Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Evaluation:

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	01-02-2001
Violations Found:	No
Eval Type:	Industrial Storm Water Compliance Evaluation
Eval Notes:	Inspection was also follow up for a fire - info from Karen Ashby, Orange County RFRD. Liquid paint stains noted on east side of main building, coming out of a door. White staining and spilling near ASTs (east side of facility). Evidence of paint resdidues in storm swale on east side of building. Condensate and oil coming out of compressor area. Plastic bags of sand leaking into storm drain and flood control channel. Numerous 55 gallon drums without secondary containment along flood channel and by field on west side of building. Poor housekeeping. Fresh 1 gallon spill and crushed container noted by AAB and cleaned up as inspectors watched. On south side of the facility leaking latex residue from ASTs. SWPPP needs to be updated ('94). As leaving the inspection there was an unauthorized discharge into the flood control channel as the mechanic hosed down the driveway of the maintenance garage. Black dust and oily material observed floating in the water.

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	11-29-2017

VISTA PAINT CORP (Continued) **1000395320**

Violations Found: Yes
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board Staff conducted a compliance inspection of the above facility on November 29, 2017. The SWPPP was reviewed and no violations were observed. A site walk was then conducted. Totes, drums, and paint products were observed stored outside without BMPs or secondary containment. Additional miscellaneous chemical products were stored outside without BMPs. Secondary containment valves observed with signs reading G Wet Season Check Before DrainingG . Spill kit needed near southeast side near drum and tote storage. Totes were observed stored on storm swale. Soapy water discharge observed in storm swale. Mr. Long found the discharge was from an eye wash station. Increase sweeping and housekeeping needed around drum storage area. Fire pump construction was taking place at the northern portion of the property, parallel to Orangethorpe Ave. BMPs were not observed or in place to prevent sediment runoff from the property into the storm gutter.

Eval Notes:	Set inspection date for 10-10-13/1330 with John Long.
Eval Division:	Orange County Environmental Health
Eval Program:	HWRecycler
Eval Source:	CERS

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	10-10-2013
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	On site for the annual hazardous waste recycler inspection. Inspection authority granted by Vista Paints/ John Long. This facility no longer recycles the waste oil based paints from their own store or the satellite stores. All non usable oil based paints are hauled away as hazardous waste from each store. The satellite stores do return off spec and mis-tint laytex paints to this location for re blending into new paints at the factory. These paints have been tested via a fish bio-assay and determined no be non hazardous. Any re blending does not require a "recyclable materials exemption" nor any regulatory paperwork. This inspection program will be removed from the inspection database via anRUR.
Eval Division:	Orange County Environmental Health
Eval Program:	HWRecycler
Eval Source:	CERS

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	10-10-2013
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	On site for the hazardous waste (HW) inspection. Inspection authority granted by Vista Paints/Long. Laytex paint recycled as non-hazardous. Fish bio-assay shows non hazardous. Non hazardous waste manifests reviewed. Oil based paint (not made on site, paint purchased from outside vendors and if not used), hauled as HW. Manifests reviewed. Universal wastes (light tubes, computers and batteries) hauled as E-waste. Manifests reviewed. Paint spills/absorbent hauled as HW. Manifests reviewed. Facility will cease oil based paint waste within the next year. HWs are properly stored on site and properly labeled. Inside warehouse. Annual training. Records reviewed. HMBEP plan on file for FFD.
Eval Division:	Orange County Environmental Health
Eval Program:	HW
Eval Source:	CERS

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	10-10-2013
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	On site for the triennial Spill Prevention Control and Countermeasure (SPCC) inspection. Inspection authority granted by Vista Paints/Long. SPCC on site and available for review. The tier 1 SPCc was written on 1-2010. It was amended on 10-2013. It needs to be re certified before 1-2015. All aboveground storage tanks (ASTs) are empty, closed and labeled as empty. Facility has only 55 gallon drums of petroleum

VISTA PAINT CORP (Continued) **1000395320**

products that are subject to SPCC requirements. Use the entire facility as the secondary containment. There is a cinder block wall with removable gates that separate the outside chemical storage area from the nearby storm drain channel. The secondary containment appears to be "minimal" however, all the 55 gallon drums that contain regulated petroleum products are stored at the other end of the parking lot and a release of 55 gallons would most likely not make it to the containment area. Facility has 5 USTs on site. 3 are not being used and 2 contain [Truncated]

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Potential Contaminants of Concern:	1,1,1-Trichloroethane (TCA), Dichloroethene (DCE), Tetrachloroethylene (PCE), Trichloroethylene (TCE), Lead, Nickel, Other Metal, Gasoline, Stoddard solvent / Mineral Spriits / Distillates
Site History:	The Khyber Foods site is located at 1818 East Rosslynn Avenue, Fullerton, California. The site occupies approximately 1.44 acres in an urban industrial area in Orange County. As of March 2015, the site contained a single 26,851-ft2 building with roll-up doors located along the western and eastern portions of the building. Paved parking areas are located along the northern and eastern portion of the property. USTs are located in the southeastern and central western portions of the property. In addition, the former drum storage area was located adjacent to the building along the central eastern portion of the property. From 1984 to 1988, J.C. Ford Manufacturing Company (J.C. Ford) operated onsite as a machine shop and weld fabricator. Santa Ana Plating Corp. may have occupied the property

J.C. FORD MFG. CO. (Continued) **U001577073**

subsequent to J.C. Ford, but the records are not clear, and it may have operated on the adjacent property. In the 1990s, Khyber Foods, Inc. operated at the site. From at least 1998 to 2006, PCA Industries, LLC operated onsite and conducted metal plating operations. Since at least 2008 until approximately 2014, Metaclad Insulation Corporation has operated at the site and designed and fabricated specialty insulation items. The operations and hazardous substances used onsite during the time that J.C. Ford, Santa Ana Plating Corp., and Khyber Foods occupied the property are unknown. Metaclad Insulation Corporation generated asbestos-containing waste, other inorganic solid waste, waste oil and mixed oil, unspecified organic liquid mixture, and lead. Analytical results from a March 1990 soils investigation indicated the presence of trichloroethylene (TCE) at 260 micrograms per kilogram (ug/kg), tetrachloroethylene PCE) at 170 ug/kg, 1,1,1-trichloroethane (1,1,1-TCA) at 750 ug/kg, 1,1-dichloroethylene (1,1-DCE) at 670 ug/kg, and 1,1,2-trichloroethane (1,1,2-TCA) at 44 ug/kg. In 1990, three monitoring wells were installed on the Khyber Foods site and quarterly sampling began in October 1991. Numerous groundwater sampling events occurred in the early 1990s that detected PCE, TCE, and 1,1-DCE in groundwater beneath the site at concentrations exceeding Maximum Contaminant Levels (MCLs). A soil, soil vapor and groundwater investigation is currently underway.

Eval Date:	09-19-2016
Violations Found:	No
Eval Type:	Other, not routine, done by local agency
Eval Notes:	Phone call from Schreiber/Braegger. Discussed the site. The 5 year RMP re certification is due soon. He wanted to know 1) if HCA needs a copy (no, keep on site for on site review), 2) they did the hazard review earlier this year, do they need another (no, HCA was invited but was unable to attend) and 3) the seismic review was done during the addition of piping, does it need to be re done (no, earlier seismic is OK). VM from Schreiber/Ebert. Same seismic question. Called and left a VM that the earlier seismic is OK.

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	11-10-2015
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	INSPECTOR COMMENT: On site for a routine hazardous waste inspection. Consent to inspect and take any necessary photos was given by George Rodriguez, Shop Manager. Walked throughout the facility. Observed hazardous waste storage areas. Containers were closed and properly labeled. An oil water clarifier is present in the truck wash area. Facility states that the clarifier contains bacteria for anaerobic

PLACENTA REPAIR (Continued) **U001577035**

digestion of the oil, the water is discharged to a publicly owned treatment works facility, and the sludge will occasionally be clean out and lay on cardboard to dry before it gets disposed as solid waste. Manifests were available and reviewed. Employees are reported to be trained. Emergency plan is available on site. The dumpster/enclosure was observed. No hazardous waste violations were observed this date.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

JET GAS STATION (Continued) **S113081880**

Eval Type:	Routine done by local agency
Eval Notes:	On site for final inspection to observe monitoring system certification. Tester certifications were verified. Veeder Root panel is operational for audible and visual alarms. The panels read "all functions normal." Per the monitoring plan, the ATG is installed for overfill prevention. Flapper valves are present but not indicated on the monitoring plan. 208 sensor located in the 91 fill sump was properly placed so as to detect a leak at the earliest possible moment. 208 sensors located in the 91 turbine sump, 87 turbine and fill sumps and diesel fill and turbine sumps were observed to be approximately two inches from the sump wall. Please relocate these sensors as close to the sump wall while still maintaining a vertical orientation and send pictures of the repositioned sensors to this Agency. 208 sensors in the UDCs were placed appropriately. Secondary containment of the sumps, UDCs and piping is being monitored using vacuum. Tank annulars are wet. The following [Truncated]

Eval Type: Routine done by local agency
Eval Notes: Kanti Macwan (Store Manager) consented to/assisted with this routine, annual UST inspection. This automotive fuel sales and convenience store business operates four double-wall fuel USTs. Onsite this date with Confidence UST ServicesG tank tester, Bryan Self and crew, for a monitoring system certification and other annual UST testing. Bryan reported that the Corner Store organization utilizes another contractor to perform annuall spill bucket testing. Spill buckets passed "lake" hydrostatic testing on 4/22/2014. I used a UST compliance inspection checklist to survey UST hardware components and to review required record keeping: - Veeder Root (V-R) fuel leak detection monitoring panel indicated "ALL FUNCTIONS NORMAL". - V-R panel lites function properly; green G powerG lite replaced. - UST technician certifications reviewed and confirmed to be current (ICC, Veeder-Root, VMI). - UST sump, annular space, and dispenser UDC containments were free of feul residues. - [Truncated]

Hazardous Waste Summary:
Waste Code: D001
Waste Description: IGNITABLE WASTE

Waste Code: D006
Waste Description: CADMIUM

Waste Code: D007
Waste Description: CHROMIUM

Waste Code: F001
Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F006
Waste Description: WASTEWATER TREATMENT SLUDGES FROM ELECTROPLATING OPERATIONS, EXCEPT FROM THE FOLLOWING PROCESSES: (1) SULFURIC ACID ANODIZING OF ALUMINUM; (2) TIN PLATING ON CARBON STEEL; (3) ZINC PLATING (SEGREGATED BASIS) ON CARBON STEEL; (4) ALUMINUM OR ZINC-ALUMINUM PLATING ON CARBON STEEL; (5) CLEANING/STRIPPING ASSOCIATED WITH TIN, ZINC, AND ALUMINUM PLATING ON CARBON STEEL; AND (6) CHEMICAL ETCHING AND MILLING OF ALUMINUM.

