77	Patscheck Veiga	Electrical permit
9/17/87	Gagik Galstine	Certificate of occupancy of commercial property
1/26/89	Santee Realty Co	Permit to re-roof

4.1.7 Planning Department

Regulatory Agency Data

Name of Agency:	Fullerton Planning Department (FPD)
Point of Contact:	Online
Agency Address:	303 West Commonwealth, California
Agency Phone Number:	(714) 738-6540
Date of Contact:	March 27, 2020
Method of Communication:	Online
Summary of Communication:	According to records reviewed, the subject property is zoned OP for office professional by the City of Fullerton.

4.1.8 Oil & Gas Exploration

Regulatory Agency Data

Name of Agency:	California Division of Oil, Gas and Geothermal Resources (DOGGR)
Point of Contact:	N/A
Agency Address:	4800 Stockdale Highway, Bakersfield, California 93309
Agency Phone Number:	(916) 322-1080
Date of Contact:	March 27, 2020
Method of Communication:	Online
Summary of Communication:	According to DOGGR, no oil or gas wells are located on or adjacent to the subject property.

4.1.9 Assessor's Office

Regulatory Agency Data

Name of Agency:	Orange County Treasurer-Tax Collector (OCTTC)
Point of Contact:	http://www.ttc.ocgov.com/proptax/infofaq/faq/gis
Agency Address:	333 West Santa Ana Boulevard, Santa Ana California 92701
Agency Phone Number:	(855) 886-5400
Date of Contact:	March 30, 2020
Method of Communication:	Online
Summary of Communication:	According to records reviewed, the subject property is identified by Assessor Parcel Number (APN) 338-091-07. No records regarding property ownership, acreage/square footage, building and utility information for the subject property was on file with the OCTTC.

4.2 Mapped Database Records Search

Information from standard federal, state, county, and city environmental record sources was provided by Environmental Data Resources, Inc. (EDR). Data from governmental agency lists are updated and integrated into one database, which is updated as these data are released. The information contained in this report was compiled from publicly available sources and the locations of the sites are plotted utilizing a geographic information system, which geocodes the site addresses. The accuracy of the geocoded locations is approximately +/-300 feet.

Using the ASTM definition of migration, Partner considers the migration of hazardous substances or petroleum products in any form onto the subject property during the evaluation of each site listed on the radius report, which includes solid, liquid, and vapor.

4.2.1 Regulatory Database Summary

Radius Report Data				
Database	Search Radius (mile)	Subject Property	Adjacent Properties	Sites of Concern
Federal NPL or Delisted NPL Site	1.00	N	N	N
Federal CERCLIS Site	0.50	N	N	N
Federal CERCLIS-NFRAP Site	0.50	N	N	N
Federal RCRA CORRACTS Facility	1.00	N	N	N
Federal RCRA TSDF Facility	0.50	N	N	N
Federal RCRA Generators Site (LQG, SQG, CESQG)	0.25	Y	Y	N
Federal IC/EC Registries	0.50	N	N	N
Federal ERNS Site	Subject Property	N	N	N
State/Tribal Equivalent NPL	1.00	N	N	N
State/Tribal Equivalent CERCLIS	1.00	N	N	N
State/Tribal Landfill/Solid Waste Disposal Site	0.50	N	N	N
State/Tribal Leaking Storage Tank Site	0.50	N	N	N
State/Tribal Registered Storage Tank Sites (UST/AST)	0.25	N	N	N
State/Tribal Voluntary Cleanup Sites (VCP)	0.50	N	N	N
State/Tribal Spills	0.50	N	N	N
Federal Brownfield Sites	0.50	N	N	N
State Brownfield Sites	0.50	N	N	N
EDR MGP	Varies	N	N	N
EDR US Hist Auto Station	Varies	N	N	N
EDR US Hist Cleaners	Varies	Y	N	N

4.2.2 Subject Property Listings

The subject property is identified as an EDR Historical Cleaner and CA Hazardous Waste Tracking System site in the regulatory database report, as discussed below:

- The subject property, identified as Holiday One Hour Cleaner at 2601 East Chapman Avenue, was listed as a dry cleaning facility from 2001 to 2009. There are no records of hazardous waste use or generation at the subject property. Based on the lack of hazardous waste listings, as well as the current and historical office operations, this listing is likely related to a corporate office of a dry cleaning business or drop off location rather than onsite dry cleaning operations. This listing is not expected to represent a significant environmental concern.
- The subject property, identified as Vision Environmental at 2651 East Chatman Avenue, was listed on the CA Hazardous Waste Tracking System (HWTS) database. The HWTS is the Department of Toxic Substance Control's data repository for all hazardous waste identification (ID) numbers and manifest information. The subject property is listed on the HWTS as producing an unknown amount of hazardous waste in 2002. Based on the one-time nature of the listing as well as the corporate office nature of the building operations, this listing is not expected to represent a significant environmental concern.

4.2.3 Adjacent Property Listings

The adjacent property to the west is identified as a CA CalEPA Regulated Site (CERS) Hazardous Waste site in the regulatory database report, as discussed below:

- The property, identified as Oggi's Pizza and Brewhouse at 2595 East Chapman Avenue, is located adjacent to the west of the subject property. This facility received a violation during a fire department inspection in 2018 and no violation during an inspection in 2019. Based on the lack of a documented release and the nature of the onsite operations, this listing is not expected to represent a significant environmental concern and it is unlikely that a regulatory file review for this site would alter the findings of this assessment.

The adjacent property to the south is identified as a Resource Conservation and Recovery Act Non-Generator/No Longer Regulated (RCRA NonGen/NLR) site in the regulatory database report, as discussed below:

- The property, identified as Loretta Nunez at 2634 East Chapman Avenue, is located adjacent to the south of the subject property. This facility was listed as a former handler of hazardous waste with no violation found. The facility was no longer generating hazardous waste by 2018. Based on the lack of hazardous waste, this listing is not expected to represent a significant environmental concern and it is unlikely that a regulatory file review for this site would alter the findings of this assessment.

Based on the findings, vapor migration is not expected to represent a significant environmental concern at this time.

4.2.4 Sites of Concern Listings

No sites of concern are identified in the regulatory database report.

Based on the findings, vapor migration is not expected to represent a significant environmental concern at this time.

4.2.5 Orphan Listings

No orphan listings are identified in the regulatory database report.

A copy of the regulatory database report is included in Appendix C of this report.

5.0 USER PROVIDED INFORMATION AND INTERVIEWS

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the *Brownfields Amendments*), the *User* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. The *User* should provide the following information to the *environmental professional*. Failure to provide this information could result in a determination that *all appropriate inquiries* is not complete. The *User* is asked to provide information or knowledge of the following:

- Review Title and Judicial Records for Environmental Liens and AULs
- Specialized Knowledge or Experience of the User
- Actual Knowledge of the User
- Reason for Significantly Lower Purchase Price
- Commonly Known or *Reasonably Ascertainable* information
- Degree of Obviousness
- Reason for Preparation of this Phase I ESA

Fulfillment of these user responsibilities is key to qualification for the identified defenses to CERCLA liability. Partner requested our Client to provide information to satisfy User Responsibilities as identified in Section 6 of the ASTM guidance.

Pursuant to ASTM E1527-13, Partner requested the following site information from Core Campus Manager, LLC (User of this report).

User Responsibilities				
Item	Provided By User	Not Provided By User	Discussed Below	Does Not Apply
Environmental Pre-Survey Questionnaire			X	
Title Records, Environmental Liens, and AULs			X	
Specialized Knowledge			X	
Actual Knowledge			X	
Valuation Reduction for Environmental Issues			X	
Identification of Key Site Manager	Section 5.1.3			
Reason for Performing Phase I ESA	Section 1.1			
Prior Environmental Reports				X
Other		X		

5.1 Interviews

5.1.1 Interview with Owner

Mr. Cameron Irons, representative for the subject property ownership was available for interview as further discussed in Section 5.1.3.

5.1.2 Interview with Report User

Please refer to Section 5.2 below for information requested from the Report User. The information requested was not received prior to the issuance of this report. It is understood that the Report User would not have knowledge of the property that would significantly impact our ability to satisfy the objectives of this assessment. The lack of this information is not considered to represent a significant data gap.

