RESOLUTION NO. 2021-34

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF FULLERTON, CALIFORNIA, APPROVING AND ADOPTING THE FISCAL YEAR 2021-22 OPERATING BUDGET AND APPROPRIATING THE FUNDS NECESSARY TO MEET THE EXPENDITURES SET FORTH THEREIN

WHEREAS, the City Manager of the City of Fullerton, in conformity with Section 2.09.150 of the Fullerton Municipal Code, has submitted to the Fullerton City Council (City Council) a Proposed Operating Budget (Proposed Budget) for all City funds, including the General Fund, Water and Sewer enterprise funds and all other funds and the Capital Improvement Program for Fiscal Year (FY) 2021-22 in the total amount of \$214,177,338.

WHEREAS, the General Fund is the City's chief operating fund providing traditional municipal services to the community such as public safety, public works, community and economic development and parks and recreation and library programming.

WHEREAS, the submitted FY 2021-22 General Fund Budget totals \$110,861,923.

WHEREAS, City Council held a budget study session on May 4, 2021 to receive an initial draft of the FY 2021-22 Proposed Budget and consider the budget presentation, review the financial forecast and provide input and direction to staff.

WHEREAS, the City Council held an additional budget study session on May 18, 2021 to receive additional financial information on the FY 2021-22 Proposed Budget and financial forecasts, receive an update on the American Rescue Plan Act (ARPA) and provide further input and direction to staff.

WHEREAS, City Council has considered said Proposed Budget and held a public hearing on June 1, 2021, prior to adopting the FY 2021-22 budget.

WHEREAS, staff duly noticed the public hearing, held at a regular City Council meeting and included public input from its residents, the business community and other interested parties.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF FULLERTON AS FOLLOWS:

Section 1. City Council approves and adopts the City of Fullerton's Operating Budget for all City Funds including the General Fund, Water and Sewer enterprise funds and all other funds and the Capital Improvement Program for FY 2021-22 in the amount of \$214,177,338 supported by \$214,177,338 in citywide revenues and available fund balances as presented in the FY 2021-22 Proposed Budget document hereto attached as Exhibit A.

Section 2. City Council approves and adopts the City's General Fund Operating Budget for FY 2021-22 in the amount of \$110,861,923 in total expenditures supported by a revenue budget of \$100,908,385, identified vacancy savings in the amount of \$3,800,000 and use of available contingency reserves in the amount of \$6,153,538.

- a. In utilizing available contingency reserves, the General Fund's reserve level will fall below City Council's reserve policy (*Statement of Financial Policies, Amended August 18, 2020*) to maintain a minimum 10% reserve level.

Per City Council direction at the May 18, 2021 budget study session, the City Manager will take steps during FY 2021-22 to identify an additional 2% - 5% in budget reduction

measures for City Council consideration to assist in balancing the City's operating budget and/or replenish use of contingency reserves.

- b. The City of Fullerton received the first tranche of American Rescue Plan Act (ARPA) allocation in the amount of \$16,332,650.50 on May 17, 2021. Staff will provide ongoing updates to City Council as the U.S. Department of Treasury continues to release guidance so City Council may consider and provide direction with respect to designation of eligible uses.

Section 3. City Council hereby approves and adopts the FY 2021-22 Capital Improvement Program in the amount of \$26,836,777 as presented in the FY 2021-22 Proposed Budget document attached as Exhibit A.

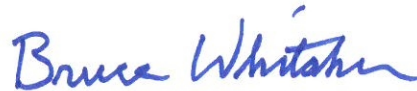

Section 4. Staff will amend the FY 2021-22 Operating Budget upon the close of FY 2020-21 to include and re-appropriate any outstanding encumbrances on existing agreements or contracts carried forward.

Section 5. Staff will amend the FY 2021-22 Capital Improvement Program budget upon the close of FY 2020-21 to include and re-appropriate funds for all previously approved, but not yet initiated or completed, improvement projects.

Section 6. This Resolution shall become effective at the start of the 2021-22 Fiscal Year, July 1, 2021.

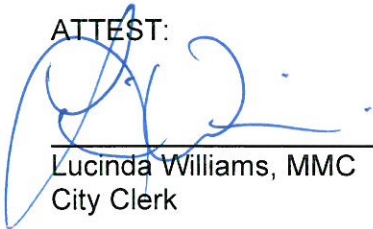

Section 7. The City Clerk shall certify to the adoption of this Resolution.

ADOPTED BY THE FULLERTON CITY COUNCIL ON JUNE 1, 2021.

RESOLUTION NO. 2021-36

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF FULLERTON, CALIFORNIA, APPROVING THE CITY'S SCHEDULE OF FEES AND CHARGES FOR MUNICIPAL SERVICES FOR FISCAL YEAR 2021-22 AND REPEALING RESOLUTION NO. 2020-48

WHEREAS, California State law authorizes the City of Fullerton to collect fees and charges for services, provided such fees and charges do not exceed the reasonable cost of providing such service.

WHEREAS, the City must amend its City's Schedule of Fees from time to time and revise the amounts charged to assist in the cost recovery of performing such services as cost of services can increase annually and for other economical or defensible reasons.

WHEREAS, City may need to add amendments to certain City fees or new City fees approved during the prior fiscal year to the City's Schedule of Fees and Charges.

WHEREAS, it is the City's financial practice to approve an annual resolution to approve and adopt the City's Schedule of Fees and Charges for the new fiscal year.

WHEREAS, it is recommended that City Council approve all department Fee Schedules, attached to this Resolution, in prescribed amounts to assist in the cost recovery of performing such services as prescribed herein.

WHEREAS, City Council held a duly noticed public hearing on June 1, 2021 to adopt this Resolution.

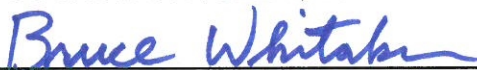

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF FULLERTON HEREBY RESOLVES AS FOLLOWS:

Section 1. City Council adopts all Fees and Charges set forth in this Resolution and approves the City's Schedule of Fees and Charges for Fiscal Year 2021-22.