Click Here:

Environmental Interest/Information System:
US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violations:

Site ID: 411501
Site Name: Universal Molding Company
Violation Date: 06-15-2017
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to establish and electronically submit an adequate emergency response plan and procedures for a release or threatened release of a hazardous material.
Violation Notes: Returned to compliance on 07/17/2017. FACILITY SHALL UTILIZE CERS-PROVIDED EMERGENCY RESPONSE/CONTINGENCY PLAN TEMPLATE.
Violation Division: Fullerton City Fire Department
Violation Program: HMRRP
Violation Source: CERS

Site ID: 411501
Site Name: Universal Molding Company
Violation Date: 11-12-2020
Citation: HSC 6.5 25244.21 - California Health and Safety Code, Chapter 6.5, Section(s) 25244.21
Violation Description: Failure to adequately complete, and maintain for review, all requirements of the source reduction evaluation review and plan (SB-14).
Violation Notes: Returned to compliance on 12/11/2020. The following hazardous waste streams are generated at this facility: -waste rinse water contaminated with hexavalent chromium (pre-treatment) -solid paint debris (solid paint, spray booth filters, etc.) -liquid waste paint -acetone contaminated with paint (pre-recycling) In calendar year 2018, facility generated over 12,000kg of the above hazardous waste streams. Facility was required to complete the following documentation by 09/01/2019 under Senate Bill 14: -Source Reduction Evaluation Review and Plan -Hazardous Waste Management Performance Report -Summary Progress Report To date facility has not completed the above documentation. Complete all required documentation under SB14 immediately and provide a copy to this agency.

Quarterly Update:	The facility is located at 1550 east Kimberly Avenue in Fullerton. It obtained the Interim Status Document on March 30, 1981 for a hazardous waste container storage unit, a used oil storage area, and a wastewater treatment unit. The facility manufactured lead acid auto batteries. On March 24, 1994, the Closure Plan was approved by DTSC. On June 12, 1995, the Closure Certification Report was approved by DTSC. Corrective action has been completed at this facility

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	IGNITABLE WASTE
Waste Code:	D002
Waste Description:	CORROSIVE WASTE
Waste Code:	D008
Waste Description:	LEAD
Waste Code:	D018
Waste Description:	BENZENE
Waste Code:	D029
Waste Description:	1,1-DICHLOROETHYLENE

JOHNSON CONTROLS BATTERY GROUP, INC (Continued) **1000162246**

Waste Code: D035
Waste Description: METHYL ETHYL KETONE

Waste Code: D040
Waste Description: TRICHLORETHYLENE

Waste Code: F003
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 06-15-2020
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for routine tiered permitting inspection for the conditionally exempt tier. Inspection was conducted with owner Hector Salas. Facility generates waste water and filter cake that is hazardous for copper. The facility conducts treatment of the waste water which is disposed of to the sewer under permit. Facility sends approximately 50 gallons of hazardous waste (spent etch bath) per month to the treatment system. The filter cake is processed approximately once per year and hauled as a hazardous waste. The following documents are available for review: sanitation discharge permit, inspection log, operating instructions and treatment log. Secondary containment structures were observed to be dry.

Hazardous Waste Summary:
Waste Code: D001
Waste Description: IGNITABLE WASTE

Waste Code: D002
Waste Description: CORROSIVE WASTE

Waste Code: D003
Waste Description: REACTIVE WASTE

Waste Code: D006
Waste Description: CADMIUM

Waste Code: D007
Waste Description: CHROMIUM

Waste Code: D008
Waste Description: LEAD

Waste Code: F003
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F008
Waste Description: PLATING BATH RESIDUES FROM THE BOTTOM OF PLATING BATHS FROM ELECTROPLATING OPERATIONS IN WHICH CYANIDES ARE USED IN THE PROCESS.

Environmental Interest/Information System:
AIR EMISSIONS CLASSIFICATION UNKNOWN
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that

KRYLER CORP. (Continued) **1000280929**

discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Eval Date: 10-16-2019
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board staff conducted a compliance inspection of the above facility on October 16, 2019. Staff arrived on site at 10:00am and met with Mr. Chet Krygier, LRP. The SWPPP and training records were reviewed. Both the SWPPP and training records were dated May 2019. The facility is part of the Metal Finishing Association of Southern CA compliance group. Two storm events were collected in the 2018-2019 reporting year and all parameters are currently at baseline. A site walk was conducted and the facility collects samples from 2 outfalls. The facility is utilizing two addresses in the complex; 1217 and 1225. The site walk started at 1217 E. Ash Ave. Housekeeping is conducted daily. Hazardous materials are stored in a bermed secondary containment and empty drums are stored outdoors. Paints are stored indoors in a flammable cabinet. The air compressors and scrubber are housed under a permanent storm-resistant shelter. The second part of the facility is located at 1225 E. Ash Ave; two buildings over to the east. A boneyard of industrial materials and empty drums were observed in this area. Empty storage containers were also observed, and Mr. Krygier explained the containers are stored upside down until used. Tarps were observed nearby. Staff ended the inspection at 11:20am and no violations were observed.

Eval Notes: FA0027330 Kryler Corp. 1217 E. Ash Ave. Fullerton, CA 92831 On site to conduct the annual RCRA LQG hazardous waste inspection. Permission to inspect granted by Kryler/Krygier Jr. During the HW inspection, I determined that the facility has on site: 220 lbs of sodium cyanide. It is exempt from CAL ARP because it is not in a dust form. 50 lbs of cadmium oxide. It is exempt from CAL ARP because it is not in a dust form and is < 100 lbs. A 336 gallon cadmium plating tank (tank # 6) which currently has 16 oz/gallon of sodium cyanide and 5.5 oz/gallon of cadmium oxide. This calculates to 336 lbs of sodium cyanide and 115 lbs of cadmium oxide in this tank. Both of these chemicals exceed the 100 lbs reporting limit for the California Accidental Release Prevention Program (CAL ARP). You may either submit a RiskManagement Plan (RMP) within 1 year (4-7-2015) or you may reduce your plating

KRYLER CORP. (Continued) **1000280929**

tank to < 100 lbs of cadmium oxide and sodium cyanide (each).

Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-07-2014
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site to conduct the annual RCRA Large Quantity Generator (LQG) inspection. Permission to inspect granted by Kryler/Chet Krygier Jr. Facility is a RCRA LQG. Federal EPA ID #. Facility plates chrome, cadmium and type I/II anodizing. Reviewed manifests over the last 3 years. All Hazardous wastes (HW) managed under manifest every 90 days. Most HW drums/totes were properly labeled. See violations. Training is monthly. Krygier Jr. is the only staff who handle the HWs. Two other staff have been recently trained. Weekly review of HW storage areas reviewed and OK. Perimeter is fenced and clean. Municipal trash was reviewed and had only normal trash, no HW. Biennial report on file. FFD HMBEP on site. OC Sanitation permit is on site. Facility does not treat any HWs, all are hauled away under manifest.

Eval Type: Other, not routine, done by local agency
Eval Notes: INSPECTOR COMMENTS On-site to conduct follow-up inspection, met with Chet to conduct follow-up walk through. Facility has updated their inspection log sheet to include the hazardous waste secondary containment areas and the hazardous waste storage areas. The liquid in the tank that was taken offline has been emptied and hauled away as hazardous waste, the manifest was available for review. Chrome debris waste was placed in a properly closed and labeled drum. All waste containers are closed and properly labeled. All dust from the san blasting unit outside is being swept daily and the area under the air compressor was clean. Violations I316, I333, I070, and violation I562 have all been corrected. No outstanding violations at this time.

KRYLER CORP. (Continued) **1000280929**

Eval Notes:	On site for the annual California Accidental Release Prevention (CALARP) inspection. Permission to inspect granted by Kryler/Chet Krygier. This facility was placed into the CAL ARP inspection program last year for sodium cyanide and cadmium oxide for tank #6. Since then, Kryler has decided to reduce the tank volume to 99 gallons. Lab tests showed the concentrations for NaCn @ 14 oz/gal and CDOx @ 4 oz/gal. This calculates out to 86 lbs of NaCN and 25 lbs. of CDOx. Tank volume was verified during the inspection. Both chemicals are below the TQ and therefore this site is not subject to the CAL ARP inspection program. RUR to remove this from the OCHCA inspection database.

Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	On site for the annual Hazardous Waste (HW) inspection. Permission to inspect granted by Kryler/Chet Kreiger. This facility is a RCRA Large Quantity Generator (LQG). All HWs are hauled away on a 90 day cycle. Manifests were on site and reviewed. OK. Confirmed in HWTS. All HW tanks/totes/drums were properly labeled and stored closed. No leaks. **NOTE** the rear alley way (rear of 500 block of S. Raymond) had a noticeable amount of powder in the alley. It appears to originate from the auto repair shops and not Kryler. Notified FFD for storm water issues. EPA ID # is correct. Annual training held 5-2015. OC Sanitation District permit is valid. HMBEP has been submitted to FFD but not yet reviewed. Review of facility trash dumpster and facility perimeter were made. No dumping of HW. All wet floors were clean and dry. Updated OCHCA database with CNC machine coolant.

Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board staff conducted a compliance inspection of the above facility on October 16, 2019. Staff arrived on site at 10:00am and met with Mr. Chet Krygier, LRP. The SWPPP and training records were reviewed. Both the SWPPP and training records were dated May 2019. The facility is part of the Metal Finishing Association of Southern CA compliance group. Two storm events were collected in the 2018-2019 reporting year and all parameters are currently at baseline. A site walk was conducted and the facility collects samples from 2 outfalls. The facility is utilizing two addresses in the complex; 1217 and 1225. The site walk started at 1217 E. Ash Ave. Housekeeping is conducted daily. Hazardous materials are stored in a bermed secondary containment and empty drums are stored outdoors. Paints are stored indoors in a flammable cabinet. The air compressors and scrubber are housed under a permanent storm-resistant shelter. The second part of the facility is located at 1225 E. Ash Ave; two buildings over to the east. A boneyard of industrial materials and empty drums were observed in this area. Empty storage containers were also observed, and Mr. Krygier explained the containers are stored upside down until used. Tarps were observed nearby. Staff ended the inspection at 11:20am and no violations were observed.

Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	INSPECTOR COMMENTS On site for a routine hazardous waste inspection. Consent to inspect and take any necessary photos was given by Chet Krygier, quality assurance. Walked throughout the facility. Observed hazardous waste storage areas. A dilute chrome tank was found still located on the plating line, but no longer in service, but liquid was present still within the tank. Spoke with Chet about how once he takes a tank off line, he has 90 days to either drum up the liquid and store it for later use, put it back online, or have it hauled away as hazardous waste. Sand Blast media with Cadmium was behind the air compressor and in some spots around the back area, Chet states that he sweeps up the sand blast at the end of the day, but the sand blast under the air compressor has been accumulating. There was a container that the facility had dumped some chrome debris sludge that Chet stated that they were drying to have hauled away. Spoke with Chet about how drying the [Truncated]

Eval Notes:	The company is a plater. The company belongs to a group monitoring, MFASC. The company conducts sampling every 2 years. Review of the AR showed all constituents below benchmark values. All the production activities were performed indoor. The SWPPP was old. Staff asked the contact to review and update the plan at least once a year. An etchant drum was found near the door that could pose a risk of leaking to the

KRYLER CORP. (Continued) **1000280929**

ground outside. Two containers of a colored liquid were found with no secondary containment. Two buckets of colored mop water were placed outside. The contact said that he would move these two containers and the etchant drum inside. The other two containes would be picked up by a wastehauler. Staff asked that the sampling point be changed to a corner point near their back gate to make sure that the sample representing the runoff from the facility. Staff asked the contact to mail in the photos of the site after the defificencies were fixed. By mailing in the pictures, the facility can avoid to have an NOV issued. The contact agreed to do that.