5.1.3 Interview with Key Site Manager

Mr. Cameron Irons, key site manager, indicated that he had no information pertaining to any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property; any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property; or any notices from a governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.

5.1.4 Interviews with Past Owners, Operators and Occupants

Interviews with past owners, operators and occupants were not conducted since information regarding the potential for contamination at the subject property was obtained from other sources.

5.1.5 Interview with Others

As the subject property is not an abandoned property as defined in ASTM 1527-13, interview with others were not performed.

5.2 User Provided Information

5.2.1 Title Records, Environmental Liens, and AULs

Partner was not provided with title records or environmental lien and AUL information for review as part of this assessment.

5.2.2 Specialized Knowledge

No specialized knowledge of environmental conditions associated with the subject property was provided by the User at the time of the assessment.

5.2.3 Actual Knowledge of the User

No actual knowledge of any environmental lien or AULs encumbering the subject property or in connection with the subject property was provided by the User at the time of the assessment.

5.2.4 Valuation Reduction for Environmental Issues

No knowledge of valuation reductions associated with the subject property was provided by the User at the time of the assessment.

5.2.5 Commonly Known or Reasonably Ascertainable Information

The User did not provide information that is commonly known or *reasonably ascertainable* within the local community about the subject property at the time of the assessment.

5.2.6 Previous Reports and Other Provided Documentation

No previous reports or other pertinent documentation was provided to Partner for review during the course of this assessment.

6.0 SITE RECONNAISSANCE

The weather at the time of the site visit was overcast. Refer to Section 1.5 for limitations encountered during the field reconnaissance and Sections 2.1 and 2.2 for subject property operations. The table below provides the site assessment details:

Site Assessment Data

Site Assessment Performed By: Louis Mowers
Site Assessment Conducted On: March 23, 2020

The table below provides the subject property personnel interviewed during the field reconnaissance:

Site Visit Personnel for 2601 & 2651 East Chapman Avenue (Subject Property)

Name	Title/Role	Contact Number	Site Walk* Yes/No
Mr. Cameron Irons	Key Site Manager	(714) 404-5256	Yes

* Accompanied Partner during the field reconnaissance activities and provided information pertaining to the current operations and maintenance of the subject property

No potential environmental concerns were identified during the onsite reconnaissance.

6.1 General Site Characteristics

6.1.1 Solid Waste Disposal

Solid waste generated at the subject property is disposed of in commercial dumpsters located on the northern section of the subject property. An independent solid waste disposal contractor, Republic Services, removes solid waste from the subject property. According to property personnel, only household trash is collected in the on-site solid waste dumpsters. No evidence of illegal dumping of solid waste was observed during the Partner site reconnaissance.

6.1.2 Sewage Discharge and Disposal

Sanitary discharges on the subject property are directed into the municipal sanitary sewer system. The City of Fullerton services the subject property vicinity. No wastewater treatment facilities or septic systems were observed or reported on the subject property.

6.1.3 Surface Water Drainage

Storm water is removed from the subject property primarily by sheet flow action across the paved surfaces towards storm water drains located throughout the subject property and in the public right of way. Site storm water from roofs, landscaped areas, and paved areas is directed to on-site concrete swales, which drain to the public right of way, and to on-site storm water drains. The subject property is connected to a municipal owned and maintained sewer system.

The subject property does not appear to be a designated wetland area, based on information obtained from the United States Department of Agriculture; however, a comprehensive wetlands survey would be required in order to formally determine actual wetlands on the subject property. No surface impoundments, wetlands, natural catch basins, settling ponds, or lagoons are located on the subject property. No drywells were identified on the subject property.

6.1.4 Source of Heating and Cooling

Heating and cooling systems as well as domestic hot water equipment are fueled by electricity and natural gas provided by Southern California Edison and the Southern California Gas Company. The mechanical system is comprised of a split system with a central unit and interior air-handler and an exterior condenser that service the entire subject property. Hot water is not provided on the subject property.

6.1.5 Wells and Cisterns

No aboveground evidence of wells or cisterns was observed during the site reconnaissance.

6.1.6 Wastewater

Domestic wastewater generated at the subject property is disposed by means of the sanitary sewer system. No industrial process is currently performed at the subject property.

6.1.7 Septic Systems

No septic systems were observed or reported on the subject property.

6.1.8 Additional Site Observations

No additional general site characteristics were observed during the site reconnaissance.

6.2 Potential Environmental Hazards

6.2.1 Hazardous Substances and Petroleum Products Used or Stored at the Site

No evidence of the use of reportable quantities of hazardous substances was observed on the subject property. Small quantities of general maintenance supplies were found to be properly labeled and stored at the time of the assessment with no signs of leaks, stains, or spills. The storage and use of maintenance supplies does not appear to pose a significant threat to the environmental integrity of the subject property at this time.

6.2.2 Aboveground & Underground Hazardous Substance or Petroleum Product Storage Tanks (ASTs/USTs)

No evidence of current or former ASTs or USTs was observed during the site reconnaissance.

6.2.3 Evidence of Releases

No spills, stains or other indications that a surficial release has occurred at the subject property were observed.

6.2.4 Polychlorinated Biphenyls (PCBs)

Older transformers and other electrical equipment could contain PCBs at a level that subjects them to regulation by the U.S. EPA. PCBs in electrical equipment are controlled by United States Environmental Protection Agency regulations 40 CFR, Part 761. Under the regulations, there are three categories into which electrical equipment can be classified: 1) Less than 50 parts per million (ppm) of PCBs – “Non-PCB;” 2) 50 ppm-500 ppm – “PCB-Contaminated;” and, 3) Greater than 500 ppm – “PCB-Containing.” The manufacture, process, or distribution in commerce or use of any PCB in any manner other than in a totally enclosed manner was prohibited after July 2, 1979.

The on-site reconnaissance addressed indoor and outdoor transformers that may contain PCBs. One pad-mounted, and one vaulted transformer was observed on the subject property. The transformers are not labeled indicating PCB content. No staining or leakage was observed in the vicinity of the transformers. Based on the good condition of the equipment, the transformers are not expected to represent a significant environmental concern.

Additionally, no other potential PCB-containing equipment (interior transformers, oil-filled switches, hoists, lifts, dock levelers, hydraulic elevators, balers, etc.) was observed on the subject property during Partner's reconnaissance.

6.2.5 *Strong, Pungent or Noxious Odors*

No strong, pungent or noxious odors were evident during the site reconnaissance.

6.2.6 *Pools of Liquid*

No pools of liquid were observed on the subject property during the site reconnaissance.

6.2.7 *Drains, Sumps and Clarifiers*

No drains, sumps, or clarifiers, other than those associated with storm water removal, were observed on the subject property during the site reconnaissance.

6.2.8 *Pits, Ponds and Lagoons*

No pits, ponds or lagoons were observed on the subject property.

6.2.9 *Stressed Vegetation*

No stressed vegetation was observed on the subject property.

6.2.10 *Additional Potential Environmental Hazards*

No additional environmental hazards, including landfill activities or radiological hazards, were observed.

6.3 *Non-ASTM Services*

6.3.1 *Asbestos-Containing Materials (ACMs)*

Asbestos is the name given to a number of naturally occurring, fibrous silicate minerals mined for their useful properties such as thermal insulation, chemical and thermal stability, and high tensile strength. The Occupational Safety and Health Administration (OSHA) regulation 29 CFR 1926.1101 requires certain construction materials to be presumed to contain asbestos, for purposes of this regulation. All thermal system insulation (TSI), surfacing material, and asphalt/vinyl flooring that are present in a building that have not been appropriately tested are "presumed asbestos-containing material" (PACM).

The subject property buildings were constructed in 1977. A limited, visual evaluation of accessible areas for the presence of suspect ACMs at the subject property was conducted. The objective of this visual survey was to note the presence and condition of suspect ACM observed. Please refer to the table below for identified suspect ACMs:

Suspect ACMs

Suspect ACM	Location	Friable Yes/No	Physical Condition
Drywall Systems	Throughout Building Interior	No	Good
Floor Tiles	Throughout Building Interior	No	Good
Floor Tile Mastic	Throughout Building Interior	No	Good
Stucco	Throughout Building Exterior	Yes	Good

The limited visual survey consisted of noting observable materials (materials which were readily accessible and visible during the course of the site reconnaissance) that are commonly known to potentially contain asbestos. This activity was not designed to discover all sources of suspect ACM, PACM, or asbestos at the site; or to comply with any regulations and/or laws relative to planned disturbance of building materials such as renovation or demolition, or any other regulatory purpose. Rather, it is intended to give the User an indication if significant (significant due to quantity, accessibility, or condition) potential sources of ACM or PACM are present at the subject property. Additional sampling, assessment, and evaluation will be warranted for any other use.