Section 2. All prescribed Fees and Charges become effective at the start of the new fiscal year, July 1, 2021.

**CITY OF FULLERTON
GENERAL FUND REVENUES
FISCAL YEAR 2021-22**

Total General Fund Revenues: \$100,908,385

Property Tax

All taxable real and personal property within the City limits is subject to ad valorem taxation, a tax based on value that is secured by a lien on real property. These taxes are subject to 1% of the market value limitations of Proposition 13. For every \$1 of tax collected, the City of Fullerton receives \$0.1564 and the remainder is allocated to schools and other special districts.

Sales and Use Tax

Sales tax applies to all retail sales of goods and merchandise except those specifically exempt by law. Use tax generally applies to the storage, use, or other consumption in California of goods purchased from retailers in transactions not subject to the sales tax. The City receives \$0.01 of every \$0.0775 of sales and use tax collected within the Fullerton city limits.

Franchise Tax - Fees are charged to electrical, gas, refuse and cable TV companies for the privilege of operating in the City. Fees are generally based on the gross receipts from sales within the City.

Transient Occupancy Tax - The City levies a 10% tax on hotel/motel room occupancy of less than 30 days in length.

Business Registration Tax - All persons conducting business within the City of Fullerton must pay a business registration tax based on a flat rate or gross receipts, depending on business type.

**CITY OF FULLERTON
GENERAL FUND REVENUES
FISCAL YEAR 2021-22**

Charges for Services

The City charges various fees and charges for services provided, including development and inspection fees, paramedic fees, charges for public works, police, fire, library and parks and recreation services. By law, the City may not charge more than the cost of providing the service.

Use of Money & Property

This category is comprised of a variety of activities including property leases and concessions and interest income. Interest earnings are allocated to various funds monthly based upon cash balances.

Licenses & Permits

The City charges for the issuance of licenses and permits to conduct certain operations in the City, such as development, public works projects, fireworks sales, parking on streets in certain areas and alarm permits.

Revenues From Other Agencies

The City receives grants, subventions and reimbursements from the Federal, State and other local agencies. Examples include Motor Vehicle Licenses Fees, POST training reimbursements and disaster reimbursements when applicable.

Fines & Penalties

This revenue is generated from court fines related to parking citations, as well as other traffic violations and administrative citations.

**CITY OF FULLERTON
GENERAL FUND EXPENDITURES
FISCAL YEAR 2021-22**

Total General Fund Expenditures: \$110,861,923

* FY 21-22 Adopted Budget does not include identified Vacancy Savings of \$3.8 million

Salaries & Benefits - \$77.1 Million

Salaries and Benefits account for approximately 70% of the General Fund budget and increased over \$3.6 million from the prior fiscal year. CalPERS retirement costs encompass the majority of this increase and show a budgeted increase of \$3.2 million over the prior fiscal year.

Operations & Maintenance - \$33.8 Million

The Maintenance and Operations (O&M) budget was developed under a Maintenance of Effort (MOE) budget, which allows the budget to increase as a result of built-in contractual increases for the City's major services providers, utility rate increases, and cost allocations due to obligated personnel and benefit increases. In addition, FY 2021-22 budget represents planned program enhancements in line with City Council priorities anticipated to be undertaken in FY 2021-22. For FY 21-22, this includes continued economic development efforts, new emergency operations program, and continued investment to its IT infrastructure as well as its other internal service operations.

Capital Outlay - \$100,000

The capital outlay budget represents vital Public Safety equipment replacement costs.

Human Resources

DEPARTMENT ORGANIZATION CHART

DEPARTMENT DESCRIPTION

The Human Resources Department provides a wide range of services to the organization and its employees in the areas of personnel services, labor relations, benefits administration, workers' compensation, tort liability, and property/casualty insurance. The department strives to support the missions of the other City departments and to serve the needs of the City's diverse workforce. Fullerton has approximately 700 full-time equivalent positions in a variety of fields, many of which have unique personnel needs. The majority of City employees are represented by one of seven bargaining units recognized under state law. The City's personnel system is merit based and is conducted in accordance with federal, state, and local laws which govern the relationship between the City and its employees.

The Human Resources Department operates four divisions, serving both internal and external customers:

- Personnel Services, responsible for recruitment, classification, pay, and labor relations.
- Liability, responsible for the self-insured liability claims program and the property/casualty insurance program.
- Group Insurance, responsible for employee benefit programs.
- Workers' Compensation, responsible for the self-insured workers' compensation program.

Police Department

DEPARTMENT ORGANIZATION CHART

DEPARTMENT DESCRIPTION

The Fullerton Police Department is charged with the enforcement of local, state, and federal laws, and with protecting the lives and property of the public. The Police Department functions as an instrument of public service, working in partnership with the community to increase awareness of public safety and crime prevention issues.

To carry out its mandates, the Police Department, under the direction of the Chief of Police and with support from his Administration including Internal Affairs, is organized into two major divisions, each headed by a Captain: Operations and Support Services. The Operations Division is comprised of the Traffic and Patrol bureaus, Narcotics/Vice and the Gang Unit, Communications/Dispatch, the Directed Enforcement Team, ECHO Unit, Homeless Liaison Team, North County SWAT, and Crime Analysis. The Support Services Division oversees the Jail, Crimes Persons, Family Crimes, Crimes Property, Intelligence/High Tech Crimes, Crime Scene Investigations, Personnel and Training, Community Services, and Technical Services/Records, with the Property Unit and the Range under Personnel and Training. 140 sworn officers, 63 civilian employees and many part-time support staff and volunteers ensure the smooth and efficient operations of the Department.

**CITY OF FULLERTON
CAPITAL IMPROVEMENT PROGRAM OVERVIEW
FISCAL YEAR 2021-22**

The proposed Five-Year Capital Improvement Program (CIP), commencing July 1, 2021, and ending June 30, 2022, is presented in this section. The CIP is a planning tool for short- and long-range capital improvements and development. It links Fullerton's fiscal planning process to physical development.