Eval Notes: FA0027330 Kryler Corp. 1217 E. Ash Ave. Fullerton, CA 92831 On site to conduct the annual RCRA LQG hazardous waste inspection. Permission to inspect granted by Kryler/Krygier Jr. During the HW inspection, I determined that the facility has on site: 220 lbs of sodium cyanide. It is exempt from CAL ARP because it is not in a dust form. 50 lbs of cadmium oxide. It is exempt from CAL ARP because it is not in a dust form and is < 100 lbs. A 336 gallon cadmium plating tank (tank # 6) which currently has 16 oz/gallon of sodium cyanide and 5.5 oz/gallon of cadmium oxide. This calculates to 336 lbs of sodium cyanide and 115 lbs of cadmium oxide in this tank. Both of these chemicals exceed the 100 lbs reporting limit for the California Accidental Release Prevention Program (CAL ARP). You may either submit a RiskManagement Plan (RMP) within 1 year (4-7-2015) or you may reduce your plating

KRYLER CORP. (Continued) **1000280929**

Eval Notes: On site to conduct the annual RCRA Large Quantity Generator (LQG) inspection. Permission to inspect granted by Kryler/Chet Krygier Jr. Facility is a RCRA LQG. Federal EPA ID #. Facility plates chrome, cadmium and type I/II anodizing. Reviewed manifests over the last 3 years. All Hazardous wastes (HW) managed under manifest every 90 days. Most HW drums/totes were properly labeled. See violations. Training is monthly. Krygier Jr. is the only staff who handle the HWs. Two other staff have been recently trained. Weekly review of HW storage areas reviewed and OK. Perimeter is fenced and clean. Municipal trash was reviewed and had only normal trash, no HW. Biennial report on file. FFD HMBEP on site. OC Sanitation permit is on site. Facility does not treat any HWs, all are hauled away under manifest.

Eval Notes: INSPECTOR COMMENTS On-site to conduct follow-up inspection, met with Chet to conduct follow-up walk through. Facility has updated their inspection log sheet to include the hazardous waste secondary containment areas and the hazardous waste storage areas. The liquid in the tank that was taken offline has been emptied and hauled away as hazardous waste, the manifest was available for review. Chrome debris waste was placed in a properly closed and labeled drum. All waste containers are closed and properly labeled. All dust from the san blasting unit outside is being swept daily and the area under the air compressor was clean. Violations I316, I333, I070, and violation I562 have all been corrected. No outstanding violations at this time.

KRYLER CORP. (Continued) **1000280929**

Eval Notes:	On site for the annual California Accidental Release Prevention (CALARP) inspection. Permission to inspect granted by Kryler/Chet Krygier. This facility was placed into the CAL ARP inspection program last year for sodium cyanide and cadmium oxide for tank #6. Since then, Kryler has decided to reduce the tank volume to 99 gallons. Lab tests showed the concentrations for NaCn @ 14 oz/gal and CDOx @ 4 oz/gal. This calculates out to 86 lbs of NaCN and 25 lbs. of CDOx. Tank volume was verified during the inspection. Both chemicals are below the TQ and therefore this site is not subject to the CAL ARP inspection program. RUR to remove this from the OCHCA inspection database.

Eval Notes:	On site for the annual Hazardous Waste (HW) inspection. Permission to inspect granted by Kryler/Chet Kreiger. This facility is a RCRA Large Quantity Generator (LQG). All HWs are hauled away on a 90 day cycle. Manifests were on site and reviewed. OK. Confirmed in HWTS. All HW tanks/totes/drums were properly labeled and stored closed. No leaks. **NOTE** the rear alley way (rear of 500 block of S. Raymond) had a noticeable amount of powder in the alley. It appears to originate from the auto repair shops and not Kryler. Notified FFD for storm water issues. EPA ID # is correct. Annual training held 5-2015. OC Sanitation District permit is valid. HMBEP has been submitted to FFD but not yet reviewed. Review of facility trash dumpster and facility perimeter were made. No dumping of HW. All wet floors were clean and dry. Updated OCHCA database with CNC machine coolant.

Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description:	Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes:	Returned to compliance on 04/07/2014. During the inspection, I located (1) 5 gallon pail that held a chrome grinding filter. It was awaiting transfer to the main HW box. The pail was not labeled with a HW label. Krygier elected to immediately transfer the filter to the main HW box and thereby not require a HW label. This violation was abated during the inspection.

Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board staff conducted a compliance inspection of the above facility on October 16, 2019. Staff arrived on site at 10:00am and met with Mr. Chet Krygier, LRP. The SWPPP and training records were reviewed. Both the SWPPP and training records were dated May 2019. The facility is part of the Metal Finishing Association of Southern CA compliance group. Two storm events were collected in the 2018-2019 reporting year and all parameters are currently at baseline. A site walk was conducted and the facility collects samples from 2 outfalls. The facility is utilizing two addresses in the complex; 1217 and 1225. The site walk started at 1217 E. Ash Ave. Housekeeping is conducted daily. Hazardous materials are stored in a bermed secondary containment and empty drums are stored outdoors. Paints are stored indoors in a flammable cabinet. The air compressors and scrubber are housed under a permanent storm-resistant shelter. The second part of the facility is located at 1225 E. Ash Ave; two buildings over to the east. A boneyard of industrial materials and empty drums were observed in this area. Empty storage containers were also observed, and Mr. Krygier explained the containers are stored upside down until used. Tarps were observed nearby. Staff ended the inspection at 11:20am and no violations were observed.

Eval Notes: FA0027330 Kryler Corp. 1217 E. Ash Ave. Fullerton, CA 92831 On site to conduct the annual RCRA LQG hazardous waste inspection. Permission to inspect granted by Kryler/Krygier Jr. During the HW inspection, I determined that the facility has on site: 220 lbs of sodium cyanide. It is exempt from CAL ARP because it is not in a dust form. 50 lbs of cadmium oxide. It is exempt from CAL ARP because it is not in a dust form and is < 100 lbs. A 336 gallon cadmium plating tank (tank # 6) which currently has 16 oz/gallon of sodium cyanide and 5.5 oz/gallon of cadmium oxide. This calculates to 336 lbs of sodium cyanide and 115 lbs of cadmium oxide in this tank. Both of these chemicals exceed the 100 lbs reporting limit for the California Accidental Release Prevention Program (CAL ARP). You may either submit a RiskManagement Plan (RMP) within 1 year (4-7-2015) or you may reduce your plating

KRYLER CORP. (Continued) **1000280929**

tank to < 100 lbs of cadmium oxide and sodium cyanide (each).

KRYLER CORP. (Continued) **1000280929**

Eval Notes:	On site for the annual California Accidental Release Prevention (CALARP) inspection. Permission to inspect granted by Kryler/Chet Krygier. This facility was placed into the CAL ARP inspection program last year for sodium cyanide and cadmium oxide for tank #6. Since then, Kryler has decided to reduce the tank volume to 99 gallons. Lab tests showed the concentrations for NaCn @ 14 oz/gal and CDOx @ 4 oz/gal. This calculates out to 86 lbs of NaCN and 25 lbs. of CDOx. Tank volume was verified during the inspection. Both chemicals are below the TQ and therefore this site is not subject to the CAL ARP inspection program. RUR to remove this from the OCHCA inspection database.

Eval Notes:	On site for the annual Hazardous Waste (HW) inspection. Permission to inspect granted by Kryler/Chet Kreiger. This facility is a RCRA Large Quantity Generator (LQG). All HWs are hauled away on a 90 day cycle. Manifests were on site and reviewed. OK. Confirmed in HWTS. All HW tanks/totes/drums were properly labeled and stored closed. No leaks. **NOTE** the rear alley way (rear of 500 block of S. Raymond) had a noticeable amount of powder in the alley. It appears to originate from the auto repair shops and not Kryler. Notified FFD for storm water issues. EPA ID # is correct. Annual training held 5-2015. OC Sanitation District permit is valid. HMBEP has been submitted to FFD but not yet reviewed. Review of facility trash dumpster and facility perimeter were made. No dumping of HW. All wet floors were clean and dry. Updated OCHCA database with CNC machine coolant.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/30/2020

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/30/2020

Next Scheduled EDR Contact: 07/12/2021
Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/30/2020

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 04/03/2019

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 12/11/2020

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

LOS ANGELES CO LF METHANE: Methane Producing Landfills

This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

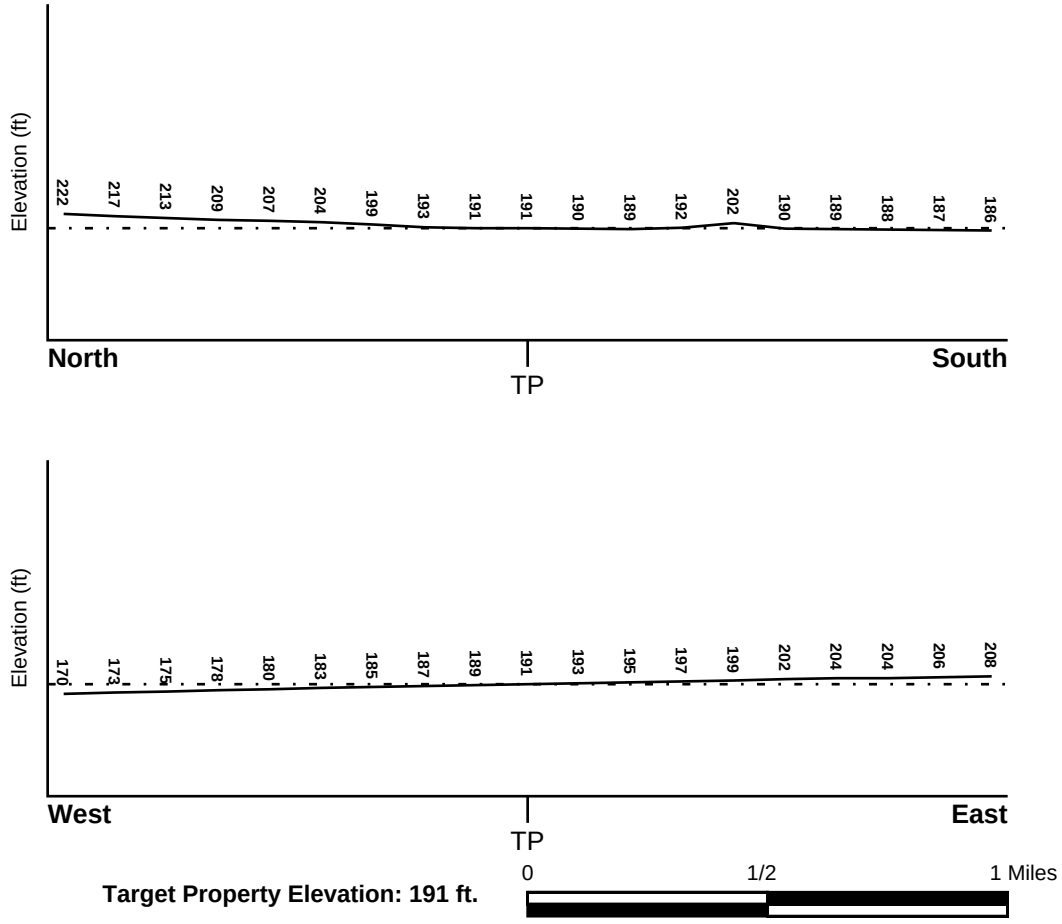
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