Partner was not provided building plans or specifications for review, which may have been useful in determining areas likely to have used ACM.

According to the US EPA, ACM and PACM that is intact and in good condition can, in general, be managed safely in-place under an Operations and Maintenance (O&M) Program until removal is dictated by renovation, demolition, or deteriorating material condition. Prior to any disturbance of the construction materials within this facility, a comprehensive ACM survey is recommended.

6.3.2 Lead-Based Paint (LBP)

Lead is a highly toxic metal that affects virtually every system of the body. LBP is defined as any paint, varnish, stain, or other applied coating that has 1 mg/cm² (or 5,000 ug/g or 0.5% by weight) or more of lead. Congress passed the Residential Lead-Based Paint Hazard Reduction Act of 1992, also known as "Title X", to protect families from exposure to lead from paint, dust, and soil. Under Section 1017 of Title X, intact LBP on most walls and ceilings is not considered a "hazard," although the condition of the paint should be monitored and maintained to ensure that it does not become deteriorated. Further, Section 1018 of this law directed the Housing and Urban Development (HUD) and the US EPA to require the disclosure of known information on LBP and LBP hazards before the sale or lease of most housing built before 1978.

Based on the age of the subject property buildings (pre-1978), there is a potential that LBP is present. Interior and exterior painted surfaces were observed in good condition and therefore not expected to represent a "hazard," although the condition of the paint should be monitored and maintained to ensure that it does not become deteriorated.

Actual material samples would need to be collected in order to determine if LBP is present.

6.3.3 Radon

Radon is a colorless, odorless, naturally occurring, radioactive, inert, gaseous element formed by radioactive decay of radium (Ra) atoms. The US EPA has prepared a map to assist National, State, and

local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three Radon Zones, according to the table below:

EPA Radon Zones		
EPA Zones	Average Predicted Radon Levels	Potential
Zone 1	Exceed 4.0 pCi/L	Highest
Zone 2	Between 2.0 and 4.0 pCi/L	Moderate
Zone 3	Less than 2.0 pCi/L	Low

It is important to note that the EPA has found homes with elevated levels of radon in all three zones, and the US EPA recommends site-specific testing in order to determine radon levels at a specific location. However, the map does give a valuable indication of the propensity of radon gas accumulation in structures.

Radon sampling was not conducted as part of this assessment. Review of the US EPA Map of Radon Zones places the subject property in Zone 2. Based upon the radon zone classification, radon is not considered to be a significant environmental concern.

6.3.4 Lead in Drinking Water

According to available information, a public water system operated by the Fullerton Department of Public Works and Engineering serves the subject property vicinity. The sources of public water for the City of Fullerton are surface water from the Colorado River and the California State Water Project. According to the Fullerton and the 2018 Annual Water Quality Report, water supplied to the subject property is in compliance with all State and Federal regulations pertaining to drinking water standards, including lead and copper. Water sampling was not conducted to verify water quality.

6.3.5 Mold

Molds are microscopic organisms found virtually everywhere, indoors and outdoors. Mold will grow and multiply under the right conditions, needing only sufficient moisture (e.g. in the form of very high humidity, condensation, or water from a leaking pipe, etc.) and organic material (e.g., ceiling tile, drywall, paper, or natural fiber carpet padding).

Partner observed accessible, interior areas for the subject property buildings for significant evidence of mold growth with the exceptions detailed in Section 1.5 of this report; however, this ESA should not be used as a mold survey or inspection. Additionally, this limited assessment was not designed to assess all areas of potential mold growth that may be affected by mold growth on the subject property. Rather, it is intended to give the client an indication as to whether or not conspicuous (based on observed areas) mold growth is present at the subject property. This evaluation did not include a review of pipe chases, mechanical systems, or areas behind enclosed walls and ceilings.

No obvious indications of water damage or mold growth were observed during Partner's visual assessment.

6.4 Adjacent Property Reconnaissance

The adjacent property reconnaissance consisted of observing the adjacent properties from the subject property premises.

No items of environmental concern were identified on the adjacent properties during the site assessment, including hazardous substances, petroleum products, ASTs, USTs, evidence of releases, PCBs, strong or noxious odors, pools of liquids, sumps or clarifiers, pits or lagoons, stressed vegetation, or any other potential environmental hazards.

7.0 FINDINGS AND CONCLUSIONS

Findings

A *recognized environmental condition (REC)* refers to the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: due to release to the environment; under conditions indicative of a release to the environment; or under conditions that pose a material threat of a future release to the environment. The following was identified during the course of this assessment:

- Partner did not identify any recognized environmental conditions during the course of this assessment.

A *controlled recognized environmental condition (CREC)* refers to a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls. The following was identified during the course of this assessment:

- Partner did not identify any controlled recognized environmental conditions during the course of this assessment.

A *historical recognized environmental condition (HREC)* refers to a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls. The following was identified during the course of this assessment:

- Partner did not identify any historical recognized environmental conditions during the course of this assessment.

An *environmental issue* refers to environmental concerns identified by Partner, which do not qualify as RECs; however, warrant further discussion. The following was identified during the course of this assessment:

- Due to the age of the subject property buildings, there is a potential that asbestos-containing material (ACM) and/or lead-based paint (LBP) are present. Readily visible suspect ACMs and painted surfaces were observed in good condition. Should these materials be replaced, the identified suspect ACMs would need to be sampled to confirm the presence or absence of asbestos prior to any renovation or demolition activities to prevent potential exposure to workers and/or building occupants.

Conclusions, Opinions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 of 2601 & 2651 East Chapman Avenue in Fullerton, Orange County, California (the "subject property"). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property; however, environmental issues were identified. Based on the conclusions of this assessment, Partner recommends no further investigation of the subject property at this time.

- An Operations and Maintenance (O&M) Program should be implemented in order to safely manage the suspect ACMs and LBP located at the subject property.

8.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Partner has performed a Phase I Environmental Site Assessment of the property located at 2601 & 2651 East Chapman Avenue in Fullerton, Orange County, California in conformance with the scope and limitations of the protocol and the limitations stated earlier in this report. Exceptions to or deletions from this protocol are discussed earlier in this report.

By signing below, Partner declares that, to the best of our professional knowledge and belief, we meet the definition of *Environmental Professional* as defined in §312.10 of 40 CFR §312. Partner has the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject *property*. Partner has developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Certified Sanborn® Map Report

03/16/20

Site Name:

2601 & 2651 E Chapman Ave
2601 & 2651 E Chapman Ave
Fullerton, CA 92831
EDR Inquiry # 6011631.3

Client Name:

Partner Engineering and Science, Inc.
2154 Torrance Blvd, Suite 200
Torrance, CA 90501-0000
Contact: Irin Chacon

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Partner Engineering and Science, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # 7BF7-4274-9327

PO # 2601 & 2651 E Chapman Avenue

Project 19-243062.1

UNMAPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: 7BF7-4274-9327

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☒ Library of Congress
- ☒ University Publications of America

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

RESEARCH SUMMARY

INSPECTION RECORD

BUILDING DIVISION

JOB ADDRESS

2401 E. CHAPMAN

PERMIT NUMBER 2401 E. CHAPMAN

DECLARATIONS

To obtain this permit, the undersigned hereby files this application and declares:
 That the undersigned has been given no false information in this application and that the construction for which this permit is issued will be in accordance with the Fullerton Municipal Code.
 That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by the office for occupancy after final inspection.
 That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
 I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the Fullerton Municipal Code.