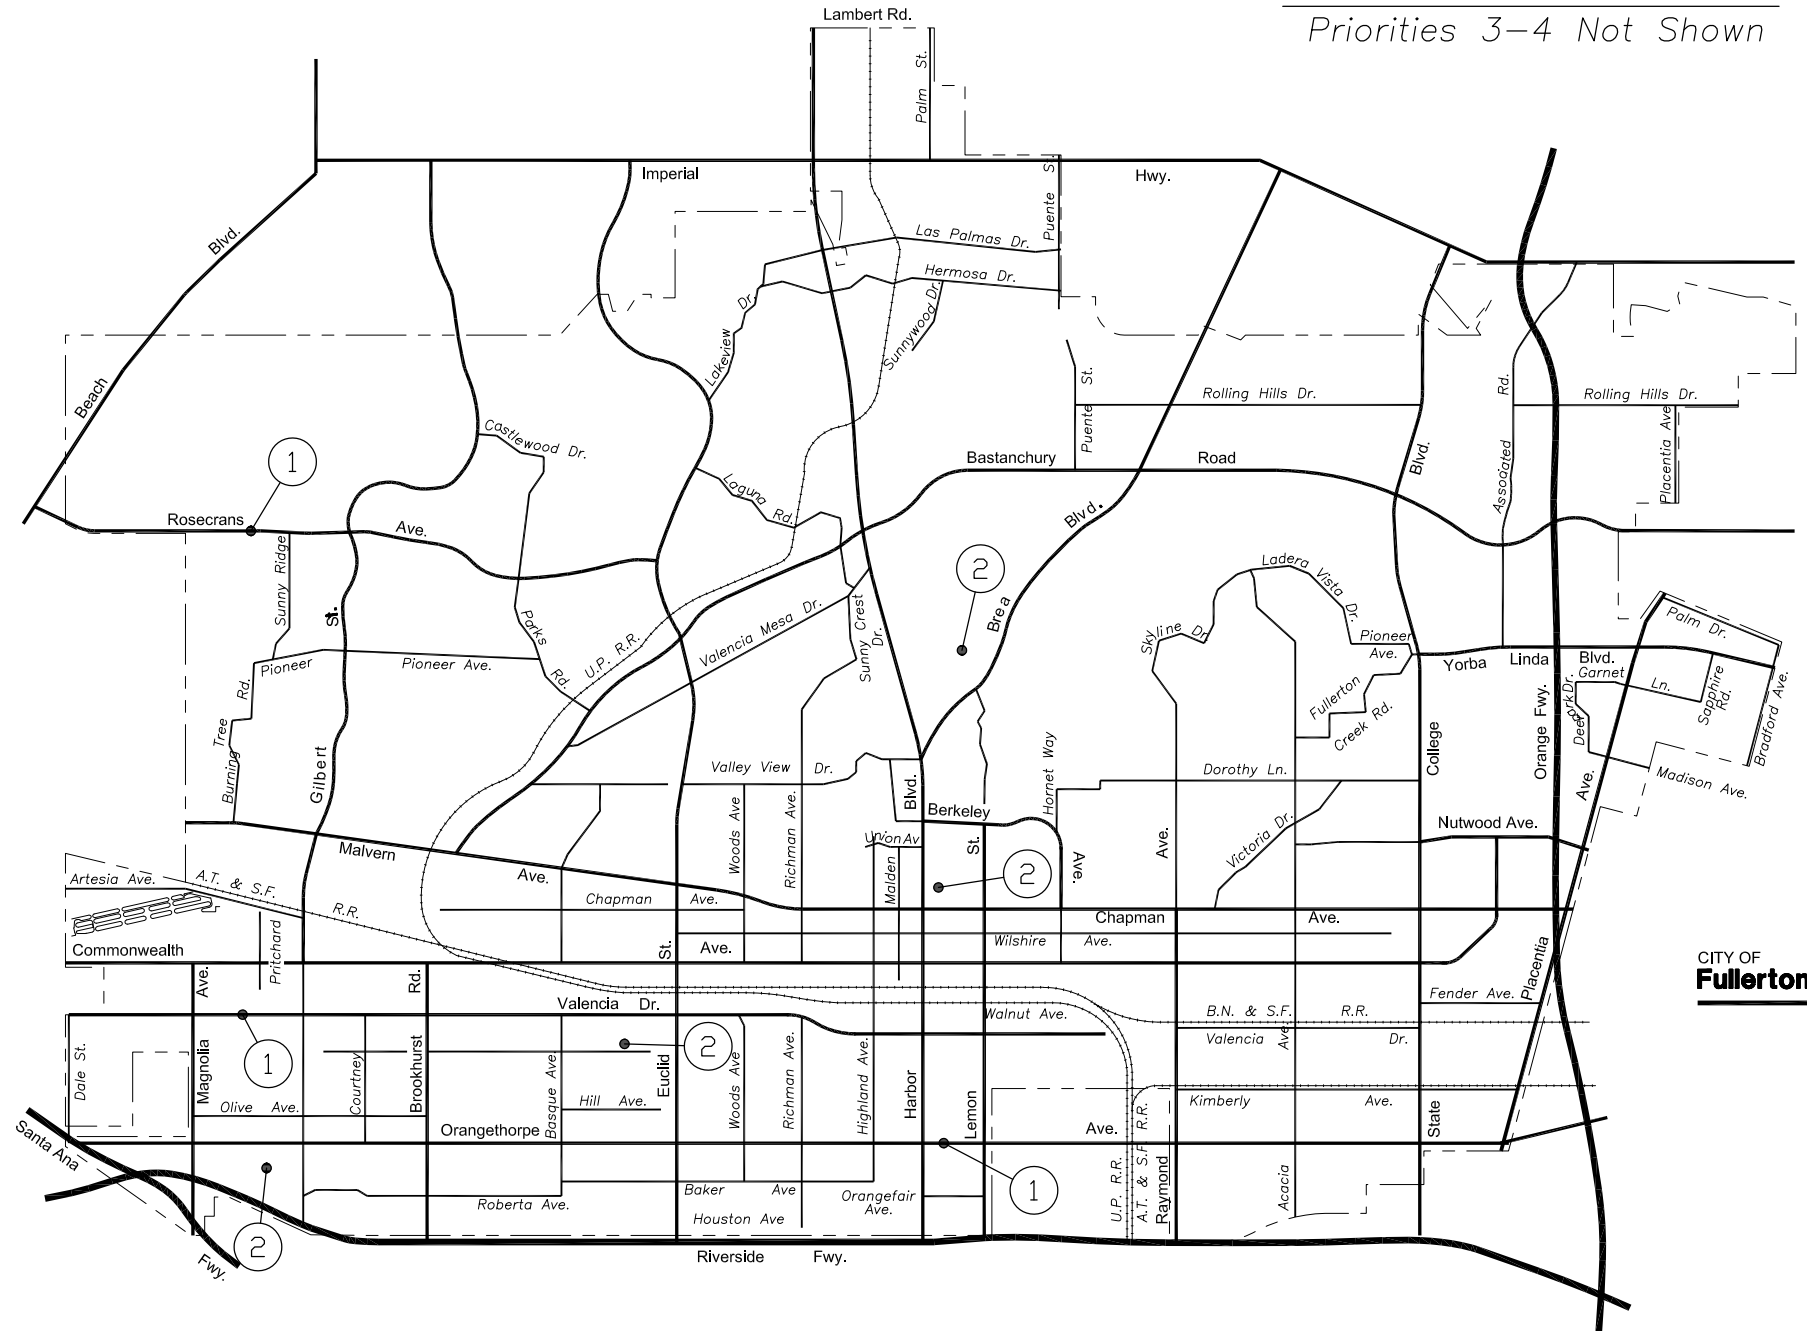

City projects total \$26,836,777 for 2021-22. In accordance with the City's goals, design will be completed or a construction contract will be awarded by June 30, 2022 for the majority of the projects in the 2021-22 CIP. Included in this year's CIP is a status of capital projects still in progress and will be carried over to 2021-22.

The 2021-22 CIP utilizes exclusively restricted funds that are not available for general operations. The funding composition of the 2021-22 CIP budget is shown below. Reconstruction and rehabilitation of the City's infrastructure system and various facilities continue to be a high priority for the Five-Year CIP.

Department: Public Works - Engineering (Streets)

Project Priority Number: 1

Project Number: **44400** Project Name: **Annual Arterial Street Program**

General Plan Element Section: Mobility

General Plan Element Subsection: Policy P5.6

Project Category: Street Improvement

Type of Project: Rehabilitation

Project Location: CITYWIDE

Expected Completion Date: Ongoing - Multiyear

Project Description:

Deficiencies and priorities are based on the Pavement Management Plan (PMP), Average Daily Traffic (ADT), maintenance service orders, conjunction with water, sewer and/or drainage projects, participation of other jurisdictions, and on bi-annual staff surveys. This is a multiyear program of reconstruction and resurfacing of the City's arterial street system. Work on these streets typically involve significant rehabilitation and will reduce the overall pavement condition deficiencies on the arterial streets.

The arterial streets scheduled to be rehabilitated in in FY 21-22 are:

- Valencia Avenue - Magnolia Ave to Gilbert St
- Rosecrans Avenue - City Limits to Sunny Ridge
- Orangethorpe Avenue - Harbor Blvd to Lemon St

Due to services provided by the City during the COVID pandemic, County of Orange has agreed to provide \$1 million in one-time street funding to the City.

Sewer, water and/or drainage funds will be contributed proportionally when these improvements are conducted concurrently with the street improvements.

Project Number: **44793**

Project Name: **Curb/Gutter & Sidewalk Reconstruction - FY 21-22**