ANAHEIM	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1 - 2 Miles WSW
Site Name:	Mlodzik Corp Monitor Plating
Site EPA ID Number:	CAD041325143
Groundwater Flow Direction:	SW IN THE VICINITY OF THE SITE.
Measured Depth to Water:	not available.
Hydraulic Connection:	Information is not available about the hydraulic connection between aquifers underlying the site.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information is inferred in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: METZ

Soil Surface Texture: loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	16 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 14 Min: 4	Max: 8.4 Min: 6.6
2	16 inches	62 inches	stratified sand to fine sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 14 Min: 4	Max: 8.4 Min: 6.6

Soil Map ID: 2

Soil Component Name: SAN EMIGDIO

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	7 inches	fine sandy loam	Not reported	Not reported	Max: 42 Min: 14	Max: 8.4 Min: 7.9
2	7 inches	61 inches	stratified gravelly loamy coarse sand to very fine sandy loam	Not reported	Not reported	Max: 42 Min: 14	Max: 8.4 Min: 7.9

Soil Map ID: 3

Soil Component Name: MOCHO

Soil Surface Texture: loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	31 inches	loam	Not reported	Not reported	Max: 14 Min: 4	Max: 8.4 Min: 7.9

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
2	31 inches	61 inches	loam	Not reported	Not reported	Max: 14 Min: 4	Max: 8.4 Min: 7.9

Soil Map ID: 4

Soil Component Name: Water

Soil Surface Texture: loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class:
Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon

Telephone: 916-210-8558
Radon Database for California

PHYSICAL SETTING SOURCE RECORDS SEARCHED

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

DR 99-11468

February 18, 2000

The individual responsible for the theft of, or damage to, your property or personal injury has appeared in Court. The Court has ordered restitution to be paid to you through the Victim/Witness Assistance Center at the above address.

Please complete the enclosed restitution questionnaire and return it to the above center. Enclose copies of any bills incurred by you, recipts, or three (3) estimates to substantiate your claim.

Complete the insurance portion of the questionnaire and list your total "out of pocket" loss. Completed questionnaires will be retained as an official document of loss.

Reasonable effort will be made to collect restitution on your behalf in compliance with the Court's order, but payment cannot be guaranteed. You have the right to pursue recovery of your loss in civil court and may wish to see an attorney.

If you have any questions, please call our Center at the telephone number listed above.

THIS QUESTIONNAIRE MUST BE RETURNED BEFORE **03/19/2000** TO COMPLY WITH THE COURT'S ORDER FOR COLLECTION OF RESTITUTION.

BETTY GEIER
Restitution Specialist

Fullerton Fire Department

INCIDENT REPORT

***** FE3 *****

FE3. This unit responded to a reported odor investigation at an occupancy that we have responded to several times due to illegal paint spraying. Upon our arrival, we found the occupant had just completed spraying a urethane clear coat paint. I requested FPD, a representative from fire prevention, and Santa Ana Haz Mat to respond. The occupant was cited by FPD for the hazardous act. See FPD #99-11468 for details. The occupant stated that they were moving by 10/1/99. I instructed the occupant that they were not to conduct any further business from this location. The occupant agreed. During the incident, A neighbor at 1205 transported himself to his doctor due to the effects of the paint and his recent cancer treatment. John R. Stokes, Captain.

REMARKS OR DIAGRAM:

3/30/67 Conditions appear in good order at this time.

)/22/71 This Inspector was requested to meet w/ Engine Company 3 (Captain Ralph Green) at this address:
Inspection of the premises found illegal use of flexible electrical cords for 110 voltage (lighting) and 220 voltage (stationary test equipment). Flex cords were secured to walls & ceiling; run through doorways along the floor - spliced to extend electrical circuits). The length of cords was approximately 30'. Said conditions were CORRECTED (removed) in the presence of this Inspector.
FIRE EXTINGUISHERS - No tag; date of service not know.
Charles Osterday, business owner, was advised to have the extinguishers serviced.

)/22/71 :00 PM Received telephone call that extinguishers had been serviced.

)/30/71 Charles Osterday, owner, requested reinspection.
Reinspection (2:00 PM):
Fire extinguishers have been RESERVICED.
Test equipment has been RELOCATED, eliminating additional flex cord use.
Conditions in GOOD ORDER at this time.

)/67-Average 4 emp

1209 S. State College Blvd.
Fullerton, CA 92631

Dear Ms. Roper:

This letter is intended to inform you of an emergency access problem that exists between your building (1201 S. State College Blvd.) and the building next door (1257 S. State College Blvd.)

Section 10.207 of the Fullerton Fire Code defines the minimum width of a fire apparatus access road as 20 feet. The only available access for fire apparatus to the rear portion of your property is between the two buildings (1201 and 1257 S. State College Blvd.). In order to maintain the minimum 20 feet of unobstructed clearance, no parking may be allowed between the two buildings at the west end of the parking lot where parking would obstruct fire apparatus access.

The Fullerton Fire Department hereby designates that access as an official fire lane. In order to comply with this action, you are required to post the appropriate signage. Please refer to the enclosed fire department construction standard #8. If you have questions regarding the designation of the fire lane or posting procedures, please call the Fullerton Fire Prevention Bureau at (714) 738-6500. If appropriate signs have already been posted, consider yourself in compliance.

Thank you for your cooperation.

Sincerely,

Marc Martin

10/17/74 FIRE PROTECTION FACILITIES - 1-10B:C dry chemical in west shop area; 1-8B:C dry chemical in east shop area. Both extinguishers were last checked 9/73. Coverage is adequate

Owner was advised servicing is required annually and that both extinguishers are past due for service. Owner stated he would have them serviced.

HOUSEKEEPING - Generally very good at this time. Machine grindings are efficiently removed via suction venting system to an outside hopper and an outside covered metal can.

One oxygen & one acetylene tank secured from upset by copper wire. Recommended that chain or something w/ more strength be used. JEM

STATEMENT OF INTENDED USE
RETURN TO THE FIRE DEPARTMENT WITHIN 14 DAYS

The purpose of the City of Fullerton Fire Department Inspection is to assure a safe and fire hazard free environment for you, your employees, and customers. Certain types of commercial or industrial establishments create greater fire and life safety hazards than others due to the nature of the business conducted or material stored, processed or handled. To provide a reasonable degree of safety to life and property, special requirements have been established in the Fire and Building Codes and the California State Codes.

All businesses located in the City of Fullerton must provide the Fire Prevention Division with the following information. This form, when completed and returned, will be used as a preliminary permit application per 1998 California Fire Code.

If you have any questions or need assistance please call the Fire Prevention Division (714) 738-6500.

PLEASE CHECK "YES" OR "NO" TO THE FOLLOWING QUESTIONS:

		YES	NO
1.	Are you a new business?	____	✓
	A. If you answered yes to question #1, does an established business already exist at this address. Specify name: _____	____	____
	B. If you are not a new business, is this an ownership, business name or address change? Please explain: _____	____	____
	C. Are you a home business operating at your residence?	____	✓

If you answered yes to the home business you are not required to answer the following questions. Please sign the certification section of this form and return it to the Fullerton Fire Department.

FFD405 Rev 10/01

		YES	NO
2.	Will 50 or more people be meeting or gathering on your premises? (5167-5169)		✓
	A. If you answered yes to question # 2, will you be using candles or open flame on your premises. (5107)		
3.	Will your operation produce combustible dusts or fiber? (5119) *(Example: grain, feed, flour, sugar, spices, aluminum, coal, cotton, etc.)*		✓
4.	Will you be installing dust collection equipment? (5119)		✓
5.	Will you be doing any woodworking or storing lumber? (5119) (5147)		✓
6.	Will you be applying flammable finishes? (5161)		✓
7.	Will you be using and/or installing a spray booth? (5161)		✓
8.	Will you have explosives, blasting or pyrotechnics agents at your facility? (5121)		✓
9.	Will you be welding or cutting any metals or glass? (5166)		✓
10.	Will you have compressed gases? (5174) *(Example: helium, oxygen, acetylene, chlorine, etc.)*		✓
11.	Will you be operating a fruit ripening process? (5138)		✓
12.	Will you be cooking food?		✓
13.	Will you be using flame producing devices or torches? (5170)		✓
14.	Are radioactive substances used or stored? (5159)		✓
15.	Will any Liquid Petroleum Gas (LPG) or propane be used, handled or stored at your facility? (5146)	✓	
16.	Will you be processing or machining magnesium? (5148)		✓
17.	Are you using industrial baking or drying ovens for products other than food? (5156)		✓
18.	Will you be operating a refrigeration system with more than 30 lbs. of refrigerant? (5160)		✓
19.	Will you be operating a repair garage for servicing motor vehicles or airplanes? (5140) (5101)		✓
20.	Will you use, handle or store flammable or combustible liquids greater than 5 gallons at your facility? (5132) *(Example: gasoline, motor oil, diesel, MEK, solvents, paint thinner, etc.)*		✓

		YES	NO
21.	Will you be dispensing flammable or combustible liquids? (5135)	____	✓
22.	Will you use, handle or store aerosol products in excess of 500 lbs.? (5172)	____	✓
23.	Are acids or alkalis being used or stored, including lead-acid battery battery systems? (5142) (5500)	____	✓
24.	Are chemicals of hazardous nature handled, used or stored? (5115) 5142) (5500) *(Example: waste oil, antifreeze, chlorine, pesticides, dry cleaning fluids, inks, cryogen's, etc.)*	✓	____
25.	Will your building be used for storing high-pile combustible storage? (5144)	____	✓
26.	Will you store more than 2500 cubic feet of combustible material? (5114) *(Example: empty packing cases, boxes, barrels, rubber, cork etc.)*	____	✓
27.	Will you be storing tires in excess of 1,000 cubic feet? (5114) (5190)	____	✓
28.	This is a "Spec" building. I do not know what operations will be conducted.	____	✓

If you have checked "NO" on all questions # 2 through # 27, please read the following statement and initial before signing the certification:

I will **not** conduct any of the above operations or use, store, handle or display any hazardous materials/chemicals in the operations of my business. _____ (Initials)

Please list two (2) emergency contacts for your business that can be reached after business hours:

Name GENE LIAO (Please Print) Phone [redacted]

Name RONALD MAGPANTAY (Please Print) Phone (___) _____

CERTIFICATION: I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Business Emergency Plan

PART III - BUSINESS EMERGENCY PLAN (BEP)

Please read instructions (on green page 6) prior to completing the Business Emergency Plan.