LICENSED CONTRACTORS DECLARATION

I hereby affirm under penalty of perjury that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.
 License Class 1730 L.E. No. 1730
 Exp. Date 7/31/2006 Contractor Name [Signature]

OWNER-BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractors License Law for the following reason (Sec. 7001.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, maintain, or repair any building, structure, or improvement, and which is not a city or county that has adopted the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7001.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).
☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not extended or altered for sale (Sec. 7044, Business and Professions Code). The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.
☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.
☐ I am exempt under Sec. 17 B. & P.C. for this reason.

Date

Owner

WORKERS' COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations:
☐ I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.
☐ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number is [Signature] 7/1/2005
 Carrier [Signature] 7/1/2005
 Policy Number BB 1040148 Exp. Date 7/1/2005

[This section need not be completed if the permit is for one hundred dollars (\$100) or less]
 I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation provisions of Section 3700 of the Labor Code, and I should pay with those provisions.

Applicant

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000) IN ADDITION TO THE COST OF COMPENSATION DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.
 CONSTRUCTION LENDING AGENCY

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.)

Lender's Name

Lender's Address

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county rules and regulations relating to the construction of the above-described project for inspection purposes. The permit shall expire by limitation and record shall and you in this work is not complete. The permit shall be voided if the work is not completed within the time specified in the permit. THE PERMIT SHALL BE VOIDED IF THE WORK IS NOT COMPLETED WITHIN THE TIME SPECIFIED IN THE PERMIT. A NEW PERMIT WILL BE REQUIRED FOR ANY EXISTING WORK.

DEVELOPMENT SERVICES
DEPARTMENT
CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

1. That this office has been given me that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
2. That this permit does not allow occupancy, and that no occupancy is permitted, or the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
3. That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
4. That a double fee will be paid for any permit issued after any work thereto allowed has been commenced.
5. I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the building code.
6. That, as required by California Code of Civil Procedure section 1193 (1) the name, branch designation, if any, and address of the construction lender, or the fact that there is no known construction lender, for the work authorized by this permit is as follows: _____

That I hold a now valid State of California Contractor's License No. Class (if none, indicate whether exemption is claimed under any of the following sections of the California Business and Professions Code).

7044	7045	7046	7047
7048	7049	7050	7051
7052	7053		

6. That I will not employ any person to perform any work authorized by this permit in any manner so as to require me to provide ~~workmen's~~ ^{workmen's} compensation insurance under California Labor Code section 3800. (Delete if a certificate is filed with the Developmental Services Department as authorized by said section 3800.)

2. This application is hereby made for a building permit to construct the work of improvement described in the permit attached hereto, and hereby tender all required fees and charges therefor.

THIS PERMIT SHALL EXPIRE BY LIMITATION
AND BECOME NULL AND VOID IF THIS WORK
IS NOT COMMENCED OR COMMENCED AND
SUSPENDED AFTER A PERIOD OF 120 DAYS.
NEW PERMIT REQUIRED TO COMMENCE WORK.

1992

A black and white photograph showing a dense, textured surface, possibly a rock face or a large pile of debris. The texture is highly irregular, with many small, dark, rounded shapes (possibly pebbles or clumps of material) scattered across a lighter background. A prominent horizontal line runs across the middle of the image, possibly a crack or a boundary between different layers of material. The overall appearance is rough and granular.

NOTE: WHEN PROPERLY VALIDATED IN THIS SPACE, THIS FORM CONSTITUTES A PLUMBING PERMIT TO DO THE WORK DESCRIBED HEREIN.
WILLIAM S. CHAPMAN, DIRECTOR, DEPT. OF PLANNING AND BUILDING

BUILDING PERMIT
Issued by
DEVELOPMENT SERVICES
DEPARTMENT
CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

1. That notice has been given and that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
2. That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
3. That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
4. That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.
5. I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the building code.
6. That, as required by California Code of Civil Procedure section 1183 (j) the name, branch designation if any, and address of the construction lender, or the fact that there is no known construction lender, for the work authorized by this permit is as follows: _____

7. That I hold a now valid State of California Contractor's License No. _____ Class _____ (If none, indicate whether exemption is claimed under any of the following sections of the California Business and Professions Code).

7044 ☐	7045 ☐	7046 ☐	7047 ☐
7048 ☐	7049 ☐	7050 ☐	7051 ☐
7052 ☐	7053 ☐		

8. That I will not employ any person to perform any work authorized by this permit in any manner so as to require me to provide Workmen's Compensation Insurance under California Labor Code section 3800. (Delete if a certificate is filed with the Development Services Department as authorized by said section 3800.)

9. That application is hereby made for a building permit to construct the work of improvement described in the permit attached hereto, and hereby tender all required fees and charges therefor.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED OR COMMENCED AND SUSPENDED AFTER A PERIOD OF 120 DAYS. NEW PERMIT REQUIRED TO COMMENCE WORK.

BUILDING PERMIT
Issued by
DEVELOPMENT SERVICES
DEPARTMENT
CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

1. That notice has been given me that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
2. That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
3. That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
4. That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.
5. I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my expense, and to otherwise act as and when required by the building code.
6. That, as required by California Code of Civil Procedure section 1193 (j) the name, branch designation if any, and address of the construction lender, or the fact that there is no known construction lender, for the work authorized by this permit as follows:

7. That I hold a now valid State of California Contractor's License No. _____ Class _____ (If none, indicate whether exemption is claimed under any of the following sections of the California Business and Professions Code).

7044 ☐	7045 ☐	7046 ☐	7047 ☐
7048 ☐	7049 ☐	7050 ☐	7051 ☐
7052 ☐	7053 ☐		

8. That I will not employ any person to perform any work authorized by this permit in any manner so as to require me to provide Workmen's Compensation Insurance under California Labor Code section 3800, (Delete if a certificate is filed with the Development Services Department as authorized by said section 3800.)
9. That application is hereby made for a building permit to construct the work of improvement described in the permit attached hereto, and hereby tender all required fees and charges therefore.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED OR COMMENCED AND SUSPENDED AFTER A PERIOD OF 120 DAYS. NEW PERMIT REQUIRED TO COMMENCE WORK.

CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

1. That notice has been given me that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
2. That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
3. That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
4. That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.
5. I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and so otherwise act as and when required by the building code.
6. That, as required by California Code of Civil Procedure section 1193 (1) the name, branch designation if any, and address of the construction lender, or the fact that there is no known construction lender, for the work authorized by this permit as follows: _____

7. That I hold a now valid State of California Contractor's License No. _____ Class _____ (if none, indicate whether exemption is claimed under any of the following sections of the California Business and Professions Code).

7044 ☐ 7045 ☐ 7046 ☐ 7047 ☐
7048 ☐ 7049 ☐ 7050 ☐ 7051 ☐
7052 ☐ 7053 ☐

8. That I will not employ any person to perform any work authorized by this permit in any manner so as to require as to provide Workmen's Compensation Insurance under California Labor Code section 3800. (Delete if a certificate is filed with the Development Services Department as authorized by said section 3800.)

9. That application is hereby made for a building permit to construct the work of improvement described in the permit attached hereto, and hereby tender all required fees and charges therefore.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED OR COMMENCED AND SUSPENDED AFTER A PERIOD OF 120 DAYS. NEW PERMIT REQUIRED TO COMMENCE WORK.

BUILDING PERMIT

Issued by DEVELOPMENT SERVICES DEPARTMENT CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

1. That notice has been given as that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
2. That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
3. That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
4. That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.
5. I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the building code.
6. That, as required by California Code of Civil Procedure section 1193 (j) the name, branch designation if any, and address of the construction lender, or the fact that there is no known construction lender, for the work authorized by this permit as follows:

7. I hold a now valid State of California Contractor's License No. _____ Class _____ (If none, indicate whether exemption is claimed under any of the following sections of the California Business and Professions Code).

7044 ☐ 7045 ☐ 7046 ☐ 7047 ☐
7048 ☐ 7049 ☐ 7050 ☐ 7051 ☐
7052 ☐ 7053 ☐

8. That I will not employ any person to perform any work authorized by this permit in any manner so as to require me to provide Workmen's Compensation Insurance under California Labor Code section 3800. (Delete if a certificate is filed with the Development Services Department as authorized by said section 3800.)

9. That application is hereby made for a building permit to construct the work of improvement described in the permit attached hereto, and hereby tender all required fees and charges therefore.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED OR COMMENCED AND SUSPENDED AFTER A PERIOD OF 120 DAYS. NEW PERMIT REQUIRED TO COMMENCE WORK.