General Plan Element Section: Mobility

General Plan Element Subsection: Policy P5.6 & P5.7

Project Category: Street Improvement

Type of Project: Rehabilitation

Project Location: CITYWIDE

Expected Completion Date: Ongoing - Multiyear

Project Description:

A continuing program for curb/gutter and sidewalk repair, which will improve drainage, reduce unsightly ponding, and replace damaged sidewalk. Replacing the curb/gutter will also increase the life of the adjacent asphalt concrete paving, while repairing sidewalks will reduce the City's exposure to liability.

Curb access ramps maybe installed near activity centers (i.e. parks, schools, commercial areas) and in areas of concern identified by residents needing disabled access. Installation of ramps is coordinated with the Arterial and Residential Street program whenever possible.

Locations for repair are typically identified by resident and/or or staff notifications of damage.

Project Category: Sewer System

Type of Project: Replacement

Project Location: CITYWIDE

Expected Completion Date: Ongoing - Multiyear

Project Description:

This project will replace deficient and high maintenance sewer mains that have leaks, cracks, root intrusion, and settlement problems. Deficient mains have been identified in the Sewer Master Plan. PW-Maintenance prioritizes the high maintenance sewer mains and the need for replacement.

The waste discharge requirement, as required by the California Regional Water Quality Board - Santa Ana Region (Order R8-2002-0014, dated April 26, 2002 and Order 2006-0003-DWQ, dated May 2, 2006) requires all agencies that operate sewer systems to provide sufficient capital for both the short-term and long-term sewer system deficiencies.

Anticipated projects for FY 21-22 are:

- Valencia Avenue - Magnolia Ave to Gilbert St
- Washington Avenue - Orangethorpe Ave to Knepp Ave
- Glenwood/Union/Brookdale - Harbor Blvd Alley to CDS
- Basque Ave at Commonwealth Ave

Locations are subject to change as priorities and funding are continuously updated.

Project Description:

A multiyear program to install inlet screens, and various other trash and debris screens within catch basin throughout the City.