This form shall be typed or printed legibly in ink. (Pencil is not accepted)

Keep a copy for your records and return the completed original forms, with **Parts I** and **II** to:

Fullerton Fire Department
Community Safety and Services Division
312 E. Commonwealth Ave
Fullerton, CA 92832-2099

Mark the correct box:

- ☑ This is the first time I have filed a BEP
- ☐ A BEP is required to be reviewed every three years. I am submitting my BEP to meet this requirement.
- ☐ There have been changes in my business operation and/or personnel and I am submitting a new BEP with the correct information.

Business Name: GRAPH PRINTING, INC.		
Address: 1211 S. STATE COLLEGE BLVD, FULLERTON, CA 92831		
Business Owner: PING LIAO		
I certify under penalty of law that I have personally examined and familiar with the information submitted and believe the submitted information is true, and complete.		
Print name of Owner/Operator: PING LIAO	Signature: PL	Date: 08-21-02
Business Plan Prepared By: PING LIAO	Signature: PL	Date: 08-21-02

OFFICIAL USE ONLY:	BR Number:
Date Received	*Reviewed by:*
Correction Required:	

NOTIFICATION

1. Your business is required by State Law to provide immediate notification of any release or threatened release of a hazardous material to (1) Local fire emergency response personnel (2) The office of Emergency Services (OES), and (3) This Administrating Agency. If you have a release or threatened release of hazardous materials, immediately call:

FIRE/PARAMEDICS/POLICE- Phone: 9 1 1

Individual responsible for Calling 911: PING

After the local emergency response personnel are notified, you shall then notify the Administrating Agency (FFD) and the Office of Emergency Service (24 hours a day)

State Office of Emergency Service: (800) 852-7550 or (916) 262-1621
and
Fullerton Fire Department (714) 738-6500

2. List the local emergency medical facility that will be used by your business in the event of an accident or injury caused by a release or threatened release of hazardous materials.

Hospital/Clinic KAISER		LAKE VIEW	
Address	City	Zip Code	Phone Number ( ) -

3. Does you business have a private on-site emergency response team? ☐ Yes ☑ No
If yes, describe what policies and procedures your business will follow to notify your on-site emergency response team in the event of a release or threatened release of hazardous materials. (Attach additional pages if necessary)

State law required your business to complete all sections of the Emergency Response Procedure listed below. "N/A" is not acceptable.

4. Briefly describe your business's standard operating procedures in the event of a release or threatened release of a hazardous materials:
   a. Prevention (prevent the hazard) – Describe the kinds of hazards associated with the materials present at your facility. What actions will your business take to prevent these hazards from occurring? Issues for discussion may include safety, storage, and containment procedures.

1) ABSORBENT SWABS
2) FIRE EXTINGUISHER
3) EMERGENCY PHONE NUMBER OF FIRE DEPT. POLICE DEPT. & HOSPITAL
4) EMERGENCY EXIT MAP.

e. Your business is required by State Law to keep a copy of this Business Plan, including the chemical inventory and Site Map (Part III of the packet). Describe where copies will be located at your business. Where will other copies be maintained?

1) POSTED ON THE WALL IN AREA OF THE BUILDING 2) EXTRA COPIES IN PERSONAL OFFICE

f. Describe where other records required by this plan are kept, such as employee training records (including drills), release reports records, person responsible for maintenance/safety and their records. And emergency phone lists.

MANAGERS OFFICE

EMPLOYEE TRAINING PROGRAM

Describe the training your business conducts for all employees in safety procedures in the event of a release or threatened release of hazardous materials. The business plan shall include a training program which is reasonable and appropriate for the size of the business and the nature of the hazardous materials handled. By law, this training shall at a minimum include: methods for safe handling of hazardous materials, immediate notification to the FD, procedures for the mitigation of a release, site evacuation plans/procedures. Training shall also include new employee training, annual training, periodic courses, and familiarization with the Emergency Response procedures found in this Business Emergency Plan.

1) SET UP TRAINING MEETINGS & DISCUSSIONS REGARD HANDLING OF HAZARDOUS MATERIALS

2) DOCUMENT THE MEETING & DISTRIBUTE TO ALL THE EMPLOYEES.

b. Mitigation (reduce the hazard) -- Describe what is done to lesson the harm or the damage to person(s), property, or the environment, and prevent what has occurred from getting worse or spreading. What is your immediate response to a spill, fire explosion, or airborne release at your business?

1) PERSON(S) – EYE, FLUSH WATER FOR 15 MIN, WASH AFFECTED SKIN WITH SOAP & WATER, ~~ADVISE~~ EVACUATE PERSON(S) FROM IMMEDIATE AREA, SEEK MEDICAL ATTENTION
2) PROPERTY, ENVIRONMENT, - USE ABSORBENT & SOAP & WATER TO CLEAN UP, USE VENTILATION.

c. Abatement (remove the hazard)- Describe what you would do to stop and remove the hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your facility? What aspects of the response are beyond your ability, and need to be handled by others?

SEEK EXPERTS ADVICE.

1) USE ABSORBENT & MOP WITH SOAP WATER
SET UP VENTILATION EQUIPMENT
2) CALL ENVIRONMENTAL RECOVERY SERVICES

d. Describe how you will immediately notify and evacuate your facility. What communications or alarms are used? How will you operate during power failure? Also specify emergency exits, alternatives, and staging area.

1) EMERGENCY & EXITS POSTED ON EVERY ROOM ON THE NOTICEABLE WALL
2) EMERGENCY LIGHT ~~ETC~~ PLACE CLOSE TO HAZARD MATERIAL AREA.

Subject: Hazardous Materials Disclosure Form

Gentlemen:

Please note the addresses of 1209; 1211; 1213; 1215 & 1217 on the enclosed form. An opening has been made to make these units one continuous facility. The office address is 1215 and I have, after my telephone conversation with your office, completed only one form.

If you require additional information please give me a call.

Sincerely,

DNB ENGINEERING, INC.

Janice G. Gruber
Office Manager

j

WITHIN 15 DAYS OF ANY OF THE FOLLOWING EVENTS, ANY BUSINESS SHALL CONTACT THE FULLERTON FIRE DEPARTMENT, HAZARDOUS MATERIALS SECTION FOR AN UPDATED DISCLOSURE FORM.

1) Change of business address.
2) Change of business ownership.
3) Change of business name.
4) Cessation of business operations.
5) Use or handling of previously undisclosed hazardous materials.
6) A significant change in the use, quantity or handling of a hazardous material for which disclosure has previously been made.

PART IV: SIGNATURE

I certify, under the penalty of perjury, that the above information is true and correct to the best of my knowledge.

FILE

Hi Linda,
I was working Friday and we responded to an address that I had as an inspection. I turned it in to you as a no contact. I now know why we had no contact.
The Police found the owner deceased in the office.
I believe this can now be considered vacant.

Address:
1217 S. State College

Dear Business Owner:

The Fullerton Fire Department has been designated to carry out provisions of Assembly Bill 2189, dealing with hazardous materials disclosure.

It has come to our attention that you have recently applied or reapplied for a business license. Please fill out the information below and return it to the Fullerton Fire Department with 7 days.

Please check only one box :

- ☐ I use or store chemicals, flammable liquids, or compressed gasses in amounts equal to or greater than 55 gallons of a liquid, 500 pounds of a solid, or 200 cubic feet of a compressed gas. (Combined total weight at one time)
- ☐ I use or store any amount of an Acutely Hazardous Material, Chemical, Carcinogen or Radioactive on the enclosed lists.
- ☒ I use or store chemicals, flammable liquids or compressed gases in smaller amounts than mentioned above.
- ☐ I use no chemicals, flammable liquids or compressed gases at all.
- ☐ I have previously disclosed all hazardous material information within the past year for my current address to the Fullerton Fire Department.

I certify, under penalty of perjury, that the above information is true and correct to the best of my knowledge.

John Hughes — Signature
PRESIDENT — Title
FEB 11-1991 — Date

THE FOLLOWING CORRECTIONS MUST BE MADE IMMEDIATELY IN ORDER TO COMPLY WITH THE REQUIREMENTS OF THE 2001 CALIFORNIA FIRE CODE AS ADOPTED BY THE CITY OF FULLERTON.

The first compliance reinspection will be conducted on or about 01-05-06 ; please call (714) 738-6500 if you have any questions. Failure to make required corrections by the due date will result in an additional reinspection and a fee of $121.00.

Under Method Cleared, use the following codes: MB=Mail Back card; R=reinspection; IN= corrected in my presence.

Date Cleared	Method Cleared		
		☐ 901.4.4	**ADDRESS NUMERALS** Businesses must have address numbers plainly visible and legible from the street or road fronting the property and any alleyway serving the same property. Address numbers must contrast to the background.
		☐ Title 25	**FIRE PROTECTION EQUIPMENT** A five-year certification test is required on _____ Sprinkler System _____ Standpipes _____ private fire hydrant.
2-15-05	MB	☒ 1002.1	C.A.C. Provide 1 extinguishers of the following type: 2A:10BC Minimum Rating. The extinguisher must have a California State Fire Marshal's tag.
2-15-05	MB	☒ 1001.5.2	1 Extinguishers must be serviced annually. _____ Kitchen hood extinguishing systems must be serviced semi-annually.
		☐ 1203	**EXITS** All exits and exit doors must be unobstructed.
		☐ 1212	Exit signs shall be installed at required exit doorways and where otherwise necessary to indicate the direction of egress when the exit serves an occupant load of 50 or more.
		☐ 1206	All security bars on windows in sleeping rooms must have a release mechanism openable from the inside.
		☐ 8504	**ELECTRICAL** Circuit breakers may not be taped or secured in the "ON" position. *Note: Exit light/Fire Alarm circuits have lock-on devices.*
		☐ 8506.1	Extension cords are prohibited and shall not be used as a substitute for permanent wiring.
		☐ 8507	Multi-plug adapters are prohibited unless equipped with U.L. listed circuit breakers.
12-15-05	MB	☒ 8509.2	Minimum 30" clearance shall be provided in front of electrical panels.
		☐ 1001.7.1	**HOUSEKEEPING/REPAIRS** Access clearance shall be provided around fire-protection equipment.
		☐ 1112	—All missing ceiling tiles must be replaced. — All holes in walls and/or ceiling must be repaired.
		☐ 1103.3.2.	Storage inside buildings shall be____ Orderly/___ 18 inches Below the Sprinkler Head/___ Not in Attics or Under Floors.
		☐ H&SC	**HAZARDOUS MATERIALS** A Hazardous Materials Disclosure must be submitted for 55 gallons, 500 pounds, or 200 cubic feet of a hazardous material.
		☐ 8001.7	Provide approved placarding for building. Appropriately label chemical or hazardous waste containers.
		☐ 1007.2.9.2	**SMOKE DETECTORS** Smoke detector shall be provided in every existing guest room in a hotel, motel, dwelling unit, or central hall of an apartment.
		☐ 7401.6.4	**COMPRESSED GASES** Compressed gas containers, cylinders, and tanks shall be secured by an approved method to prevent falling.
		☐ 105	**OBTAIN PERMIT(S) FOR THE FOLLOWING:**
2-15-05	MB	☐ 8504	COVER PLATES, FIXTURES
		☐	

PLEASE CORRECT ALL VIOLATIONS IMMEDIATELY. FAILURE TO DO SO BY THE DATE INDICATED WILL RESULT IN A SUBSEQUENT REINSPECTION AND A REINSPECTION FEE OF $121.00 BEING ASSESSED.