BUILDING PERMIT

DEVELOPMENT SERVICES DEPARTMENT CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

- That notice has been given me that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
- That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
- That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
- That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.
- I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction of my own expense, and to otherwise act as and when required by the building code.
- That, as required by California Code of Civil Procedure section 1193 (i) the name, branch designation if any, and address of the construction lender, or the fact that there is no known construction lender, for the work authorized by this permit is as follows:

- That I hold a now valid State of California Contractor's License No. _____ Class _____ (If none, indicate whether exemption is claimed under any of the following sections of the California Business and Professions Code).

7044 ☐ 7045 ☐ 7046 ☐
7048 ☐ 7049 ☐ 7050 ☐
7052 ☐ 7053 ☐

- That I will not employ any person to perform any work authorized by this permit. Any person so as to require me to provide Workers Compensation Insurance under California Labor Code section 3800. (Delete if a certificate of insurance with the Development Services Department is authorized by section 3800.)

- That all plans and specifications hereby made for a building permit to construct the work of improvement described in the permit application, and hereby tender all required fees and costs, and therefore,

Patascheck Vega

BUILDING PERMIT
Issued by
DEVELOPMENT SERVICES
DEPARTMENT
CITY OF FULLERTON

I, the undersigned hereby file this application and agree, certify and declare:

- That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
- That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
- That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.
- I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the building code.
- That, as required by California Code of Civil Procedure section 1193 (j) the name, branch designation if any, and address of the construction lender, or the fact that there is no known construction lender, for the work authorized by this permit is as follows:

- That I hold a new valid State of California Contractor's License No. _____ Class _____ (if none, indicate whether exemption is claimed under any of the following sections of the California Business and Professions Code).

7044 ☐ 7045 ☐ 7046 ☐ 7047 ☐
7048 ☐ 7049 ☐ 7050 ☐ 7051 ☐
7052 ☐ 7053 ☐

- That I will not employ any person to perform any work authorized by this permit in any manner so as to require me to provide Workmen's Compensation Insurance under California Labor Code section 3800. (Delete if a certificate is filed with the Development Services Department as authorized by said section 3800.)
- That application is hereby made for a building permit to construct the work of improvement described in the permit attached hereto, and hereby tender all required fees and charges therefore.

BUILDING PERMIT
Issued by
DEVELOPMENT SERVICES
DEPARTMENT
CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

1. That notice has been given me that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
2. That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
3. That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
4. That a double fee will be paid for any permit issued after any work heretofore allowed has been commenced.
5. I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the building code.
6. That, as required by California Code of Civil Procedure section 1193 (j) the name, branch designation if any, and address of the construction lender, or the fact that there is no known construction lender, for the work authorized by this permit as follows: _____

7. That I hold a new valid State of California Contractor's License No. _____ Class _____ (If none, indicate whether exemption is claimed under any of the following sections of the California Business and Professions Code).

7044 ☐ 7045 ☐ 7046 ☐ 7047 ☐
7048 ☐ 7049 ☐ 7050 ☐ 7051 ☐
7052 ☐ 7053 ☐

8. That I will not employ any person to perform any work authorized by this permit in any manner so as to require me to provide Workmen's Compensation Insurance under California Labor Code section 3800. (Delete if a certificate is filed with the Development Services Department as authorized by said section 3800.)

9. That application is hereby made for a building permit to construct the work of improvement described in the permit attached hereto, and hereby tender all required fees and charges therefor.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED OR COMMENCED AND SUSPENDED AFTER A PERIOD OF 120 DAYS. NEW PERMIT REQUIRED TO COMMENCE WORK.

BUILDING PERMIT
Issued by
DEVELOPMENT SERVICES
DEPARTMENT
CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

1. That notice has been given me that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
2. That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
3. That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
4. That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.
5. I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the building code.
6. That, as required by California Code of Civil Procedure section 1193 (1) the name, branch designation if any, and address of the construction lender, or the fact that there is no known construction lender, for the work authorized by this permit is as follows: _____

7. That I hold a now valid State of California Contractor's License No. _____ Class _____ (1) none, indicate whether exemption is claimed under any of the following sections of the California Business and Professions Code:

7044 ☐	7045 ☐	7046 ☐	7047 ☐
7048 ☐	7049 ☐	7050 ☐	7051 ☐
7052 ☐	7053 ☐		

8. That I will not employ any person to perform any work authorized by this permit in any manner so as to require me to provide Workers Compensation Insurance under California Labor Code section 3800. (Delete if a certificate is filed with the Development Services Department as authorized by said section 3800.)

9. That application is hereby made for a building permit to construct the work of improvement described in the permit attached hereto, and hereby tender all required fees and charges therefor.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED OR COMMENCED AND SUSPENDED AFTER A PERIOD OF 120 DAYS. NEW PERMIT REQUIRED TO COMMENCE WORK.

...and know the difference between the two.
All power is in the hands of the people.
The people are the only ones who can save the world.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the situation.

BUILDING PERMIT
Issued by
DEVELOPMENT SERVICES
DEPARTMENT
CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

1. That notice has been given me that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
2. That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
3. That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
4. That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.
5. I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the building code.
6. That, as required by California Code of Civil Procedure section 1103 (1) the name, branch designation if any, and address of the construction lender, or the fact that there is no known construction lender, for the work authorized by this permit is as follows:

7. That I hold a now valid State of California Contractor's License No. Class all none, indicate whether exemption is claimed under any of the following sections of the California Business and Professions Code:

7044 ☐ 7045 ☐ 7046 ☐ 7047 ☐
7048 ☐ 7049 ☐ 7050 ☐ 7051 ☐
7052 ☐ 7053 ☐

8. That I will not employ any person to perform any work authorized by this permit in any manner so as to require me to provide Workmen's Compensation Insurance under California Labor Code section 3800. (Delete if a certificate is filed with the Development Services Department as authorized by said section 3800.)

9. That application is hereby made for a building permit to construct the work of improvement described in the permit attached hereto, and hereby tender all required fees and charges, therefore.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED OR COMMENCED AND SUSPENDED AFTER A PERIOD OF 180 DAYS. NEW PERMIT REQUIRED TO COMMENCE WORK.

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 3/30/2020 at 10:47:48 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/16/2019 has revealed that there are 4 RCRA-SQG sites within approximately 0.25 miles of the target property.

CA RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the CA RESPONSE list, as provided by EDR, has revealed that there is 1 CA RESPONSE site within approximately 1 mile of the target property.

State- and tribal - equivalent CERCLIS

CA ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State

EXECUTIVE SUMMARY

Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 10/28/2019 has revealed that there are 15 CA ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal registered storage tank lists

CA UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the CA UST list, as provided by EDR, has revealed that there are 8 CA UST sites within approximately 0.25 miles of the target property.

Local Lists of Registered Storage Tanks

CA SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the CA SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 4 CA SWEEPS UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/16/2019 has revealed that there are 5 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110006482083

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

S117310868

Eval Type: Routine done by local agency
Eval Notes: On site for the triennial Hazardous Waste (HW) inspection. Permission to inspect granted by Smart & Final/Jackson. The facility is a small quantity generator (SQG) and is required to have the HW hauled away every 6 months. They are currently on a 90 day haul away cycle. EPA ID # is correct. Manifests reviewed and correct. All HW containers (5 gallon plastic boxes) are stored closed and properly labeled. All HW are identified by staff visual evaluation who identify the proper HW storage container. Weekly HW inspection logs OK. Annual HW training is OK. HMBEP is on file for FFD. Dumpster and perimeter review showed no HW. No violations.

Site ID: 333914
Site Name: Placentia 120 LLC
Violation Date: 06-24-2015
Citation: 23 CCR 16 2665 - California Code of Regulations, Title 23, Chapter 16, Section(s) 2665

Violation Description: Failure of the overfill prevention system to meet one of the following requirements: 1. Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or 2. Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or 3. Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or 4. Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling.