On April 7, 2015, the State Water Resources Control Board adopted the Statewide Trash Amendments to the Water Quality Control Plan for Ocean Waters of California to address the significant trash pollution in California's waters. These amendments, collectively called "the Trash Provisions," require that cities install, operate and maintain Full Capture Systems in catch basins located in Priority Land Uses to effectively capture 100% of trash generated. Priority Land Uses include high-density residential, industrial, commercial, mixed urban and public transportation.

The City has previously applied for, and received OCTA M2 Environmental Clean-Up Fund grants to purchase and install these various screens. A requirement of these grants is ongoing maintenance of the screens.

Project Location: CITYWIDE

Expected Completion Date: Ongoing - Annual Project

Project Description:

This is a multi-year program to replace aging water mains in the City's water distribution system. The City has approximately 423 miles of pipeline. Many of the City's water mains are beyond its design service life. The City of Fullerton's oldest water mains were constructed in the 1910s. Some of these old pipes have water quality problems and many have had multiple leaks over the years.

The Water Rate Study in 2019 recommended an accelerated replacement cycle. The study noted that over 50% of the pipes are over 50 years old. In 2019, the City approved an escalating 5-year water rate increase to support the annual replacement of 3, 3, 5, 7, and ultimately 9 miles of water main in FY 2024.

Funding from FY 2021-22 will fund the following project areas:

Project Location: CITYWIDE

Expected Completion Date: Ongoing - Multiyear

Project Description:

Per- and Polyfluoroalkyl substances (PFAS) are man-made chemicals that have been detected in a number of wells in Orange County, including the City of Fullerton's. The Division of Drinking Water (DDW) has assigned Notification Levels (NLs) and Response Levels (RLs) to two PFAS constituents, Perfluorooctanoic acid (PFOA) and Perfluorooctanesulfonic acid (PFOS). Groundwater that exceeds the NL(s) require notification to governing bodies of agencies receiving the supplied drinking water while DDW recommends any groundwater wells that exceed the RLs be removed from service. The City has had to remove one high-producing well from service due to this order, with future testing and regulatory changes possibly removing other wells from service.

The PFAS program will fund the required actions needed for the City to manage and treat PFAS in the groundwater. This may include, but not be limited to, procuring funding mechanisms, land acquisition, treatment plant(s) design and construction, permit acquisition, monitoring and testing activities, modifications to existing infrastructure, operations and maintenance costs including resin and media purchases, etc.

Additional funding will be requested as needs are developed.

General Plan Element Section: Water

General Plan Element Subsection: Policy P19.4 & P19.5

Project Category: Water System

Type of Project: Repair & Maintenance

Project Location: CITYWIDE

Expected Completion Date: Ongoing - Multiyear

Project Description:

This program is to upgrade and rehabilitate water reservoirs, including cleaning and inspecting the reservoir for assessment, restoration of damaged interior and exterior coatings, and repair of piping deterioration from corrosion and normal aging. Many of the City's water reservoirs were built in the 1960's. The service life of these reservoirs is 50-75 years depending on construction type and maintenance schedule. A rehabilitation/upgrade program will ensure the City's reservoirs are able to provide another 20 years or more of service.

Funding will be for rehabilitation at the following reservoirs:

FY 2021-22: Tank Farm Reservoir Tank 2 - A steel reservoir constructed in 1960. In the 1990s, the interior of the steel reservoir was coated with Coal Tar as was standard for the time for corrosion control. The Coal Tar has aged and is currently causing non-hazardous water quality issues. The Coal Tar needs to be removed and the steel tank epoxy coated. Other safety and Cal/OSHA upgrades are needed to meet current safety requirements.

FY 2023-24: Coyote Reservoir - An above-ground nested concrete reservoir constructed in 1958. It requires structural rehabilitation and safety upgrades per Cal/OSHA and Health Department. The overflow pipe is corroded. Additional funding may be required after assessment from a consultant. Design is scheduled to start in FY 2021-22.

These locations are subject to change as priorities are continuously updated.

General Plan Element Section: Water

General Plan Element Subsection: Policy P19.4 & P19.5

Project Category: Water System

Type of Project: Repair & Maintenance

Project Location: CITYWIDE

Expected Completion Date: Ongoing - Multiyear

Project Description:

This program is to assess and rehabilitate the City wells. The City operates 9 wells and the oldest was constructed in 1927. Most of these wells have not had any significant maintenance or improvements. Many of the wells have had recurring problems with water quality due to the nature of the well construction typical of the era. In order to continue supplying reliable groundwater, proper well maintenance procedures require the wells to be video inspected and assessed for condition and rehabilitated once every ten years. Maintaining these wells is economically beneficial to the City as groundwater is more cost effective compared to imported treated surface water. Rehabilitation will extend the life of these wells before expensive replacement is needed.

Funding will be for rehabilitation at the following wells:

FY 2021-22: Christlieb Well 15A - While Well 15A is not the highest priority for a well rehabilitation, Southern California Edison is offering a potential pump efficiency incentive of up to \$28,784. Staff feels it is appropriate to increase the priority on this well to receive the incentive while also perform other required maintenance on it at the same time. The improved efficiency will also save the City money in the long run.

These locations are subject to change as priorities are continuously updated.

Type of Project: Repair & Maintenance

Project Location: CITYWIDE

Expected Completion Date: Ongoing - Annual Project

Project Description:

This program is to repair or replace valves, vaults, large meters, and other miscellaneous structures required for operating a water distribution system.

The vaults scheduled for repair pose safety hazards to the maintenance crew due to their layout and are not compliant per new Cal/OSHA regulations for confined space access.

The valves requiring replacement are broken and cannot close completely. The poor condition of the valves cause more customers to be out of service when a water shutdown is required, whether for construction of new development or for emergencies (e.g., water main breaks).