STATEMENT OF INTENDED USE
RETURN TO THE FIRE DEPARTMENT WITHIN 14 DAYS

The purpose of the City of Fullerton Fire Department Inspection is to assure a safe and fire hazard free environment for you, your employees, and customers. Certain types of commercial or industrial establishments create greater fire and life safety hazards than others due to the nature of the business conducted or material stored, processed or handled. To provide a reasonable degree of safety to life and property, special requirements have been established in the Fire and Building Codes and the California State Codes.

All businesses located in the City of Fullerton must provide the Community Safety and Services Division with the following information. This form, when completed and returned, will be used as a preliminary permit application per 1998 California Fire Code.

If you have any questions or need assistance please call (714) 738-6500.

(Mutual Aid Task Force)

CALIFORNIA DECOR is one of eleven units under a common roof; fronts to the east, facing State College Boulevard. Warehousing of wood, plastic, and metal decorative items. One story, concrete tilt-up exterior walls; flat, wood frame/composition-covered roof; concrete floors. An alley is located on the north and west sides of the structure.

The undersigned was requested to respond to the scene by Battalion Chief Clark, via Fire Department Dispatcher Schulz.

Upon arrival, this investigator noted a large amount of smoke and flames extending from the southeast portion of the roof. Fire Department personnel were in the process of extinguishing the fire. After the greater amount of extinguishment had been accomplished, the undersigned began an extensive fire investigation with the involved structure.

The partition walls were totally burned, leaving charred remains. The laminated wood roof beams were nearly destroyed by fire, leaving charred remains that were dangerously reduced in size. For the most part, the roof was burned away, leaving approximately 20' intact along the north wall. The 2"x4" wood frame/gypsumboard south wall burned away, causing a 20'x12' opening to an attached machine shop business.

WIEMAR MOLD COMPANY - Fire damage appeared to involve the electrical panels located on the north wall, which were electrically supplied through overhead conduit from the fire-destroyed CAL DECOR unit. The machine shop equipment and offices suffered an undetermined amount of water damage.

CALIFORNIA DECOR - Furniture, such as desks, chairs, office equipment, etc., and the greater amount of warehousing racks and storage were destroyed by fire.

THE CASE COMPANY - Only minor smoke damage.

Evidence of the burn indicated the origin of the fire to be adjacent to the south wall in the lunchroom area of CALIFORNIA DECOR. In the immediate area of the BUNN brand coffee brewing machine, the wall revealed a white-grayish discoloration, surrounded by soot and smoke-blackening. At this point, the 2"x4" wood wall studs were burned away from floor level, upward to an approximate height of 4'. The coffee machine was lying on the floor, on top of a bed of small white chips and pieces of the wall gypsumboard. The 110 volt coffee machine electrical cord was found to be under this gypsumboard material; said wiring was burned in two at this point. The electrical cord further extended to the east to a wall receptacle. At this point, the plug on the cord revealed an electrical short had occurred. The 110 volt wall receptacle had fallen to the floor from the damaged wall.

The coffee machine had been placed on a wooden butcher block; this block had been consumed by fire, leaving only the casters. The carpet under the butcher block was totally burned away, indicating a greater degree of burn.

The gypsumboard on the north side of this south wall had fallen to the floor in the aforementioned area, allowing the wall studs to become heavily charred and/or burned away. The small opening in the lower area of the wall, near the coffee machine and adjacent refrigerator, apparently was caused by sudden cooling with the water applied by the hose streams.

A water cooler and equipment adjacent to this opening, on the machine shop side of the wall, were not burned or damaged.

Investigation revealed that this lunch room (see attached diagram) was of 2"x4" wood construction, covered with wood paneling. A shelf, above and to the west of the point of origin, had burned and dropped to the floor. Evidence of exploded canned foods was found in the debris under the coffee machine, indicating the fire extended to the east portion of the shelf, causing the metal shelf brackets to release from the wall, allowing the aforementioned canned foods to drop to the east, into the floor fire area.

At this time, evidence fails to reveal any criminal agencies that may be involved in this fire. It is the undersigned's opinion that this fire was caused by an electrical short, involving the coffee brewing appliance.

INJURIES: Captain Glenn Boyd - Syncope, tightness in chest;
Engineer Robert Tarrant - Chest pain, short of breath;
Paramedic/Firemen Casey and Samoff - Burns.

Photographs taken by the undersigned.

ESTIMATED FIRE LOSS: STRUCTURE - $100,000; CONTENTS - $150,000
T O T A L - $250,000

DEVELOPMENT SERVICES DEPARTMENT

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

That notice has been given me that this permit may be used only in compliance with the Fullerton Municipal Code, and all other applicable ordinances and laws.

That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.

That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.

That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.

I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non conforming construction at my own expense, and to otherwise act as and when required by the Fullerton Municipal Code.

LICENSED CONTRACTORS DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class B Lic. Number 164868 Date 1-7-86 Contractor Freeman

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9) (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.)

BUILDING PERMIT
Issued by
DEVELOPMENT SERVICES
DEPARTMENT
CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

1. That notice has been given me that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
2. That this permit does not allow occupancy, and that no occupancy is permitted of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
3. That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
4. That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.
5. I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the building code.
6. That, as required by California Code of Civil Procedure section 1193 (), the name, branch designation if any, and address of the construction lender is as follows: ; or the fact that there is no known construction lender for the work authorized by this permit as follows: .
7. That I hold a now valid State of California Contractor's License No. , Class , or that exemption is claimed under the provisions of the following sections of the California Business and Professions Code:
   7044 ☐ 7045 ☐ 7046 ☐ 7047 ☐
   7048 ☐ 7049 ☐ 7050 ☐ 051 ☐
   7052 ☐ 7053 ☐
8. That I will not employ any person to perform any work authorized by this permit in any manner so as to require me to provide Workmens Compensation Insurance under California Labor Code section 3700. (Delete if a certificate is filed with the Development Services Department as authorized by said section 3700.)
9. That application is hereby made for a building permit to construct the work or improvement described on the permit attached hereto, and hereby tender all required fees and charges therefore.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED OR COMMENCED AND SUSPENDED AFTER A PERIOD OF 120 DAYS. NEW PERMIT REQUIRED TO COMMENCE WORK.

PERMIT APPLICATION — JOB ADDRESS — PART 2

1201-1223 — 50 STATE COLLEGE
NUMBER — STREET

PERMIT NUMBER 67156 — TYPE OF PERMIT ELEC.

DEVELOPMENT SERVICES DEPARTMENT

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares

That notice has been given me that this permit may be used only in compliance with the Fullerton Municipal Code, and all other applicable ordinances and laws.

That this permit does not allow occupancy, and that no occupancy is permitted of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.

That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.

That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.

I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any man conforming construction at my own expense, and to otherwise act as and when required by the Fullerton Municipal Code.

LICENSED CONTRACTORS DECLARATION

I hereby affirm that I am [illegible] provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class ____ Lic. Number ____ Date ____ Contractor ____

OWNER BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9) (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner builder will have the burden of proving that he did not build or improve for the purpose of sale.)

☐ I, as owner of the property, am exempt from contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.).

☐ I am exempt under Sec. ____, B.&P.C. for this reason ____

Date ____ Owner ____

WORKERS' COMPENSATION DECLARATION

I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Workers' Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.) Policy No. ____ Company ____

Certified copy is hereby furnished Date ____ Applicant ____

CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE

(This section need not be completed if the permit is for one hundred dollars ($100) or less.)
I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation laws of California.

Date 10/8 — Applicant [signature]

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.). Lender's Name ____ Lender's Address ____

I certify that I have read this application and state that the above information is correct. I agree to comply with all city ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above mentioned property for inspection purposes.

THE PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED OR COMMENCED AND SUSPENDED AFTER A PERIOD OF 180 DAYS. NEW PERMIT REQUIRED TO COMMENCE WORK.

Re: 1201-23 South State College Blvd., Fullerton
SEISMIC MITIGATION PROGRAM

NOTICE AND ORDER

Dear Sir:

In accordance with Section 8906 of the Fullerton Building Code, this is to advise you that the building located at 1201-23 South State College Blvd., Fullerton has been identified as a structure which is likely to be damaged in an earthquake. The subject building has been determined to be of concrete tilt-up construction built prior to the adoption of the 1973 Uniform Building Code. These types of buildings typically do not have diaphragm ties and present a hazard to the public in the event of an earthquake. Due to this status, the building is deemed a hazardous structure and shall be abated per the provisions of Section 8905 of said code.

Based on our information, you are the owner of record or the person responsible for the subject building. It will therefore be your responsibility to comply with this notice and order and the provisions of Chapter 89 of said code.

The time limits for compliance are based on the degree of potential hazard as a function of the square feet and commensurate occupant load. As delineated in Table 89-A, the subject building has been placed in the classification for 15,001-50,000 square f and the time limits therein are now in force.

Appeal rights are defined in Section 8906(c) and you may exercise your right to appeal accordingly. Failure to appeal will constitute a waiver on your part to a hearing in this notice and order.

This notice and order will be placed on file with the County Recorder's Office and a deed restriction will be encumbered on the title. There is a County fee of $7 for filing said deed restriction which will be payable at the time the building permit is issued. Upon completion of all seismic and corrective work, the restriction will be removed.

If you fail to comply with the time limits, then the City will take the necessary actions to mitigate the hazards which may include vacation and demolition. Any costs generated by this notice and order will be assessed against the property.

Should you have any questions in this regard, please do not hesitate to contact me at 714/738-6558.

Yours very truly,

Chuck Daleo
Building Official

BUILDING DIVISION

JOB ADDRESS
1203 S. State College ave
NUMBER STREET
PERMIT NUMBER 95-05939 TYPE OF PERMIT Elec

DECLARATIONS

To obtain this permit, the undersigned hereby files th application and agre s, certifies and declares.
That notice has been give me that this permit ay be used only in com dance with the Fullerton Municipal Code, and all other applicable ordinances and la ws.
That this permit does not allow occupancy, i ed that no occupancy i permitted, of the construction for which this permit is issued until it has been approve d in writing by this office for occupancy after final inspection.
That this permit does not allow, and separate permits are required fo , any plumbing, electrical, heating and air conditioning work.
I agree that the city may enter upon the job p mises at any reasonab e time to inspect any work included under this permit, to remove any non-conformin construction at my ow expense, and to otherwise act as and when required by the Fullerton Municipal C de.