Violation Notes: Returned to compliance on 09/18/2015. Facility has not complied with Agency directive to install overfill prevention issued on 6/14/14. This violation has been elevated which requires formal enforcement action.

inspection, monitoring system certification, and spill bucket testing. The facility has two double walled tanks monitored by a Veeder Root system. Monitor is operational for audible and visual alarms. The panel reads "all functions normal." Positive shutdown and fail safe programming were verified. All sump sensors were found to be located at the lowest point of each sump. UDCs utilize float and chain assemblies. All sumps and UDCs appeared to be dry. Fail-safe system functioned properly. Fail-safe system was tested by cutting power to the Veeder Root control panel. Turbine engines shut down when the power was removed. Spill buckets were visually tested for 30 minutes. At the end of the test period, no indication of leakage was observed. Leak detectors were tested after the inspector left. Facility has failed to forward a copy of secondary containment testing conducted on 2/18/15 to this Agency [Truncated]

Eval Notes: On site for a routine underground storage tank inspection. Inspection was conducted with Sung Baik. Per Ms. Baik, this facility is in escrow (bank has taken ownership due to unpaid rent) and expected to be sold within the next month. Monitoring system and spill buckets were last certified on 6/25/16. Facility's monitoring system and spill bucket certifications are now past due (see violations). Immediately schedule monitoring system and spill bucket testing. These violations will be abated when testing has been conducted. Ensure that annual testing requirements are met. The following documents are available for review: test reports, DO monthly inspection reports up to March 2016 and maintenance records. Secondary containment testing was last conducted on 2/18/15. The following documents were missing: permit to operate, DO monthly inspection reports for April 2016 through June 2016, current certification of financial responsibility, monitoring plan and leak response [Truncated]

Peter Baik, my parents are the owners of Carwash of America in Placentia, CA. Today they received a letter of a hearing for two violations. We wanted to confirm that we are attending this meeting. 8/25, 1pm, at 1241 E. Dyer Road, Suite 120 in Santa Ana. I just wanted to let you know our UST forms have been uploaded to the CERS website as of last week. And attached to this email is an invoice with Titan Gas Station Testing for the installation for a overfill prevention system. Thank You for your time, you can reach me at 310 592 1406 or my parents at 310 592 1426,

Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine hazardous waste inspection. The inspection was conducted with BJ Mandalia and Jeff Silber (Store Managers). This facility is verified to be owned by 99 CENTS ONLY STORES LLC and currently has 28 employees. Walked throughout the facility and observed the hazardous waste storage area located in the warehouse. This facility currently generates the following hazardous waste: - 1 x 30-gallon container of waste corrosives (acidic) - 1 x 30-gallon container of waste corrosives (basic) - 2 x 30-gallon containers of waste aerosols - 1 x 30-gallon container of waste oxidizers - 1 x 30-gallon container of universal waste Per Mr. Silber, hazardous waste storage areas are currently inspected daily. Hazardous waste manifests were available for review during today's inspection. The emergency response plan information was available for review near the hazardous waste storage area in the warehouse. No hazardous waste or universal waste was [Truncated]

Eval General Type: Compliance Evaluation Inspection
Eval Date: 02-01-2016
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for the triennial Hazardous Waste (HW) inspection. Permission to inspect granted by 99 Cent Store/Victoria Torres. The site is a small quantity generator (SQG) and is required to have the HW hauled away every 6-9 months. The facility is currently on a monthly haul away cycle. EPA ID # is OK. Manifests were on site and OK. All plastic boxes are sealed closed and properly labeled. Annual training. No HMBEP required by FFD. Review of facility perimeter and trash showed no illegal disposal of HW.

CERS:

Name: DOLLAR TREE #04437
Address: 2465 E CHAPMAN AVE
City,State,Zip: FULLERTON, CA 92831
Site ID: 112165
CERS ID: 10452097
CERS Description: Chemical Storage Facilities

Violations:

Site ID: 112165
Site Name: Dollar Tree #04437
Violation Date: 01-25-2016
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit a site map with all required content.
Violation Notes: Returned to compliance on 03/18/2016. SITE MAP NEEDS UPDATING: Map needs to include, riser location, FDC (fire department connection) location, updated chemical locations, all exits (currently the map shows a rear exit that does not exist and an exit that exists but is not on map) On chemical inventory page show grid number of helium location
Violation Division: Fullerton City Fire Department
Violation Program: HMRRP
Violation Source: CERS

Evaluation:

Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-31-2017
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: NO VIOLATIONS LAST SUBMITTAL VIA CERS 03/3/2016
Eval Division: Fullerton City Fire Department
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-18-2017
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENTS On site for a routine hazardous waste inspection. Consent to inspect and take any necessary photos was given by Roger Esquivel, Assistant manager. Walked throughout the facility. Observed hazardous waste storage areas. Waste is stored in the back of the store. Containers were closed and properly labeled. Manifests were available and reviewed. Employees are reported to be trained. Emergency plan is posted in the front office. The dumpster/enclosure was observed, no signs of dumping. Ownership and employee count were confirmed.

Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110006472343

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

S101589517

Violation Description: Chapter 16, Section(s) 2643(b)(5)
Failure to conduct the 0.2 gallons per hour continuous in tank leak detection test.

Violation Notes: Returned to compliance on 12/02/2015. CSLD test was not performed for month of November. For all UST systems.

Violation Division: Fullerton City Fire Department

Violation Program: UST

Violation Source: CERS

Site ID: 32061

Site Name: MOBIL BLUE, INC.

Violation Date: 11-19-2018

Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)

Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violation Notes: FACILITY STORES UST WASTE OIL TANK ON SITE. AT THE TIME OF INSPECTION, VISIBLE AMOUNTS OF PRODUCT WERE STORED INSIDE OF WASTE OIL TANK AND SHALL BE PROPERLY DISPOSED OF OR DISCLOSED ON CHEMICAL INVENTORY.

Violation Division: Fullerton City Fire Department

Violation Program: HMRRP

Violation Source: CERS

Site ID: 32061

Site Name: MOBIL BLUE, INC.

Violation Date: 08-26-2013

Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)

Violation Description: Failure to dispose of hazardous waste within 180 days (or 270 if waste is transported over 200 miles) for the generator who generates less than 1000 kilogram per month, but more than 100 kilograms per month.

Violation Notes: Returned to compliance on 10/23/2013. The facility has (2) 5 gallon pails of "water/fuel" on site that were used for the UST/UDC testing in 8-2012. All other hazardous waste have not been hauled since 2-2013. As a small quantity generator (SQG) all hazardous waste must be hauled every 6 months. Immediately have all your hazardous wastes (waste oil/oil filters/parts washer solvent/radiator fluid and the UST test water) hauled away as hazardous wastes. Maintain all the manifests in order to verify proper disposal. This Agency will conduct a follow up inspection on/before 10-23-13 in order to verify proper disposal.

Violations:

Site ID: 86628
Site Name: World Oil Marketing Company #107
Violation Date: 06-08-2017
Citation: 23 CCR 16 2636(f)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(2)
Violation Description: Failure of the line leak detector (LLD) monitoring pressurized piping to meet one or more of the following requirements: Monitor at least hourly. Be capable of detecting a release of 3.0 gallons per hour at 10 p.s.i.g. Restrict or shut off the flow of product through the piping when a leak is detected.
Violation Notes: Returned to compliance on 06/08/2017. 87 main MLLD failed testing. Replaced and retested at time of inspection.
Violation Division: Fullerton City Fire Department
Violation Program: UST
Violation Source: CERS

Violation Source: CERS

Site ID: 86628
Site Name: World Oil Marketing Company #107
Violation Date: 06-27-2019
Citation: 23 CCR 16 2636(f)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(2)
Violation Description: Failure of the functional line leak detector (LLD) monitoring pressurized piping to meet one or more of the following requirements: Monitored at least hourly with the capability of detecting a release of 3.0 gallons per hour leak at 10 pounds per square inch and restrict or shut off the flow of product through the piping when a leak is detected.
Violation Notes: Returned to compliance on 07/11/2019. Aux 87 MLLD failed testing. Replaced during inspection. Due to air in the line, new MLLD did not pass testing. Operator was instructed to pump fuel and perform retest until MLLD passed. Witness retest performed on 7/11.

Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Gasoline
Site History: The site (Site) is located at the northwestern corner of the intersection of Nutwood Avenue and Placentia Avenue in Fullerton. The Site is a currently operating gasoline service station and the station is operated by World Oil Corporation. World Oil began operations at the Site in 2003. In April 1992, six soil borings and four hand auger borings were advanced at the Site. The results of the soil sampling indicated that the highest concentration of petroleum hydrocarbons (TPH), was detected in soil sampled at 20 feet bgs adjacent to the northern dispenser island, at a concentration of

U001576968

15,000 ppm. In December 1992, ExxonMobil Environmental Services (ExxonMobil) removed three underground storage tanks (USTs), product and venting piping, and one used oil UST. TPH-gasoline was detected in soil samples beneath the fuel UST at a concentration of 990 mg/kg. TPH and benzene were detected in a soil sample collected underneath the piping connected to the northern dispenser island at concentrations of 21,700 mg/kg and 130 mg/kg, respectively. No TPH was detected in soil beneath the waste oil UST. TPH-gasoline was detected in soil sampled from the excavated soils ranging from 10 mg/kg to 530 mg/kg. No benzene and low concentrations of toluene, ethyl benzene, and xylene were detected in the excavated soil. The excavated soil was used as backfill in the UST excavation. Between 1993 and 2008, eleven groundwater monitoring wells were installed at the site. Groundwater monitoring wells MW-1 through MW-8 were screened in a shallower groundwater zone with well screens ranging from 55 to 90 feet bgs. MW-9 through MW-11 were screened in a deeper groundwater zone with well screens ranging from 90 to 105 feet bgs. Groundwater was encountered at depths ranging from 83 feet to 86 ft. bgs. Groundwater flow was toward the west to southwest. In July 1993, five soil vapor extraction (SVE) wells were installed at the site. Two wells were screened from 30 to 55 feet bgs and three wells were screened from 10 to 55 feet bgs. The SVE system operated from March 1999 until December 2002, when the soil vapor influent concentrations reached asymptotic low concentrations. From March 2004 to July 2005, between 0.01 to 0.14 foot of free floating fuel product was observed in groundwater monitoring well in MW-9. A cumulative total of 0.02 gallon of free product was reportedly recovered from MW-9. In September 2004, four nested soil vapor extraction/air sparging wells were installed at the site. The SVE wells were constructed with well screening from 8 to 33 feet bgs and 40 to 85 feet bgs. The air sparge wells were constructed with well screening from 100 to 103 feet bgs. The SVE/air sparge system was operated from June 2005 to June 2006, when the system was shut down due to low influent mass recovery. Approximately 27,635 pounds of petroleum hydrocarbons were recovered by the SVE and SVE/AS systems from 1999 to 2006. In April 2007, a 24-hour dual phase extraction feasibility test was conducted. The results of the test indicated a low mass of recovery and a full scale DPE system was not implemented at the site. In response to the continued finding of elevated concentrations of gasoline constituents in the underlying groundwater, in-situ chemical oxidation utilizing persulfate was proposed to reduce the hydrocarbon mass in the underlying groundwater. In November 2009, two injection wells and two extraction wells were installed at the site. In June 2011, two additional groundwater monitoring wells were installed on the northern portion of the Exxon property and the adjacent Circle K property to the north to define the upgradient extent of the affected groundwater. TPH and benzene were detected in MW-13, the well on the adjacent Circle K property, at a concentration of 3,100 ug/l and 28 ug/l, respectively. In January 2013, benzene was detected in injection well IW-2 at a maximum concentration of 18,500 a%g/l. In September 2015, approximately 2,300 gallons of a 12 percent solution of sodium persulfate along with a 2 percent by weight solution of iron EDTA activator was injected into each of two injection wells (IW-1 and IW-2). To enhance the distribution of the chemicals injected into the groundwater, approximately 235 gallons of groundwater was extracted from the two extraction wells. After the in situ injection, the concentrations of benzene detected in groundwater

monitoring well MW-2 decreased from 3,760 a%g/l to 1,720 a%g/l in July 2016. The concentration of benzene in injection well IW-2 had decreased to 728 a%g/l. On July 28, 2016, ExxonMobil submitted a request for regulatory site closure under the SWRCB Low Threat Closure Policy. A revised closure request report was submitted on August 25, 2016. In their closure request, ExxonMobil asserted the following: The combined efforts of vapor extraction/air sparging, free product removal, groundwater extraction, in situ chemical injection, and dual phase extraction has removed the source of petroleum hydrocarbons to the extent practicable. The areal extent of the affected groundwater is of limited extent, stable, and decreasing. The concentration of benzene and MTBE is below the Low Threat Closure Criteria of 3,000 a%g/l and 1,000 a%g/l, respectively. The site is an active gasoline fueling facility and appears not to pose an unacceptable vapor intrusion risk. The concentrations of gasoline constituents in the shallow soil are below the Low Threat Closure Criteria for direct contact and outdoor air exposure. Since the areal extent of the benzene affected groundwater appears to be stable, limited to the vicinity of the northern dispenser islands, and the concentration of benzene appears to be attenuating below the SWRCB Low Threat Closure criteria, Board staff concurred with the request for closure submitted for the former Exxon site. On June 12, 2017, Board staff gave a 60-day notice for the proposed closure of remedial activities to the existing and adjacent property owners and to the Orange County Water District. Board staff received no objections to the proposed closure. Between April 10, 2018 and September 5, 2018, 13 groundwater monitoring wells, two injection wells, two groundwater extraction/recovery wells, one vapor extraction well, and four air sparge/vapor extraction wells were destroyed and abandoned at the site

WDS:

Name: HI-CONE DIVISION OF ITW INC
Address: 500 S STATE COLLEGE BLVD
City: FULLERTON
Facility ID: Santa Ana River 30I001428
Facility Type: Industrial - Facility that treats and/or disposes of liquid or semisolid wastes from any servicing, producing, manufacturing or processing operation of whatever nature, including mining, gravel washing, geothermal operations, air conditioning, ship building and repairing, oil production, storage and disposal operations, water pumping.
Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.
NPDES Number: CAS000001 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board
Subregion: 8
Facility Telephone: 7148708661
Facility Contact: BALDEMAR TORRES

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-13-2016
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for routine tiered permitting inspection for the conditionally exempt tier. The inspection and document review were conducted with Jose Salas. James Hendron (OCHCA) was also present for the inspection. Facility generates waste water and filter cake that is hazardous for copper. The facility conducts treatment of the waste water which is disposed of to the sewer under permit. Facility sends approximately 50 gallons of hazardous waste (spent etch bath) per month to the treatment system. The filter cake is processed approximately once per year and hauled as a hazardous waste. The following documents are available for review: inspection log, and treatment log. The written operating instructions were not available. Please send a copy of these instructions to this Agency.

Eval Type: Routine done by local agency
Eval Notes: On site for a routine hazardous waste inspection. Inspection was conducted with Jose Salas who gave permission to conduct the inspection. James Hendron (OCHCA) was also present at the inspection. Facility generates filter cake containing copper and waste tin and lead. The tin and lead are sent for recycling by Salvage One. Hazardous waste container was not labeled (see violation). A label was placed on the container at the inspection. This violation is abated and no further action is required. Facility sends the spent etchant through the treatment system. The sludge from the system is processed approximately once per year and the waste hauled at that time. Manifests were available for review. Facility is assigned and using EPA ID# CAR000163709. Facility's number is inactive per DTSC website. Discussed this with the operator. Mr. Salas states that they recently sent information to reactivate their number. Please note, facility's hazardous waste hauler has [Truncated]

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 01/30/2020	Source: EPA
Date Data Arrived at EDR: 02/05/2020	Telephone: N/A
Date Made Active in Reports: 02/14/2020	Last EDR Contact: 03/04/2020
Number of Days to Update: 9	Next Scheduled EDR Contact: 04/13/2020
	Data Release Frequency: Quarterly

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 01/30/2020	Source: EPA
Date Data Arrived at EDR: 02/05/2020	Telephone: N/A
Date Made Active in Reports: 02/14/2020	Last EDR Contact: 03/04/2020
Number of Days to Update: 9	Next Scheduled EDR Contact: 04/13/2020
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 01/30/2020

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

CERS: CalEPA Regulated Site Portal Data

The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
ANAHEIM	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>

7G	1/2 - 1 Mile WSW	SW

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: MOCHO

Soil Surface Texture: loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	31 inches	loam	Not reported	Not reported	Max: 14 Min: 4	Max: 8.4 Min: 7.9
2	31 inches	61 inches	loam	Not reported	Not reported	Max: 14 Min: 4	Max: 8.4 Min: 7.9

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: Department of Fish and Wildlife

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

Education

Bachelor of Science, Environmental Science and Management, Emphasis in Ecology, Biodiversity and Conservation, University of California

Highlights

3 years of experience in the environmental consulting field

Phase I Environmental Site Assessments (ESA)

Transaction Screen Assessments

Environmental Desktop Reports

Experience Summary

Ms. LaBouff is a Staff Scientist at Partner Engineering and Science, Inc. (Partner) and has experience performing thorough environmental site inspections of properties including auto repair facilities, current and historical dry cleaners, industrial facilities, commercial and apartment complexes. She is currently expanding on previous Phase I ESA experience to include industrial sites, gas stations, and much more. Ms. LaBouff writes detail oriented technical reports in a timely manner and coordinates with agencies to obtain and review building permits, underground storage tank records and subsurface investigations.