The large meters serve multifamily, commercial, and industrial properties. The City has a maintenance program that tests for the accuracy of these meters and verifies that the City is collecting the correct revenue from its customers. Older meter assemblies were not installed with the ability to be tested. The large meter replacement schedule priorities are based on the highest water users whose meters are not testable.

This program is to repair, replace, and rehabilitate water production equipment and any related site improvements. This includes replacement of old motor control centers, pumps, motors, controls, piping, and enclosures. These upgrades are necessary to maintain the ability to move water throughout the City, integrate the controls with the Supervisory Control And Data Acquisition (SCADA) System, and improve emergency resiliency.

Funding will be for upgrades at the following booster stations:

FY 2022-23: Tank Farm Booster Station - This station was built in 1960 with much of the original infrastructure still in place. Replacement parts for repairs are getting harder to obtain as much have been discontinued over the years.

FY 2024-25: Hermitage Booster Station

Project Description:

AMI takes the meter readers out of the field and brings the readings directly to the utility. This system utilizes high power transmitters attached to the meters and end points to collect meter readings throughout the day. The AMI meters will register the water used and send the meter reads back to the City for billing or other data management purposes. AMI also has functions that allow residents to track their own water use and check for leaks. This technology based metering allows flexibility in monitoring water use and billing.

This project will be a multiyear project. The funding from FY 2022-23 and FY 2024-25 will be for converting some of the more difficult and time consuming meter reading routes. Additional funding will be requested in the future over multiple years to slowly and incrementally convert the rest of the city to be read through AMI meters.

Project Description:

This program is to replace water wells that have deteriorated beyond rehabilitation efforts. Replacing water wells will help improve system reliability, increase the accessibility to the lower cost groundwater supply, and meet projected water demands. Production from the water wells comprise approximately 77% of the City's water. Future changes in the region's water supply management may allow the City to increase this percentage. City wells range in age from 19 to 94 years.

Funding for a replacement well is spread over multiple years, location is to be determined with the assistance of a consultant:

Project Description:

This program is to properly abandon Coyote Well 12A. This well was drilled in 1993 but did not produce much water--initially around 500 GPM and dropping to 300 gpm towards the end of its life. In addition, the little water that was produced had high levels of Iron and Manganese, which required a treatment train. Due to the low production and treatment costs, staff recommended the well be taken offline in 2003. The following tasks will need to occur: well abandonment, which includes removing the pump, perforating the casing, and filling in the hole with sealing grout; treatment train disposal; and disconnection from the existing water system.

Project Description:

Previously programmed as an eight phase project, this project is being extended an additional year due to the increased cost of materials and signs resulting in the inability to address all needs within the original expected schedule and budget.

Project involves installing new high intensity and non-illuminated overhead street name signs throughout the City to replace existing damaged or deteriorating signs. The new illuminated signs will be installed throughout the Downtown corridor as well as at all major signalized intersections. The non-illuminated signs will be installed at minor signalized intersections resulting in future savings in labor, material, and electrical costs.

Project Description:

This project consists of installing a new traffic signal and/or Rectangular Rapid Flash Beacons (RRFB) at various locations as determined in latest version of City's Traffic Signal Priority Report. The traffic signal will be included in the City's Traffic Signal System. Locations are established in accordance with the City's Signal Priority List ranking.

The City routinely reviews and updates the Signal Priority List based on studies of current traffic volumes, accident history, etc. The result of these studies may indicate warrants/requirements for a new traffic signal are not met, or installation of RRFB's are recommended. Potential FY21-22 project locations will be determined after the updates are complete. Updates have been delayed due to the impacts the COVID-19 pandemic has had to traffic volumes.

Project Description:

A multi-jurisdictional project through Orange County Transportation Authority's (OCTA) Project P/Regional Traffic Signal Synchronization Program (RTSSP). The Harbor Boulevard project from Whittier Boulevard in the City of La Habra to Chapman Avenue in the City of Garden Grove is approximately 10.6 miles in length and involves 50 signalized intersections, 21 of which are in the City of Fullerton. The City was lead agency on the project with participation from the cities of Anaheim, Garden Grove, La Habra, Caltrans and OCTA. Agencies are required to provide 20 percent matching funds. Funding for approximately 80% of the project is provided by a grant from OCTA. The remaining 20% of project costs are funded by the local agencies through available funding sources.

As part of the project, Fullerton received new controllers, new CCTV cameras, fiber optic interconnect, Ethernet wireless radios, and video detection upgrades at affected intersections. New timing and coordination patterns were also developed and implemented at all signalized intersections within the project limits.

Ongoing maintenance and operation are included as part of the overall cost and extend two years beyond the project completion date.

Project Location: CITYWIDE

Expected Completion Date: Ongoing - Multiyear

Project Description:

Install new uninterrupted power battery backup units in high priority locations. An increase in Southern California Edison power outages both planned and unplanned are impacting public safety as traffic signals become "blacked-out". A battery backup unit would allow the signal to operate fully for up to two hours or "flash" mode for 6 hours. This project will fund the installation of up to ten units per year. In addition, there are labor savings as Police Department, Public Works Maintenance, and Traffic Signal personnel would not need to respond to a blacked-out traffic signal.

Anticipated projects for FY21-22 are dependent on failures and critical intersections subject to reoccurring SCE power outages.

General Plan Element Section: Mobility

General Plan Element Subsection: Policy P5.1 & P5.6

Project Category: Traffic Signal & Safety Lighting Type of Project: New Improvement

Project Location: CITYWIDE

Expected Completion Date: Ongoing - Multiyear

Project Description:

Install new Closed Circuit Television Cameras (CCTV) at priority signalized locations. The cameras allow staff to monitor roadway conditions and traffic progression. The cameras allow staff to monitor roadway conditions, traffic progression, or traffic delays. The cameras are valuable asset in that in addition to activity in the immediate vicinity of the intersection staff is able to monitor the area, for approximately a quarter mile in each direction, for any construction activity and/or cause contributing to travel delay; e.g. accidents, flooding, or malfunctioning signals, without having to expend staff time going out to the location.