LICENSED CONTR CTORS DECLARATI N

I hereby affirm under penalty of perjury that I am licensed under provis ns of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Pro essions Code, and my license is in full force and effect.

License Class C-10 Lic No 717912
Exp Date 07/31/95 Contractor X

OWNER-BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contr ctors License Law for the following reason (Sec. 7031.5, Business and Profe ssions Code: Any city or county w hich requires a permit to con ruct, alter, improve, demolish, or repair any structure, pro ided for its issuance. Also, requires the applicant for such permit to file a signed statement that he or she is license pursuant to the provisi ns of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Divis n 3 of the Business and Professions Code) or that she or he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).)

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Profe ssions Code: The Contractors License Law does not apply to an owner of property who builds or improves there on, and who does such work himself or herself or through his or her own employees, pro ided that such improvements are not intended or offered for sale. If, however, the building or improvement is sol d within one year of co mpletion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.).

I, as owner of the property, am exclusively contracting with license d contractors to construct the project (Sec. 7044, Business and Professions Code: The Co ntractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.)

I am exempt under Sec. 17 . B & PC for this reason

Date Owner

WORKERS' COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one o the following declarations:

I have and will maintain a certificate of co sent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the perfo mance of the work for which this permit is issued.

I have and will maintain workers' compensa ion insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this per it is issued. My workers' compensation insurance carrier and policy number are:

Carrier Exempt Exp Date

Policy Number

This section need not be completed if the p rmit is for one hundred dollars ($100) or less).

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers compensation laws of California, and agree that if I should become subject to the workers compensation pro isions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date 12/12/95 Applica t X

WARNING: FAILURE TO SECURE WORKERS' C MPENSATION COVE AGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENAL IES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE C ST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTE EST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name

Lender's Address

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this county to enter upon the above-mentioned property for inspection purposes.

THE PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED WITHIN 180 DAYS, SHOULD ANY WORK AUTHORIZED BY THIS PERMIT BE SUSPENDED OR ABANDONED FOR 180 DAYS, THIS PERMIT SHALL BE NULL AND VOID. A NEW PERMIT WILL BE REQUIRED FOR ANY EXPIRED PERMIT.

BUILDING DIVISION

JOB ADDRESS 1207 S. STATE COLLEGE

PERMIT NUMBER BU06-01846 TYPE OF PERMIT BLDG

DECLARATIONS

To obtain a permit, the undersigned hereby files this application and agrees, certifies and declares:

That notice has been given me that this permit may be used only in compliance with the Fullerton Municipal Code, and all other applicable ordinances and laws.

That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.

That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.

I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the Fullerton Municipal Code.

LICENSED CONTRACTORS DECLARATION

I hereby affirm *under penalty of perjury* that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class _____ Lic. No. _____

Exp. Date _____ Contractor _____

OWNER-BUILDER DECLARATION

I hereby affirm *under penalty of perjury* that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.).

☐ I am exempt under Sec. _____ 17 _____ B. & P.C. for this reason _____

Date 9/26/06 Evelyn Rapp

WORKERS' COMPENSATION DECLARATION

I hereby affirm *under penalty of perjury* one of the following declarations:

☐ I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☐ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier _____ Exp. Date _____

Policy Number _____

(This section need not be completed if the permit is for one hundred dollars ($100) or less).

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date: _____ Applicant: _____

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm *under penalty of perjury* that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name _____

Lender's Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this county to enter upon the above-mentioned property for inspection purposes.

THE PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED WITHIN 180 DAYS, SHOULD ANY WORK, AUTHORIZED BY THIS PERMIT, BE SUSPENDED OR ABANDONED FOR 180 DAYS, THIS PERMIT SHALL BE NULL AND VOID. A NEW PERMIT WILL BE REQUIRED FOR ANY EXPIRED PERMIT.

OWNER-BUILDER DECLARATION

I hereby affirm *under penalty of perjury* that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.).

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.).

☐ I am exempt under Sec. _____ 17_____, B. & P.C. for this reason _____

Date _____ Owner _____

WORKERS' COMPENSATION DECLARATION

I hereby affirm *under penalty of perjury* one of the following declarations:

☐ I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☐ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: State Comp Exp. Date: 11/1/09

Policy Number: 9388-005449

(This section need not be completed if the permit is for one hundred dollars ($100) or less).

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date: _____ Applicant: _____

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm *under penalty of perjury* that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).

Lender's Name _____

Lender's Address _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this county to enter upon the above-mentioned property for inspection purposes.

THE PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED WITHIN 180 DAYS, SHOULD ANY WORK, AUTHORIZED BY THIS PERMIT, BE SUSPENDED OR ABANDONED FOR 180 DAYS, THIS PERMIT SHALL BE NULL AND VOID. A NEW PERMIT WILL BE REQUIRED FOR ANY EXPIRED PERMIT.

DECLARATIONS

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

That notice has been given me that this permit may be used only in compliance with the Fullerton Municipal Code, and all other applicable ordinances and laws.

That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.

That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.

I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the Fullerton Municipal Code.

LICENSED CONTRACTORS DECLARATION

I hereby affirm *under penalty of perjury* that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

To Whom it May Concern,

I Rick Quinn am a licensed contractor (#837571, Business License #550358). I am giving permission to my nephew, Jeff Etchandy, to pull the permit on this project, 1207 S. St. College, Fullerton, CA 92831.

Thank you,

Rick Quinn

Job Address: _____

City of Fullerton
General Notes for all Development Construction Projects[1]

The following notes shall be either incorporated or attached to the approved construction/grading plans and represents the minimum standards of good housekeeping which must be implemented on all construction projects.

1. Sediments and pollutants from areas disturbed by construction shall be retained on site using structural controls to the maximum extent practicable.
2. Dust shall be controlled by watering.
3. No paint, plaster, cement, soil, mortar or other construction related materials shall be allowed to enter streets, gutters or storm drains. All materials and waste shall be removed from the site.
4. Stockpiles of soil shall be properly contained to reduce or eliminate sediment transport form the site to streets or adjacent properties via runoff, vehicle tracking, or wind.
5. Appropriate BMPs for construction-related materials, wastes, spills, or residues, shall be implemented to reduce or eliminate transport from the site to streets or adjacent properties via runoff, vehicle tracking, or wind.
6. Runoff from equipment and vehicle washing shall be contained at construction sites unless treated to reduce or remove sediment and other pollutants.
7. All construction contractor and subcontractor personnel are to be made aware of the required best management practices and good housekeeping measures for the project site and any associated construction staging areas.
8. At the end of each day of construction activity all construction debris and waste materials shall be collected and properly disposed in trash or recycle bins.
9. Debris and waste material from construction sites may only be collected by the City's contractor, State and City-licensed contractors using their own equipment. No subcontracting is permitted. The occupant of any dwelling or establishment may remove any garbage or rubbish accumulated on the premises occupied by him and dispose of the same in a lawful manner. F.M.C. 5.14.096. For disposal information, call MG Disposal at (714) 238-3301.

As the project owner or authorized agent of the owner, I have read and understand the requirements listed above, necessary to control storm water pollution from sediments, erosion, and construction materials, and certify that I will comply with these requirements.

Print Name: Jeff Etchandy

PERMIT NUMBER B300832 TYPE OF PERMIT Elec

DECLARATIONS

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

That notice has been given me that this permit may be used only in compliance with the Fullerton Municipal Code, and all other applicable ordinances and laws.

That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.

That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.

I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the Fullerton Municipal Code.

LICENSED CONTRACTOR'S DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

License Class ___ Lic. Number ___ Date ___ Contractor ___

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9) (commencing with Section 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).)

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner builder will have the burden of proving that he did not build or improve for the purpose of sale.)

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) license pursuant to the Contractor's License Law.)

☐ I am exempt under Sec. ___ B.&P.C. for this reason ___

Date ___ Owner ___

WORKER'S COMPENSATION DECLARATION

I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Workers' Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.) Policy No. ___

Company ___ Certified copy is hereby furnished Date ___ Applicant ___

CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE

(This section need not be completed if the permit is for one hundred dollars ($100) or less.)

I certify that in the performance of the work for which this permit is issued, I SHALL NOT EMPLOY ANY PERSON IN ANY MANNER SO AS TO BECOME SUBJECT TO THE WORKERS' COMPENSATION LAWS OF CALIFORNIA.

Date ___ Applicant ___

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.) Lender's Name ___

Lender's Address ___

I certify that I have read this application and state that the above information is correct. I agree to comply with all city ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THE WORK IS NOT COMMENCED WITHIN 180 DAYS, SHOULD ANY WORK, AUTHORIZED BY THIS PERMIT, BE SUSPENDED OR ABANDONED FOR 180 DAYS, THIS PERMIT SHALL BE NULL AND VOID. A NEW PERMIT WILL BE REQUIRED FOR ANY EXPIRED PERMIT.

Evelyn Roper
2302 West Trask Avenue
Santa Ana, CA 92706

SUBJECT: METER RESET - 1215 SOUTH STATE COLLEGE BOULEVARD.

Dear Ms. Roper:

The Building Division has received and reviewed your request for a waiver of underground electrical service requirements for a meter reset at 1215 South State College Boulevard, Fullerton.

The property is presently zoned M-1.

On Friday, February 1, 1985, a field inspection was conducted of the subject property. The existing service panels are in-place and intact. The service drops are in-place. There will be no change in the present service drop arrangement.

The Southern California Edison Company District Office was contacted. Their field representatives had inspected this site during the week. They observed no problems with the service entrance arrangement.

This is a meter reset. No change in the service panel is required. Accordingly, your request for an electrical waiver of underground requirement is granted.

Thank you for this opportunity to be of service.

Sincerely,

Bill Howard
Building Official

Subject: Waiver of Underground electrical Requirement -
1201-1223 South State College Blvd.
Industrial Complex

Gentlemen:

A waiver of the underground electrical requirement at the subject industrial complex is hereby requested.

A previous tenant of 1215 S. State College discontinued the use of the 3-phase service in November, 1984. DNB Engineering, present tenant, did not have use for the 3-phase service since he moved in. In the meantime, the Edison Company removed the 3-phase service. A new heating and cooling system has been recently installed and the 3-phase service is required for the equipment. Therefore, we are asking for a reset of a meter we have had in use for the building.

Since we have made no alterations or repairs, nor have a safety problem, and are merely requesting a meter service reset that the Edison Co. removed at their discretion, we feel the underground electrical requirement should be waived.

Sincerely,

BUCKLEY ENTERPRISES

CITY OF FULLERTON

BUILDING DIVISION

JOB ADDRESS 625 S Ellis

PERMIT NUMBER [illegible] TYPE OF PERMIT STREET Fix

DECLARATIONS

I hereby affirm that I am exempt from the Contractors' License Law for the following reason: Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractors' License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractors' License Law does not apply to an owner of property who builds improvements thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale).

I, as owner of the property, am exempt from the Contractors' License Law because I will be subcontracting all the construction work to be performed on the project to contractors licensed pursuant to the Contractors' License Law.