Project Experience

Industrial Building, Vernon, California. A current truck repair company which was formerly part of the larger Bethlehem Steel Company; a steel fabrication plant.

Chiu Chou Lee Customs Service, Santa Fe Spring, California. An industrial building currently used as a warehouse and office, which was previously used by Ashland Chemical Company and has ongoing groundwater remediation.

Active Gas Station, Lomita, California. An active gas station with former generations of underground storage tanks, and leaks associated with the former and current USTs.

Former Gasoline Station, Garden Grove, California. A current vacant bank with former leaking underground storage tanks associated with the gas station.

Current Dry Cleaner, Los Angeles, California. A strip commercial property with an active dry-cleaning tenant, who currently and historically used tetrachloroethylene.

Highlights

5 years of experience performing Phase I Environmental Site Assessments

5 years of experience performing Phase II Subsurface Investigations

5 years of experience performing Property Condition Assessments

Biological Field Monitoring Experience

Experience Summary

Mr. Giangreco currently holds the role of a Project Assessor and his responsibilities include thorough site assessment and technical report writing in line with the American Society of Testing and Materials (ASTM) standard and US Environmental Protection Agency's All Appropriate Inquiry (AAI) as well as customized client formats. In addition, Mr. Giangreco performs limited asbestos surveys, lead-based paint surveys, and radon testing as required per scope of work.

Mr. Giangreco has worked on numerous large scope projects including Phase I Environmental Site Assessments (ESAs) on commercial high-rises located in Chicago, Downtown Denver, and over thirty states across the United States. Mr. Giangreco works closely with state and local regulatory agencies to obtain environmentally significant documents regarding tank removal and subsurface investigations performed onsite. Mr. Giangreco is persistent, timely, as well as, client conscientious. Mr. Giangreco has worked for a variety of clients including large financial institutions as well as private investors.

Mr. Giangreco has worked on numerous sites occupied by machine shops, auto repair facilities, manufacturing plants, distribution facilities, as well as data servers. His years of expertise in environmental due diligence is a proven asset in identifying potential environmental hazards as well as proper storage and disposal of chemicals.

Mr. Giangreco also assessed commercial properties that have either been historically or currently occupied by dry cleaning operations. Mr. Giangreco has examined on-site equipment used to recover solvent from the dry cleaning process and evaluated disposal of hazardous materials from the dry cleaning operations.

Project Experience

Mr. Giangreco has five years of experience performing Phase I Environment Site Assessments for a variety of property types including multi-family, commercial office buildings, retail shopping centers,

manufacturing plants, machine shops, auto repair facilities, distribution facilities, gas station, restaurants, fabrication shops, storage facilities, and radio stations. Mr. Giangreco has five years of experience performing Property Condition Assessments for a variety of property types including office buildings, shopping centers, multi-family, commercial retail centers, gas stations, and restaurants. Mr. Giangreco has 5 years of Phase II Subsurface Investigation experience and additionally has geotechnical subsurface investigation experience. Mr. Giangreco worked on a long term lead dust remediation project in Denver, CO performing oversight and field documentation during the remediation activities.

Warehouse, Denver, CO. Mr. Giangreco performed documentation and oversights for four months during a lead dust remediation project.

Industrial, Memphis, TN. Mr. Giangreco performed a Phase I Environmental Assessment for a steel fabrication facility.

Professional Office Buildings portfolio, Atlanta, GA. Mr. Giangreco performed a Phase I Environmental Assessment and Property Condition Assessment for three, two-story professional office structures with attached multi-level parking garages.

Industrial, San Jose, CA. Mr. Giangreco performed a Phase I Environmental Assessment for a circuit board manufacturing plant.

Office Building, Santa Rosa, CA. Mr. Giangreco performed a Property Condition Assessment for three, three-story office buildings.

Office Building, Littleton, CO. Mr. Giangreco performed a geotechnical subsurface investigation for a five-story office building.

Gas Stations, Independence, MO. Mr. Giangreco performed Phase II Subsurface Investigations for a portfolio of gas stations.

Multi-family, Boulder, CO. Mr. Giangreco performed ambient air quality monitoring by collecting air samples in a multi-family apartment complex.

Apartment Complex, Chicago, IL. Mr. Giangreco performed a Phase I Environmental Assessment for a 42-story complex located in downtown Chicago.

Highlights

12 years of experience in the environmental and engineering consulting industry
12 years of experience in management, consulting, and regulatory compliance
4 years of experience as a Client Manager

Experience Summary

Ms. Fonseca is a National Client Manager for Partner Engineering and Science, Inc. (Partner) and focuses on due diligence products for commercial real estate transactions. She services institutional investors; developers; brokers; local banks, CBMS, Bridge, and Mezzanine Lenders; and Agency Lenders with environmental site assessments, property condition assessments, seismic studies, construction monitoring, and remedial design/implementation. She works closely with property managers, legal counsel, regulatory agencies, and special asset groups to provide insight into the risks and liabilities associated with property acquisition, development, financing, and securitization. Ms. Fonseca delivers exceptional service and adds value to businesses by assessing risks and exposures while formulating appropriate solutions.

Ms. Fonseca has extensive experience with discerning conditions of recognized environmental concern and finding best-practice approaches for avoiding or mitigating the financial burden of Phase II scenarios. Ms. Fonseca has provided senior-level review and oversight on Phase II work and has dealt extensively with various regulatory agencies to expedite the process of receiving no further action letters on issues associated with leaking underground storage tanks, dry cleaners, and former industrial sites nationwide.

Ms. Fonseca's collective experience in the field of real estate due diligence has enabled her to support property owners, prospective purchasers, lenders, and clients' legal counsel through numerous successful transactions.

Ms. Fonseca works with Partner's Technical Directors nationwide to provide full-service consulting on commercial real estate transactions including ALTA Surveys, Geotechnical Surveys, Zoning, Feasibility Studies, and Energy Retro-commissioning.

Prior to joining Partner, Ms. Fonseca served as a Senior Project Manager for a national due diligence firm where she assisted with report preparation, quality assurance/quality control, and client management.

Project Experience

Portfolio of former industrial buildings, Durham, NC. Senior-level environmental assessment and management of several former industrial sites in Durham, North Carolina, including one Brownfield Site.

Sarah M. Fonseca

Prestigious High-rise, New York, NY. Senior-level acquisition-scope Property Condition Assessment of a 26-story commercial office building in mid-town New York, New York.

76-site Gasoline Station Portfolio, California. Client management of Phase I Environmental Site Assessments for a 76-site gasoline station portfolio.

Virgin Hotel, New York, NY. Client management on construction loan services including Document and Cost Review and Draw Requests for a high-rise hotel in midtown Manhattan.

Student Housing Developments, U.S. Client management on a suite of services including Phase I Environmental Site Assessments, Property Condition Assessments, Industrial Hygiene, Geotechnical Surveys, ALTA Surveys, and Zoning Reports for numerous acquisitions and ground-up development student housing projects nationwide.

Hotel Portfolios, U.S. Client management of Phase I Environmental Site Assessments and Property Condition Assessments on several hotel portfolios nationwide.