Projects are coordinated OCTA Grant funded traffic projects and/or with programmed street improvement projects whenever possible. Funding provides replacement of one camera if an existing system fails.

Project Location: ROSECRANS AVE FROM WEST CITY LIMIT TO EUCLID ST

Expected Completion Date: Spring 2028

Project Description:

A multi-jurisdictional project through Orange County Transportation Authority's (OCTA) Project P/Regional Traffic Signal Synchronization Program (RTSSP). The project, Rosecrans Avenue from Beach Boulevard in the City of Buena Park to Euclid Street in the City of Fullerton, is approximately 2.6 miles in length and involves 9 signalized intersections, 8 of which are in the City of Fullerton.

The City is lead agency on the project with participation from the City of Buena Park, OCTA, and the County of Orange.

Agencies are required to provide 20 percent matching funds. Total cost for the 3-year project is \$675,000 which includes \$540,000 (approximately 80% of the project cost) funded by OCTA.

Total project cost within the City of Fullerton amounts to \$475,000 which Fullerton's match dollar is \$95,000. 1st year costs total \$79,000 with 2nd & 3rd year costs totalling \$16,000 for ongoing Maintenance & Operations.

As part of the project, Fullerton will receive new controllers, new CCTV cameras, fiber optic interconnect, Ethernet wireless radios, and video detection upgrades at affected intersections. New timing and coordination patterns will also be developed and implemented at all signalized intersections within the project limits.

Ongoing maintenance and operation are included as part of the overall cost and will extend two years beyond the project completion date.

Project Description:

The City is in the process of updating the current Americans with Disabilities Act (ADA) Transition Plan and Self Evaluation. Every public entity in the United States with 50 or more employees is responsible for implementing a Transition Plan required by the ADA. The update will ensure the City complies with all aspects of the ADA in regards to its public buildings and facilities, parking lots, parking structures, parks and public right of way.

- The project will be completed in four phases.
 Phase I - Public Buildings and Facilities
 Phase II - Parking Lots and Parking Structures
 Phase III - Parks
 Phase IV - Citywide Public Street Right of Way

Phases I & II was completed in FY 19-20 & 20-21. Phase III will be completed in FY 20-21. Phase IV will start in FY 20-21 and continue for multiple additional years depending on available funding.

General Plan Element Subsection: Policy P13.2

Project Category: Fire Service

Type of Project: New Improvement

Project Location: Fire Station 3 - 700 S. Acacia Ave

Expected Completion Date: Winter 2021

Project Description:

The intent of this project is to modify the current apparatus bay and/or doors at Fire Station #3 in order to accommodate all types of fire apparatus owned and operated by the City of Fullerton. This project is an improvement to the existing facilities as it aims to provide necessary storage for the fire department vehicles and equipment (including the ladder truck).

Due to an agreement with a private developer (Goodman) for their new neighboring development, the fire department is obligated to deploy a new, larger platform truck from this station, thereby requiring building modifications to store the new apparatus.

The preferred option at this time will be modification of the bay door height to provide clearance for the new platform truck. Analysis of the existing building structure will be required to determine feasibility, plus any other needed modifications to provide for proper operation of the apparatus bay.

It is expected analysis of the building and modification of the door heights will be fully funded by the developer fees. If any other modifications or improvements recommended, they would be programmed and funded in future fiscal years.

Project Number: **50015** Project Name: **Fire Station Alerting System**

General Plan Element Section: Public Safety

General Plan Element Subsection: Policy P13.2

Project Category: Fire Service Type of Project: Replacement

Project Location: CITYWIDE

Expected Completion Date: Fall 2021

Project Description:

Every fire station requires a complex computerized alerting system to notify crews of an emergency call. The systems vary depending on the company's design and department need. Ultimately, each system will require a radio, amplifiers, speakers, internet access and a medium to convert the radio transmission/data alert that comes into a station into an audio/visual response.

Fullerton Fire Department has been piecing together its station alerting system for decades now. The entirety of the system is antiquated, unreliable and in a state of disrepair. Industry standard requires departments to have uniform, modern day systems with established maintenance contracts to prevent disruption to emergency operations. Because the current systems have been pieced together by multiple different companies and contain varying types types/brands of equipment, service providers are unwilling to repair our systems for liability reasons. As a result, parts and support are unobtainable.

Department: Fire Department

Project Priority Number: 3

Project Number: **TBD** Project Name: **Fire Station 2 Relocation**

General Plan Element Section: Public Safety

General Plan Element Subsection: Policy P13.2

Project Category: Fire Service Type of Project: Replacement

Project Location: Fire Station 2 - 1732 W. Valencia Avenue

Expected Completion Date: Ongoing - Multiyear

Project Description:

The project is to replace Fire Station 2 with a more capable, modern fire station that meets the growing demands of the district and bring the station up to safety, ADA and gender compliance standards. The station is also intended to meet Fullerton's need of a dedicated Emergency Operations Center (EOC) and west side Police Department substation. Fire Station 2, constructed in 1953, is now inadequate for equipment storage, crew needs and operational capability. The building is not gender compliant (restrooms, locker rooms, etc.) nor is it earthquake safe. As a result, a complete remodel of the Station is necessary. Considering the high cost of building a new facility, the Fullerton Fire Department (FFD) proposes a collaboration with the Airport to construct a Station directly on the Airport grounds. The sale of Station #2 and its land would offset funding for this project. Although the city is currently seeking a proposal for fire protection services from OCFA, this project is independent of that effort. Due to the high call volume in the area, a fire station in this location is necessary regardless of the agency providing services. Further, should services be contracted out, an effective and secure EOC is still needed for the City's Emergency Management obligations, as OCFA does not provide this service to its contract cities.

The Fire Department will conduct a study of response times in order to ensure response times remain adequate, fair and equitable to all residents serviced by the previous location. At this time, there is no belief this relocation will result in a significant impact. Secondly, relocating Fire Station #2 to an on-site airport location would provide faster response times to all airport emergencies, which have recently been on the rise. Fullerton Airport management has expressed a great desire to have emergency response equipment and personnel at the airfield.