I am exempt under Sec. [illegible] B. & P.C. for this reason:

Date Owner

WORKERS' COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations:

I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and the policy number are:

Carrier Date

Policy Number

I certify that, in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that, if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date Applicant

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000) IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued. Sec. 3097, Civ. C.)

Lender's Name

Lender's Address

I certify that I have read this application and state that the above information is correct. I agree to comply with all City ordinances and State laws relating to building construction, and hereby authorize representatives of the City to enter upon the above-mentioned property for inspection purposes.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED WITHIN 180 DAYS, SHOULD ANY WORK, AUTHORIZED BY THIS PERMIT, BE SUSPENDED OR ABANDONED FOR 180 DAYS, THIS PERMIT SHALL BE NULL AND VOID. A NEW PERMIT WILL BE REQUIRED FOR ANY EXPIRED PERMIT.

All provisions of laws and ordinances governing this type of construction will be complied with whether specified herein or not. No person shall be employed in violation of the Labor Code of the State of California.

I agree that [illegible] permit [illegible] work authorized [illegible] to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above mentioned property for inspection purposes. I agree to save indemnify and keep harmless the City of Fullerton against liabilities, judgments, costs, and expenses which may accrue against said City in consequence of the granting of this permit. Additionally, I certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.

BUILDING PERMIT
Issued by
DEVELOPMENT SERVICES
DEPARTMENT
CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

1. That notice has been given so that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
2. That the permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved as ready by this office for occupancy after final inspection.
3. That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
4. That a double fee will be paid for any permit issued after work is thereby allowed has been commenced.
5. I agree that the City may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to require any corrections of the construction at my own expense, and to otherwise act as are required by the building code.
6. That, as required by California Code [illegible] section 7031.5 (Business and Professions Code), I will not employ any person in any capacity in connection with the work authorized by this permit unless such person is registered pursuant to the Contractors' State License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the California Business and Professions Code).

8. That I will not employ on the work to be performed under authority of this permit any person who is required to be licensed pursuant to the provisions of Division 3, Chapter 9 of the California Labor Code unless such person has been licensed and has had issued to him a Public Employment Services Department as authorized by said section.
9. That application is hereby made for a permit to construct the building, structure, improvement or work described on the permit attached hereto and hereby made a part hereof, and to comply with all laws regulating the same.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED OR COMMENCED AND SUSPENDED AFTER A PERIOD OF 120 DAYS. NEW PERMIT REQUIRED TO COMMENCE WORK.

BUILDING PERMIT
Issued by
DEVELOPMENT SERVICES
DEPARTMENT
CITY OF FULLERTON

To obtain this permit, the undersigned hereby files this application and agrees, certifies and declares:

1. That notice has been given me that this permit may be used only in compliance with the Fullerton Building Code, the California Labor Code and all other applicable ordinances and laws.
2. That this permit does not allow occupancy, and that no occupancy is permitted, of the construction for which this permit is issued until it has been approved in writing by this office for occupancy after final inspection.
3. That this permit does not allow, and separate permits are required for, any plumbing, electrical, heating and air conditioning work.
4. That a double fee will be paid for any permit issued after any work thereby allowed has been commenced.
5. I agree that the city may enter upon the job premises at any reasonable time to inspect any work installed under this permit, to remove any non-conforming construction at my own expense, and to otherwise act as and when required by the building code.
6. That, as required by California Code of Civil Procedure section 1193 (), the name, branch designation if any, and address of the construction lender, or the fact that there is no known construction lender, for the work authorized by this permit as follows: _____
7. That I hold a now valid State of California Contractor's License No. _____ Class _____ If none, indicate whether exemption is claimed under any of the following sections of the California Business and Professions Code:
   7044 ☐ 7045 ☐ 7046 ☐ 7047 ☐
   7048 ☐ 7049 ☐ 7050 ☐ 7051 ☐
   7052 ☐ 7053 ☐
8. That I will not employ any person to perform any work authorized by this permit in any manner so as to require me to provide Workmens Compensation Insurance under California Labor Code section 3700. (Delete if a certificate is filed with the Development Services Department as authorized by said section 3800.)
9. That application is hereby made for a building permit to construct the work of improvement described in the permit attached hereto, and hereby tender all required fees and charges therefore.

THIS PERMIT SHALL EXPIRE BY LIMITATION AND BECOME NULL AND VOID IF THIS WORK IS NOT COMMENCED OR COMMENCED AND SUSPENDED AFTER A PERIOD OF 120 DAYS. NEW PERMIT REQUIRED TO COMMENCE WORK.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

EDR Property Tax Map Report

Environmental Data Resources, Inc.'s EDR Property Tax Map Report is designed to assist environmental professionals in evaluating potential environmental conditions on a target property by understanding property boundaries and other characteristics. The report includes a search of available property tax maps, which include information on boundaries for the target property and neighboring properties, addresses, parcel identification numbers, as well as other data typically used in property location and identification.

Thank you for your business.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien and AUL Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EDR BUILDING PERMIT REPORT

About This Report

The EDR Building Permit Report provides a practical and efficient method to search building department records for indications of environmental conditions. Generated via a search of municipal building permit records gathered from more than 1,600 cities nationwide, this report will assist you in meeting the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Building permit data can be used to identify current and/or former operations and structures/features of environmental concern. The data can provide information on a target property and adjoining properties such as the presence of underground storage tanks, pump islands, sumps, drywells, etc., as well as information regarding water, sewer, natural gas, electrical connection dates, and current/former septic tanks.

ASTM and EPA Requirements

ASTM E 1527-13 lists building department records as a "standard historical source," as detailed in § 8.3.4.7: "Building Department Records - The term building department records means those records of the local government in which the property is located indicating permission of the local government to construct, alter, or demolish improvements on the property." ASTM also states that "Uses in the area surrounding the property shall be identified in the report, but this task is required only to the extent that this information is revealed in the course of researching the property itself."

EPA's Standards and Practices for All Appropriate Inquires (AAI) states: "§312.24: Reviews of historical sources of information. (a) Historical documents and records must be reviewed for the purposes of achieving the objectives and performance factors of §312.20(e) and (f). Historical documents and records may include, but are not limited to, aerial photographs, fire insurance maps, building department records, chain of title documents, and land use records."

Methodology

EDR has developed the EDR Building Permit Report through our partnership with BuildFax, the nation's largest repository of building department records. BuildFax collects, updates, and manages building department records from local municipal governments. The database now includes 30 million permits, on more than 10 million properties across 1,600 cities in the United States.

The EDR Building Permit Report comprises local municipal building permit records, gathered directly from local jurisdictions, including both target property and adjoining properties. Years of coverage vary by municipality. Data reported includes (where available): date of permit, permit type, permit number, status, valuation, contractor company, contractor name, and description.

Incoming permit data is checked at seven stages in a regimented quality control process, from initial data source interview, to data preparation, through final auditing. To ensure the building department is accurate, each of the seven quality control stages contains, on average, 15 additional quality checks, resulting in a process of approximately 105 quality control "touch points."

For more information about the EDR Building Permit Report, please contact your EDR Account Executive at (800) 352-0050.

EDR® Environmental Data Resources Inc

BUILD FAX PROPERTY HISTORY

EXECUTIVE SUMMARY: SEARCH DOCUMENTATION

A search of building department records was conducted by Environmental Data Resources, Inc (EDR) on behalf of Stantec on May 17, 2021.

TARGET PROPERTY

1223 S State College Blvd
Fullerton, CA 92831

SEARCH METHODS

EDR searches available lists for both the Target Property and Surrounding Properties.

RESEARCH SUMMARY

Building permits identified: **YES**

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

GLOSSARY

General Building Department concepts

- **ICC:** The International Code Council. The governing body for the building/development codes used by all jurisdictions who've adopted the ICC guidelines. MOST of the US has done this. Canada, Mexico, and other countries use ICC codes books and guides as well. There are a few states who have added guidelines to the ICC codes to better fit their needs. For example, California has added seismic retrofit requirements for most commercial structures.
- **Building Department (Permitting Authority, Building Codes, Inspections Department, Building and Inspections):** This is the department in a jurisdiction where an owner or contractor goes to obtain permits and inspections for building, tearing down, remodeling, adding to, re-roofing, moving or otherwise making changes to any structure, Residential or Commercial.
- **Jurisdiction:** This is the geographic area representing the properties over which a Permitting Authority has responsibility.
- **GC:** General Contractor. Usually the primary contractor hired for any Residential or Commercial construction work.
- **Sub:** Subordinate contracting companies or subcontractors. Usually a "trades" contractor working for the GC. These contractors generally have an area of expertise in which they are licensed like Plumbing, Electrical, Heating and Air systems, Gas Systems, Pools etc. (called "trades").
- **Journeymen:** Sub contractors who have their own personal licenses in one or more trades and work for different contracting companies, wherever they are needed or there is work.
- **HVAC (Mechanical, Heating & Air companies):** HVAC = Heating, Ventilation, and Air Conditioning.
- **ELEC (Electrical, TempPole, TPole, TPower, Temporary Power, Panel, AMP Change, Power Release):** Electrical permits can be pulled for many reasons. The most common reason is to increase the AMPs of power in an electrical power panel. This requires a permit in almost every jurisdiction. Other commons reason for Electrical permits is to insert a temporary power pole at a new construction site. Construction requires electricity, and in a new development, power has yet to be run to the lot. The temporary power pole is usually the very first permit pulled for new development. The power is released to the home owner when construction is complete and this sometimes takes the form of a Power Release permit or inspection.
- **"Pull" a permit:** To obtain and pay for a building permit.
- **CBO:** Chief Building Official
- **Planning Department:** The department in the development process where the building /structural plans are reviewed for their completeness and compliance with building codes
- **Zoning Department:** The department in the development process where the site plans are reviewed for their compliance with the regulations associated with the zoning district in which they are situated.
- **Zoning District:** A pre-determined geographic boundary within a jurisdiction where certain types of structures are permitted / prohibited. Examples are Residential structure, Commercial/Retail structures, Industrial/Manufacturing structures etc. Each zoning district has regulations associated with it like the sizes of the lots, the density of the structures on the lots, the number of parking spaces required for certain types of structures on the lots etc.
- **PIN (TMS, GIS ID, Parcel#):** Property Identification Number and Tax Map System number.
- **State Card (Business license):** A license card issued to a contractor to conduct business.
- **Building Inspector (Inspector):** The inspector is a building department employee that inspects building construction for compliance to codes.
- **C.O.:** Certificate of Occupancy. This is the end of the construction process and designates that the owners now have permission to occupy a structure after its building is complete. Sometimes also referred to as a Certificate of Compliance.

GLOSSARY

Permit Content Definitions

- Permit Number: The alphanumerical designation assigned to a permit for tracking within the building department system. Sometimes the permit number gives clues to its role, e.g. a "PL" prefix may designate a plumbing permit.
- Description: A field on the permit form that allows the building department to give a brief description of the work being done. More often than not, this is the most important field for EP's to find clues to the prior use(s) of the property.
- Permit Type: Generally a brief designation of the type of job being done. For example BLDG-RES, BLDG-COM, ELEC, MECH etc.

Sample Building Permit Data

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Stantec were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.