In addition, this project would provide aims to collaboratively incorporate an Emergency Operations Center (EOC) as part of the new Fire Station, as the City is currently void of a modern and permanent EOC. Collaborative efforts with the various departments would offset additional costs for the building (i.e. grants, west side police substation for PD, sale of previous Station #2, EOC funds, Airport Enterprise funds).

Project will be designed, and if approved, constructed in Phases. Phase 1 will involve Airport location analysis, response time analysis, conceptual design, funding options (grants/collaboration of funding for EOC portion of the facility) and preliminary cost estimating. Phase 2, if approved, would involve preparation of construction documents and permitting. Phase 3, if approved, would involve construction.

Project Category: Library Type of Project: Rehabilitation

Project Location: 201 S. BASQUE AVENUE

Expected Completion Date: Summer 2022

Project Description:

The Fullerton Public Library, in conjunction with the results from public outreach performed at the direction of the Fullerton City Council to the Library Ad Hoc Committee, recognize the need to revitalize the Hunt Library to provide necessary library services with an emphasis on literacy and cultural innovation programming at this historic City building. The project involves design and renovation of the current library to provide minimal library services via potentially a book lending kiosk as well as being a location for library outreach with current library outreach vehicles and staff. The library will also be available for various community organizations to hold meetings and training classes. Included in the scope is significant improvements to the existing Hunt Library building which was constructed in 1962 and was added to the California and National List of Historic Buildings in 2019. The improvements to the existing building will strengthen the Library's role as a community gathering place and hub of civic engagement and education.

The City has engaged an historical architect to oversee improvements to the building and is also negotiating with Arts Orange County to provide programming for building upon completion of the building renovation.

Improvements/upgrades will include work to the building facade, roof, interior finishes, plumbing, fire suppression system, HVAC, electrical, communication equipment, landscaping, site paving, site lighting and general accessibility. This work is estimated to cost \$2,500,000.

TOPIC AREA	POLICIES
Water	P19.2 Support regional and subregional efforts to promote water efficiency and conservation.
Water	P19.3 Support projects, programs, policies and regulations to encourage the use of new technologies which reduce water use.
Water	P19.4 Support projects, programs, policies and regulations to maintain adequate quantities of water, including groundwater, available to the City now and in the future.
Water	P19.5 Support projects, programs, policies and regulations to ensure the quality of the water supply.
Water	P19.6 Support projects, programs, policies and regulations to evaluate ways to conserve and reduce water use as part of community-based planning of Focus Areas.
Water	P19.7 Support projects, programs, policies and regulations to encourage water efficient practices in site and building design for private and public projects.
Water	P20.1 Support regional and subregional efforts to support functional and healthy watersheds.
Water	P20.2 Support regional and subregional efforts to support cleaner and reduced urban runoff.
Water	P20.3 Support projects, programs, policies and regulations to reduce impacts to watersheds and urban runoff from the improper handling and disposal of commercial products.
Water	P20.4 Support projects, programs, policies and regulations that support a functional and healthy watershed within neighborhoods and districts.
Water	P20.5 Support projects, programs, policies and regulations to encourage site and infrastructure improvements within the City's Focus Areas to support cleaner and reduced urban runoff.
Water	P20.6 Support projects, programs, policies and regulations to reduce impacts to watersheds and urban runoff caused by private and public construction projects.
Water	P20.7 Support projects, programs, policies and regulations to reduce impacts to watersheds and urban runoff caused by the design or operation of a site or use.
Air Quality & Climate Change	P21.1 Support regional and subregional efforts to improve the alignment of housing options and employment opportunities to reduce commuting.
Air Quality & Climate Change	P21.2 Support regional and subregional efforts to promote a transportation system coordinated with air quality improvements.
Air Quality & Climate Change	P21.3 Support regional and subregional efforts to implement programs that regulate pollution across jurisdictions, particularly where the source is not under the City's authority.
Air Quality & Climate Change	P21.4 Support projects, programs, policies and regulations to promote a balance of residential, commercial, industrial, recreational and institutional uses located to provide options to reduce vehicle trips and vehicle miles traveled.
Air Quality & Climate Change	P21.5 Support projects, programs, policies and regulations to reduce impacts to air quality from the improper handling and disposal of commercial products.
Air Quality & Climate Change	P21.6 Support projects, programs, policies and regulations to reduce impacts to air quality caused by private and public construction projects.
Air Quality & Climate Change	P21.7 Support projects, programs, policies and regulations to reduce impacts to air quality caused by the design or operation of a site or use.
Air Quality & Climate Change	P22.1 Support regional and subregional efforts to reduce greenhouse gas emissions associated with transportation through land use strategies and policies, transportation system improvements, and transportation demand management programs.
Air Quality & Climate Change	P22.2 Support regional and subregional efforts to reduce greenhouse gas emissions associated with electrical generation through energy conservation strategies and alternative/renewable energy programs.
Air Quality & Climate Change	P22.3 Support regional and subregional efforts to reduce greenhouse gas emissions associated with water conveyance through water conservation strategies and alternative supply programs.
Air Quality & Climate Change	P22.4 Support regional and subregional efforts to reduce emissions associated with solid waste through increased recycling programs and reduced waste strategies.
Air Quality & Climate Change	P22.5 Support projects, programs, policies and regulations to use technology whenever feasible to minimize travel for City meetings and trainings.
Air Quality & Climate Change	P22.6 Support projects, programs, policies and regulations to reduce greenhouse gas emissions from waste through improved management of waste handling and reductions in waste generation.
Air Quality & Climate Change	P22.7 Support projects, programs, policies and regulations to address climate change impacts relevant to the City as an inland community, including rises in average and extreme temperature, less annual precipitation, more flooding during El Niño seasons, increased power outages and higher levels of smog.
